1. CIDX's Don Moman runs special event amateur call

Yahoo group: cidxclub
Date: 2002-04-02 22:30:45 UTC
From: sheldonharvey
Topic: 1 Message: 1

Our very own Don Moman, VE6JY, is operating a special amateur radio callsign March 25 to April 25, 2002.

The special callsign VC6R has been assigned to Mr. Don Moman (VE6JY) from March 25th to April 25th 2002 to commemorate the 75th Anniversary of the awarding of a patent to Mr. E.S.Rogers for the alternating current radio.

Look for the station operating throughout the H.F. amateur radio bands during this period.

Sheldon

2. CIDX Board of Directors elected

Yahoo group: cidxclub
Date: 2002-04-02 22:32:59 UTC
From: sheldonharvey
Topic: 2 Message: 2

The results of the 2002 CIDX Board of Directors election are in.

The Board members for the next two year term will be: Sheldon Harvey, President, Mickey Delmage and Gilles Michaud, Vice Presidents, and Fred van Driel, Secretary & Webmaster.

Thanks to those who took the time to vote.

Sheldon

3. Hot Mediumwave DX Tip

Yahoo group: cidxclub
Date: 2002-04-17 11:00:21 UTC
From: sheldonharvey
Topic: 3 Message: 3

Hello everyone. I have some advance news of a maintenance shutdown period for three consecutive nights for CINW 940 kHz. Montreal (940 News).

The station will be going off the air from Midnight to about 4:30 AM each of the following nights:

April 23rd Midnight into Wednesday, 4:30 AM

April 24th Midnight into Thursday, 4:30 AM

& April 25th Midnight into Friday, 4:30 AM

As of now there is not yet any planned work on the 690 kHz. transmitter (their sister station CINF Info 690) but seeing as it is at the same transmitter site, I would consider checking it out as well.

Thanks to 940 News' Patrick Letang for informing DXers of this well in advance.

4. Help SVP: Interference from RF pet fence installation

Yahoo group: cidxclub
Date: 2002-04-21 01:52:29 UTC
From: krypto22ca
Topic: 4 Message: 4

My neighbor intends to install a radio fence containment system on his property for his dog. As I understand it this would take the form of a loop antenna at or below ground level. Documentation on Internet says most of the transmitters operate at 10kHz, some at 7. The common property line already has one of my on-the-ground antennas along it.Has anyone had any experiences, good or bad with these installations? Any suggestions on how to approach this with the neighbor? I recall reading some time ago that these 'fences' transmit a wideband, dirty signal possibly radiating harmonics well into the 455 kHz and MW bands. My only experience with frequencies this low was many years ago, trying to get NAA Cutler Maine (A US Navy landbased submarine transmitter) off open wire 'carrier telephone' conversations. By the way, we knocked it down a couple of dB, so many customers in northern Quebec were treated to the NAA Morse everyday on long distance telephone calls until the arrival of microwave radio.

I just received word that CINW 940 AM will NOT be going off for a third evening tonight after Midnight. The company doing the transmitter work was able to complete their work after just two nights.

6. IRC Chat

Yahoo group: cidxclub
Date: 2002-07-15 01:58:33 UTC
From: David Ross
Topic: 6 Message: 6

Hello

If you would like to chat with swl's in real time to see what's hot on the shortwave and mediumwave bands, log onto IRC Chat via the Starchat Network.

PC users can download and install chat software:

Mirc downloaded from:

http://www.mirc.com/get.html

StarMirc

http://www.starchat.net/StarMIRC.exe

StarPirch

http://www.starchat.net/StarPIRCH.exe

FAQ and Help files

http://www.starchat.net/help.htm

Mac users can download Ircle from:

http://www.ircle.com/download.shtml

A listing of Starchat servers is at:

http://www.starchat.net/servers.htm

There are four channels of interest to shortwave/mediumwave/amateur radio listeners:

#cidx is for CIDX members and anyone else who wants to chat. Just set this channel up and waiting for people to drop in and chat.

#swl is for general shortwave listening and is usually populated by swl's from around the world. This channel is busy most evenings utc as well as during the day and night on weekends.

#mwdx is for mediumwave DX and is mainly populated by Canadian and US MW Dxers.

#hamradio is for anyone wanting to discuss amateur radio.

If you drop in any channel and are alone there, try again later.

If you need any assistance getting IRC Chat up and running feel free to email me.

David Ross

7. Hello, again, everyone

Yahoo group: cidxclub
Date: 2002-10-01 11:41:44 UTC
From: sheldonharvey
Topic: 7 Message: 7

Happy 40th anniversary to all of us! CIDX is celebrating its 40th anniversary. We have some events planned here in Montreal on the weekend of October 18 to 20, including a dinner in Montreal on Friday, October 18 at the Bar B Barn restaurant.

We are inviting a number of radio personalities in Montreal, plus representatives from Radio Canada International. We are also planned to visit the facilities of RCI on Saturday afternoon.

It doesn't look like we'll have a big turnout, but it should still be fun.

As I am sure you have noticed, this group has been very inactive. Of course you all receive your Messengers each month, but it would be nice to see a little more activity around here.

Feel free to stop by here from time to time and post what you've been up to, radio wise. If you've been doing some listening and hear something interesting that you think others in the group would appreciate, please post it.

Perhaps you have some questions to throw out for the group as well.

Our whole reason for being is communicating, exchanging information and helping each other out to better enjoy our favourite pastime. Please give this some consideration and get involved, if you get the urge.

I'll try to practice more of what I preach around here as well.

Sheldon

8. CIDX 40th anniversary convention activities

Yahoo group: cidxclub
Date: 2002-10-14 18:16:45 UTC
From: sheldonharvey
Topic: 8 Message: 8

The schedule has now been finalized for events next weekend to mark the 40th anniversary of the Canadian International DX Club here in Montreal. These events are open to CIDX members and Radio in Montreal group members. Reservations for the Friday evening dinner are still open. The numbers at this time are lower than expected. If you would like to attend, you still have time to contact me to reserve your spot.

Here is the schedule of events. I hope to see many of you at any or all of them:

1) Friday, October 18 - TIME: 2 PM - Tour of the studios and offices of 940 News and Info 690, hosted by Yvon Vadnais. LOCATION: 215 St. Jacques Street West. We will meet in the lobby of the building for 2 PM.

2) Friday, October 18 - TIME: 6:30 PM - Club/Group Dinner
LOCATION: The Bar B Barn - "Heaven" Room - top floor
1205 Guy Street - between Rene Levesque & Ste. Catherine
METRO: Guy PARKING: Validated behind the restaurant
COST: Pay your own way. There will be special guest speakers, plus a large selection of door prizes to be awarded. This restaurant specializes in barbecued chicken and/or ribs. NOTE: Your name must be on the reservation list to attend this event. Please confirm your attendance with me by e-mail

3) Saturday, October 19 - TIME: 10 AM - Tour of Corus Group radio stations CFQR-Q92, CKOI and Cool-FM, hosted by Ted Silver. LOCATION: 2110 Gordon, Verdun, Quebec. We will meet in front of the building for 10 AM.

4) Saturday, October 19 - TIME: 1 PM - Tour of the new offices, studios and facilities of Radio Canada International, Canada's international shortwave broadcasting service, hosted by RCI announcer and producer Ian Jones. LOCATION: Maison Radio-Canada, Rene Levesque Blvd. East, between Papineau and Wolfe Streets. We will meet at the west side, Wolfe Street entrance to the CBC-Radio Canada tower at 1 PM. NOTE: There is security clearance required for entrance to the building, so please arrive on time. Late arrivers will not be permitted access.

5) Sunday, October 20 - TIME: 10 AM - Tour of CKUT-FM Radio McGill and participation in the live broadcast of The International Radio Report, hosted by Sheldon Harvey and Bill Westenhaver. LOCATION: 3647 University, just south of Pine Avenue. We will meet in front of the building at 10 AM.

6) Sunday, October 20 - TIME: Noon - Visit to Mount Royal to visit the major radio and television broadcasting tower located on Mount Royal. LOCATION: We will gather in the Beaver Lake parking lot on Mount Royal (Chemin Camillien Houde/Remembrance Road), then walk to the base of the broadcasting tower for an information session and photo opportunities.

Our hosts at 940 News/Info 690, at Q-92 and at Radio Canada International would appreciate having a rough idea of the number of people who will be attending each of the tours. If you are planning to attend any or all three of these tours, please contact me to confirm your attendance.

I encourage you to get out and participate in these special activities planned to mark the 40th anniversary of CIDX. I think you will enjoy them.

Looking forward to seeing everyone next weekend. If you have any questions regarding any of the activities, please contact me.

Sheldon

9. Good Pacific conditions on MW

Yahoo group: cidxclub
Date: 2002-10-27 00:07:27 UTC
From: ve6tnf
Topic: 9 Message: 9

The last couple of mornings have been among the best for several years to the Pacific from this QTH. Yesterday morning yielded identifiable audio on 7 frequencies from Australia, while today. though not quite as good, was still far better than average. The strongest signal is consistently 4BC in Brisbane on 1116, which at times was stronger than the Americans on 1110 and 1120. That hasn't happened in a number of years.

73, Nigel

10. Really hot mediumwave DX Tip

Yahoo group: cidxclub
Date: 2002-11-08 14:10:51 UTC
From: sheldonharvey
Topic: 10 Message: 10

The following hot DX tip of a logging of 4VEH from Haiti appeared on the DX Tip board of the National Radio Club last night. Barry McLarnon, a mediumwave DXer in Ottawa heard them on 840 kHz last night. Here is the text of his posting.

"I've had them as a tentative before, but tonight at 2202 EST I got a clear 4VEH ID ("Radio quatre-vay-uh-ash"). Still in with a great signal here at 2220 - gent with slow FF preaching, somewhat muffled audio, and occasional musical interludes... go get 'em!"

Barry McLarnon VE3JF Ottawa, ON
bdm@...

As he says, go get 'em. The station to avoid on 840, at least in the eastern part of the continent is WHAS in Louisville, Kentucky.

Good luck, everyone. Let us know if you hear it.

Sheldon

11. Tentative Christmas Dinner Date - Dec. 12

Yahoo group: cidxclub
Date: 2002-11-08 14:35:11 UTC
From: sheldonharvey
Topic: 11 Message: 11

I am looking at Thursday, December 12 as the tentative date for the Montreal Chapter CIDX Christmas dinner.

The location would be the Buffet La Stanza in Ville St. Laurent (same location as last year). It's affordable, the variety of food fits all tastes, it's easily accessible by public transport or by car (free parking).

Again, this would be a join affair between CIDX and the Radio in Montreal Yahoo Group.

If you would like to attend, please contact me to confirm your reservation. Please feel free to bring along a spouse, family members, or friends. The more the merrier! We should have the usual array of door prizes to give out, plus this date is a week after the all important Montreal Fall radio ratings are released. There should be lots to talk about.

Look forward to seeing everyone. Let's try to break the attendance record on this one.

Sheldon

12. Christmas Dinner confirmed for December 12

Yahoo group: cidxclub
Date: 2002-12-02 22:20:03 UTC
From: sheldonharvey
Topic: 12 Message: 12

Thursday, December 12, 2002
TIME: 6:30 PM
LOCATION: Buffet La Stanza, 1132 Marcel-Laurin, St. Laurent (corner Cote Vertu) Metro Cote-Vertu.
COST: Buffet $9.95 per person, drinks extra

If you would like to attend, please send me an e-mail, indicating how many people you will be, to ve2shw@...

We will have a selection of door prizes, plus we will be having members of the Yahoo Group Radio in Montreal attending as well, as we did last year.

Looking forward to seeing everyone there.

17. A useful list

Yahoo group: cidxclub
Date: 2002-12-27 21:59:51 UTC
From: sheldonharvey
Topic: 17 Message: 17

If you're looking for a great list of HF frequencies to monitor, take a look at this list from the Monitoring Times web page. There are 1000 frequencies, including some broadcast stations, but mostly dominated by utility stations. Many of the US military frequencies may be very active over the next little while, given the developing situation in the Gulf region.

http://www.monitoringtimes.com/html/mttopHF.html

Thanks to Monitoring Times and Grove Enterprises for offering up this excellent resource.

Sheldon

Here is a short note I received from a friend in Virginia. All Yahoo Group users should take note. Sorry for being off topic here, but I thought it would be helpful to everyone.

Sheldon

"For those of us who us use the Yahoo Groups, Yahoo is now using something called "Web Beacons" to track Yahoo Group users around the net and see what you're doing - similar to cookies. Take a look at their updated privacy statement:

http://privacy.yahoo.com/privacy/us/pixels/details.html

About half-way down the page, in the section "Outside the Yahoo! Network", you'll see a little "click here" link that will let you opt-out of their new method of snooping. You may want to do this. Once you have clicked that link, you are opted out.

Notice the "Success" message at the top of the next page. Be careful, because on that page there is a "Cancel Opt-out" button that, if clicked, will *undo* the opt-out."

Sneaky little devils!

20. Iraqi Freedom frequencies

Yahoo group: cidxclub
Date: 2003-03-30 18:04:00 UTC
From: David Ross
Topic: 20 Message: 20

7630u is probably the most active live war zone frequency. Also try 4039u and 4739u.

If you have trouble receiving these give one of the web based java radios a shot. Here is one I use:

http://194.165.225.6/sfors/index.html

You will need a real audio player installed to receive the audio.

David

21. BFBS and Radio Sawa Info

Yahoo group: cidxclub
Date: 2003-04-06 17:30:53 UTC
From: sheldonharvey
Topic: 21 Message: 21

This is a list of frequencies for English language broadcasts from British Forces Broadcasting Services (BFBS), Operation Telic, for British troops in Iraq.

Frequencies in KHZ GMT Times

7260 and 15795 0300 - 0400
11975 and 15795 0400 - 0600
15425 and 15795 0600 - 0700
17895 and 13860 1400 - 1600
15245 and 13860 1600 - 1700
15150 and 13860 1700 - 1800
13760 and 6105 1800 - 2000

The United States is also broadcasting a service to Iraq, in Arabic, being heard worldwide on shortwave. It is called Radio Sawa. They occasionally include English announcements which people can monitor. It is interesting to listen to the broadcasts, even though they are in Arabic. You have to wonder how the Iraqi people are accepting these broadcasts. They are very Western sounding, with lots of pop music, etc. Not only has their country been invaded (oops, that's liberated!) by the US, but their radio waves have been invaded as well!

To get the full shortwave schedule of Radio Sawa, go to:

http://www.radiosawa.com/radiosawa_swavefreqs.cfm

One of the strongest signals, coincidentally just off the old frequency of Radio Iraq International (11787 kHz), is 11785 kilohertz. This one is heard from 1800 UTC right through to 0300 UTC daily.

Good listening

Sheldon

Hi Sheldon:
Just got around to doing this. I was wondering if you could put the items for sale for me in the space you had suggested, been quite busy at work, haven't been online too much this month. Thank you for this. Will try to get online tomorrow night. Thanks again. Also don't forget the next month's messenger for me, advertise for me. Trying to get a better radio out there for good listening.
Thanks again.

27. Radio Ezra

Yahoo group: cidxclub
Date: 2003-10-02 14:35:11 UTC
From: sheldonharvey
Topic: 27 Message: 27

Just received this e-mail from Radio Ezra:

Dear Short Wave Listeners and Radio Enthusiasts.

Radio Ezra is pleased to announce a new series of weekly broadcasts commencing on Sunday 30th November 2003. The broadcasts will be targeted towards Europe, North Africa and the Middle East in the 41 meter band on 7560 kHz between 19:00 and 19:30 UTC via the Sitkunai transmitter in Lithuania.

Radio Ezra is the Radio Voice of the World Karaite Movement and the first and only counter missionary radio station in the world. Reception reports are very welcome and a QSL certificate will be issued to any correct reports. Due to limited funding there is unfortunately no PO Box contact and reception reports can only be sent by either fax or e-mail, details of which will be read out on air and may also be found on the station's website.

To commemorate Radio Ezra's new image and purpose, ten special QSL cards will be issued to the first ten reception reports received. Thank you.

John D. Hill (Station Owner)

28. Big time sunspot!

Yahoo group: cidxclub
Date: 2003-10-22 11:35:20 UTC
From: sheldonharvey
Topic: 28 Message: 28

One of the largest individual sunspots, #484, in years is now visible on the surface of the Sun. It has already disrupted radio communications and continues to grow in size. It is already reported to be about the size of the planet Jupiter!

You can check out more info on this, on a daily basis, together with other space related info, on the following site:

http://www.spaceweather.com

We have already been experiencing some pretty intense auroral conditions. Mediumwave DXers in North America have been picking up a lot of deep south US, Mexico, Caribbean, Central and South American signals over the past few nights.

Given the continued growth and activity of the sunspot region (there are some great photos on the Space Weather site), we should be in for more. Of course this isn't really helping out shortwave reception much, as giant flares are causing K indexes to rise around the 6 mark in recent days.

30. Mediumwave antennas and tools

Yahoo group: cidxclub
Date: 2003-11-13 14:28:20 UTC
From: sheldonharvey
Topic: 30 Message: 30

Well known mediumwave DXer Mark Connelly posting the following item on one of the National Radio Club's discussion groups. I thought some of you would also find this interesting. There are a few links to some helpful webpages at the end of this as well, including Mark's own page. Mark is in Massachusetts, not far from the Atlantic shoreline and has had some spectacular results DXing mediumwave at the shore:

"Gerry Thomas' Quantum Phaser is a good choice for something ready-to-go. ANC-4 is junk, in my opinion. I tried one and got WRKO-680 all over the band: it's 4 km from here running 50 kW. The MFJ-1026 has to be modified to work on the AM broadcast band. I'm not sure how handy you are with a soldering iron. If you can make it over to Ray Arruda's on 22 NOV, I can offer some alternative phasing unit approaches, including some of my homebrew designs.

For a tuned loop for domestic DXing, the Quantum QX is your best current choice. Box loops (square, 1 m or so on a side, about 12 turns) aren't terribly difficult to build if you want to go that way. The Kiwa is good inasmuch as you can place the loophead at a window or on a balcony while the tuner / controller box stays at the receiving position: this is highly valuable for those in steel-frame apartment buildings (or hotels).

Also consider things like an active whip (e.g. MFJ-1024)and broadband loop (Wellbrook ALA-1530, or equivalent homebrew). You want inputs to the phaser that can be used to set up a single-direction null (cardioid) pattern to knock out stuff from the west when you're going for Europe & Africa at local sunset and again at Euro-sunrise (about midnight local). Broadband inputs are better than tuned so a null in a given direction will hold up over a swath of several hundred kilohertz.

Pennant, Flag, Kaz-Delta, Ewe, and K9AY antennas also have a lot of merit since they produce a cardioid pattern and don't take up too much space. The 4.9 by 10.4 meter Flag antenna is the DX workhouse here in Billerica (about 25 km inland). I very seldom use a figure-of-eight type tuned loop (Kiwa, Quantum, or whatever) for serious foreign DXing.

Anything will get DX at the beach at sunset, but once you've logged the blowtorches like 1206, 1467, and 1521, you will want something that will extract more exotic TA's from the domestic muck.

Think about the use of noise-reducing / impedance-matching transformers on any longwires you set up. The idea is more DX signal

and less local electrical noise.

Don't discount DXing from the car during the milder weather. You're only a few minutes from sites such as Powder Point (Duxbury) that take me over an hour to reach. I've heard a ton of DX out of there including Armenia-864, several Angolans, Lesotho-1197, Gambia-907.8 & 648, Burkina-Faso-747, Guinea-1385.9, tentative South Africa-846, many Euro's, Jordan-801, Sudan-1296, numerous Brazilians, etc.: all of this with an active whip and broadband loop on the roof of the car. The big salt-marsh at the mouth of the North River (Route 3A, Marshfield-Scituate town line) is another hoppin' site. I bagged a slew of Germans, Norway, Sweden, Denmark, and Russia out of there one afternoon around sunset when I parked at the boatyard. More often I use the similar Rowley, MA salt-marsh site north of Boston since it's less than a one hour drive and there's room for on-ground wires of appreciable length along a dirt / mud trail.

My RF Circuits webpage has a number of antenna and accessories articles to get you started.

As far as a receiver goes, the Drake R8B or the AOR 7030+ would be equally good choices. Anything cheaper (Palstar, etc.) would not be enough of a performance / features leap from the 7600 and anything conceivably better would be well over $2000. I'm not yet convinced that the new crop of DSP-based receivers would pull out any DX not loggable on an R8B or 7030+ connected to the same antenna.

You and other local DXers are welcome to drop in on the DXpedition I plan on running in Plymouth, MA on Thursday 20 NOV. Because of a work meeting, my arrival time there looks more like about 4-5 p.m. rather than 3 p.m. originally mentioned."

31. CIDX Christmas Dinner

Yahoo group: cidxclub
Date: 2003-12-01 20:14:41 UTC
From: sheldonharvey
Topic: 31 Message: 31

CIDX is holding its annual Christmas dinner, together with members of the Radio in Montreal Yahoo Group, on Thursday, December 11th, at 7:30 PM (Note that this time has been changed from the previously announced 6:30 PM.)

The location is Buffet La Stanza, 1132 Marcel Laurin (corner of Cote Vertu, in St. Laurent.

If you would like to attend, please get in touch with me by telephone, or by e-mail at ve2shw@... as soon as possible.
Feel free to bring along a spouse, friend, etc., but you must let me know if you are planning on attending.

The restaurant is an all-you-can-eat buffet style, all types of food. It is a pay your own way dinner. There will be numerous door prizes given out, as in past years.

Hope to see many of you there.

Sheldon

32. FW: [HCDX] Final SW broadcasts from Norway and Denmark

Yahoo group: cidxclub
Date: 2003-12-31 20:31:13 UTC
From: David Ross
Topic: 32 Message: 32

------ Forwarded Message

Cc: Erik Køie <erikkoie@...>, "Bernt Erfjord, DX-News"
<berfjord@...>
Subject: [HCDX] Final SW broadcasts from Norway and Denmark

Dear DX-friends,

The Kvitsoy and Sveio shortwave transmitters are supposed to make their
final sign off at 2255 UTC tonight.

Again today I noticed that Merlin had replaced the NRK broadcasts at
xx.00 - xx.29 by relaye of the BBC World Service in English. However at
2000 an announcement in Norwegian was made, and 2000-2015 the New Year
message from the Crown Prince Haakon was broadcast in Norwegian.

The broadcasts in Danish continue at xx.30-xx.55 relaying the domestic
newscasts.

The final newscast was that of 1730 UTC and the final broadcast from
Denmark is now repeated as follows:

2030-2055 on 7490 Sveio and 9980 Kvitsoy.
2130-2155 on 7490 Sveio and 7560 Kvitsoy.
2230-2255 on 7465 Kvitsoy and 7560 Sveio.

The final Danish broadcast consists of:

xx.30 An adv that SW broadcasts are closed tonight and can be replaced
by a "free" newsservice on telephone 70 11 1830 (However this is
only free, if people calls from Denmark itself !).
xx.31-xx.50 Repeat of domestic newscast from 1730 which includes:
xx.32-xx.34 Extracts of Queen Margrethe's New Year's message.
(However her greetings to Danes abroad were omitted !)
xx.40-xx.43 Extracts from the feature by Preben Lund on the
closure of the SW broadcasts which started with the inaugural message by
King Frederik IX in 1948 (xx.40-xx41)
xx51-xx52 announcement that "Due to New Year holidays, the usual Sports
news are not broadcast, but will return on Jan 02." (Also wrong because
the SW broadcasts cease tonight !)
xx.53-xx.54 piano concert
xx.54-xx.55 Interval signal: "Som en rejsenlysten flaade."

That is all from Denmark !

Best 73 and Happy New Year,

Anker Petersen
DSWCI
Denmark

33. CIDX Board of DIrectors Election

Yahoo group: cidxclub
Date: 2004-01-13 02:27:17 UTC
From: sheldonharvey
Topic: 33 Message: 33

The January 2004 Messenger is in the mail.

This issue includes the ballot for the 2004-2005 Board of Directors election.

Please take the time to do your democratic CIDX member duties and vote for your favourite candidates. Details on e-mailing or mailing in your votes are in the bulletin.

Deadline for voting is February 15th. Only current members of CIDX are entitled to a vote.

Thanks, and good luck to all the candidates.

Sheldon

36. Radio Prague Interview

Yahoo group: cidxclub
Date: 2004-02-13 14:44:05 UTC
From: drjbca
Topic: 36 Message: 36

Hello everyone,

I am in the city of Prague on vacation. David Vaughn of the English section of Radio Prague was kind enough to give me a tour of the facilities and we also conducted a brief interview which will be aired sometime this weekend (I wasn't able to get the particulars). BTW, the WRMI relay of Radio prague has been discontinued which will make it more difficult to hear the station if your are in the north-west of Canada. I should even make it to their website! I had a terrific time and David was kind enough to leave me a few Radio Prague souvenirs and I left a few Alberta/Canadian souvenirs. Once I get back to Canada I will post the photos that I took of the station and personnel.

37. Power Line Communications demonstration

Yahoo group: cidxclub
Date: 2004-03-16 12:19:03 UTC
From: sheldonharvey
Topic: 37 Message: 37

The following videos made in Austria demonstrate the type of interference that will most likely result once the proposed use of data over power lines is implemented here. This is very disturbing stuff. Thanks to Al Quaglieri in Albany, NY for sending this along.

A conference on this was held at the Winter SWL Festival this year as well.

Profile

How I found this great hobby called radio back in the ,1970's when I still fallowed hockey I wanted to get a score of a leaf game. I new I needed 1430 C K F H but on the way to 1430 I heard many other stations. So a few nights later I started my first list of stations 25 to 30 that first try. This has grew to 1050 stations as of 1-12 -04. I wish I had kept a date by date running log ,no such luck.. As I logged a new one it just went on a log sheet for that frequency .there are also many mobile logging in the 1050. Please check am list file this web site. The short list below is just a sam

1430

800

1000

760 750

940

C K F H P J B W C F L X E A B C Y V E S C M B I

Toronto

Bon Air Chicago

Radio International

Radio Caracas

Radio Reloj

Ont.

Netherlands Antilles

Illinois

Mexico City Caracas

Havana

Canada

West Indies

U. S A Mexico

Venezuela

Cuba

Then my next steps in the hobby came in 1975 when I went on the c..b. .radio as Marshall Dillon talking local and Dxing as unit 101 working many stations in the U. S .A. Then in 1996 finding that my ts450 had free band open ,I was able to work 92 countries and confirm 71 on 11m. Including Morocco ,Gibraltar Greenland Ukraine Zimbabwe and many more.

Going back to the 1980 to 84 time slot I took two steps in the hobby getting into swling On a 1969's Heath Kit GR54.listening to H C J B Radio Moscow ,Radio Australia and many others and even the odd pirate on 7415khz & 6955mhz.. Also getting my first scanner the original 10 channel barecat210. Quickly I found inversions on v f low band and began dx ing and listening to the usual local stuff. The winter dx on 42mhz was from California Highway Patrol, summer was southern, mid western state troopers. Also on 37& 39mhzI have heard county sheriffs and local p. u .c. type stations and a lot of other things. There will be scanning files added later

37.260

Tennessee state wide Police & Sheriffs

42..060 42.120

Missouri state police

42.420

Indiana state police

39.080 & other 39mhz Frequencies

Los Angeles County Sheriff

42.460 500 560

N. Carolina & Illinois state police

37.140

Virginia correctional Service

39.240

South Dakota state police

39.040

Sheriff Greenlee county Arizona

42.080 42.120

S. Carolina & Mississippi state police

42.940

Oregon Utah& Nevada state police

Then in the fall of 1995 I started my Amateur radio classes at C. N. I .B. Ottawa passing in April 1996 on air in August 96 as VE3TXT working mostly 80m &40m band playing swler on other bands until the fall of 92 when I got over the major mike shyness and started dxing and net control on on tars & T P net. To this point all most 50000 contacts 237 countries worked 227 confirmed D X. C .C award 200 countries. I will not let myself get drawn into picking out the rarest country because I have so many islands . It?s hard to pick just one. A countries that I will mention are Comoro Islands on 20 17 15 12 10 &10fm. Clipperton Island 17 12 10 Oman 20 17 15 12 10 this country is different because all contacts at different days with the same station A41LZ. What fallows are my first 10 H F dx contacts as an amateur in the order they were Worked.

Welcome to this special "Hurricane Frances" edition of the Radio HF Internet Newsletter. The following web sites offer a variety of information relating to Hurricane Frances which is currently over the Bahamas and is heading towards south-east Florida. Please feel free to share this information with any family members, friends, etc.

****

HURRICANE FREQUENCIES
http://www.hurricanefrequencies.com/

The following high-frequency hurricane season intercepts have been gleaned from numerous sources. Times and frequencies are subject to frequent change, and are listed for reference only. Check frequently during hurricane season for updates. This is the original Hurricane Frequencies list, published during every hurricane season since 1991.

2004 HURRICANE FREQUENCIES ☐ HUGH STEGMAN
http://www.ominous-valve.com/hurricne.txt

An updated list of HF hurricane related radio frequencies to monitor, prepared by Hugh Stegman

HURRICANE CITY
http://www.hurricanecity.com/

An excellent website which follows and reports on Atlantic hurricanes. There are many links to radar sites, radio stations, webcams, etc. from cities and states in storm areas. The site usually has streaming audio from area radio and/or TV services. They also broadcast live, in-house programmes during major storms.

NATIONAL HURRICANE CENTER
http://www.nhc.noaa.gov/

N.O.A.A.'s National Hurricane Center homepage. Be sure to check the of general information called "Learn about Hurricanes" to better understand these storms.

ATLANTIC TROPICAL WEATHER CENTER
http://www.atwc.org/

Since 1995, this has been the internet's most comprehensive listing of websites offering information on hurricanes, radar and satellite data. If you have not been to this site before, we recommend looking through the index first because the site is massive.

FEDERAL EMERGENCY MANAGEMENT AGENCY
http://www.fema.gov/

This page has front-page coverage of the agency's efforts for upcoming Hurricane Frances.

CARIBBEAN HURRICANE NETWORK
http://www.stormcarib.com/

StormCARIB is all about the Caribbean. Here you can find information, weather discussions and local reports regarding tropical systems threatening the Caribbean islands. A central part of this website is the network of special local hurricane correspondents, living on the islands, who will report, when need be, on how it looks and feels like around them.

HURRICANE AND STORM TRACKING
http://hurricane.terrapin.com/

The StormTrack system receives weather data from the US National Weather Service via satellite. The system creates an entry for each tropical depression, storm, or hurricane when the National Weather Service begins issuing advisories.

HURRICANE HUNTERS
http://www.hurricanehunters.com/

Although an old page, this site does give a lot of information on the planes that fly into storms to make important observations and take vital measurements.

THE HURRICANE WATCH NET
http://www.hwn.org/

Web site of this amateur radio network which has been serving the National Hurricane Centre and amateur radio operators during tropical storms since 1965. They transmit on 14325 kHz. USB

AMATEUR RADIO STATION AT THE NATIONAL HURRICANE CENTER
http://www.wx4nhc.org

Located at Florida State University, this organization has been offering public service during storms for 24 years. There are lots of useful links on this page.

SPECIFIC FLORIDA RELATED SITES

FLORIDA DIVISION OF EMERGENCY MANAGEMENT
http://www.floridadisaster.org/

This is an excellent, all-purpose site for emergency management services in the state of Florida, not only during this specific hurricane, but other events in Florida.

FLORIDA RADIO STATIONS
http://www.usnewslinks.com/radiostations/fl.html

This is a comprehensive list of links to AM and FM radio stations in Florida. You will need to check out individual station web pages to

determine which ones may be live streaming through their web sites.

FLORIDA TV STATIONS
http://www.usnewslinks.com/tvstations/fl.html

This is a similar listing of Florida state TV stations, with links to their pages.

FLORIDA NEWSPAPERS
http://dlis.dos.state.fl.us/fgils/flnews2.html

This site is developed and maintained by the State Library of Florida. Links are provided to a variety of Florida newspapers, some of which offer full text of current articles and archives, some of which offer only tables of contents.

MIAMI-DADE COUNTY PORTAL
http://miamidade.gov/wps/portal

Special site of Dade County, covering Miami. Lots of links and information here.

BROWARD COUNTY HURRICANE INFORMATION
http://www.broward.org/mainstory.htm

This is a special section of the Broward County webpage focusing on Hurricane Frances information.

STORM 2004 ☐ PALM BEACH POST
http://www.palmbeachpost.com/storm/content/weather/special/storm/index.html

Storm information for Palm Beach county.

CENTRAL FLORIDA HURRICANE CENTER
http://images.flhurricane.com/

A Weather Enthusiast Run Site Focusing on East Central Florida and the Entire Atlantic Hurricane Basin since 1995

THE CANADIAN INTERNATIONAL DX CLUB

CIDX is Canada's national radio monitoring club, serving radio hobbyists since 1962, entering our 42nd year of operation. Our monthly newsletter,
Messenger, covers all aspects of the radio monitoring hobby. Our August 2004 edition is now available. Sample copies are available for $2 each, in Canada or the U.S., or $3 overseas. Membership is open to radio hobbyists worldwide. Visit the CIDX web site for complete information, as well as special features and web site profiles, or for a membership application.

http://www.anarc.org/cidx/

THE INTERNATIONAL RADIO REPORT

The International Radio Report, on CKUT-FM Radio McGill, 90.3 FM in Montreal, is available via the Internet on RealAudio, live streaming, and on the airwaves of CKUT, Sunday mornings at 10:30 AM Eastern (1430 UTC). The show's co-hosts, Janice and Steve Karlock, present a weekly half-hour of news, information and developments in radio broadcasting. Visit the Radio McGill web page for full CKUT programming:

http://www.ckut.ca

You may listen to archived editions of the programme through the Radio McGill web site, and thanks to the initiative of Ricky Leong, of Brossard, Quebec, you can find the most recent edition of the programme archived at:

http://members.fortunecity.com/crazyaboutradio/

Send your comments or questions to the International Radio Report, by e-mail, to radioreport@yahoo.com

When you travel abroad, take Canada with you, with Radio Canada International on shortwave.

http://www.rcinet.ca

That is all for this month. Radio H.F. is a mail order, telephone and on line business, with great products, great prices, and personalized service, serving the radio community since 1995. Be sure to check out the Radio H.F. web site at

http://www3.sympatico.ca/radiohf

Please feel free to submit any information for the Newsletter by e-mail to hfnewsletter@.... All previous editions of the Newsletter can be found at:

50. Live Jamaican Radio

Yahoo group: cidxclub
Date: 2004-09-10 13:07:46 UTC
From: sheldonharvey
Topic: 50 Message: 50

It seems that several Jamaican radio stations available on the web offer live streaming audio, but on a subscriber basis only.

The website Hurricane City is streaming live audio from Jamaican radio station Power 106 through their website at:

http://www.hurricanecity.com

Simply click on the "Tune In Now" circle in the top right-hand corner of the front page.

Listening here now at 1300 UTC, Sept. 10. Excellent audio!

51. Re: Live Jamaican Radio

Yahoo group: cidxclub
Date: 2004-09-10 13:17:58 UTC
From: sheldonharvey
Topic: 50 Message: 51

I just noticed that the Power 106 audio is available free, for the present time, at:

http://www.go-jamaica.com/power/

It looks like this might normally be a pay service, but given the approaching storm, it seems that they have made it free access.

CC: ahajijama@..., ahaji80@...,
jhr_galkayo@...
Subject: Galkayo- Special TEST TRANSMISSIONS- Listener
Reports needed.
Date: Fri, 26 Nov 2004 10:19:38 +1100

H e l l o G a l k a y o,

Journalists for human rights sent me the following request that they received.

A short wave broadcaster EDC is running a TEST TRANSMISSION and they what to know if you can hear them in Galkayo.

-----Its Friday now so please try today because Canadian Thursday might be Friday in Somalia.
-----They might also be testing next MONDAY and TUESDAY (maybe thats TUESDAY AND WENDESDAY in Galkayo) so try next MONDAY, TUESDAY and WENDESDAY.

They will have 2 TEST broadcasts each day.

15370 kHz (about 19 meter band) 0630 - 0645 GMT (Local Somali western time 9:30am-9:45am) THAT IS 3.30AM to 3.45AM local Somali Arabic time.

15385 kHz (about 19 meter band) 1130 - 1145 GMT (Local Somali western time 2:30pm-2:45pm) THAT IS 8.30PM to 8.45PM local Somali Arabic time.

If you can or cannot hear them let me know and I will let Chris know.

Regards,
Sam Voron

Hello Guys,

EDC sent me the following email. I'm hoping either of you
might be able to help them out.

Dear Chris

Could you please ask someone in Galkayo to tune in and
monitor our programs for a testing that will be conducted on
Thursday and hopefully next Monday and Tuesday.We have already run a
test on last Monday and Tuesday but couldn't find people in Galkayo
to monitor it. The test will be broadcast on the following
frequencies and time:
15370 kHz (about 19 meter band) 0630 - 0645 GMT (Local time
9:30am-9:45am)
15385 kHz (about 19 meter band) 1130 - 1145 GMT (Local time
2:30pm-2:45pm)

Thank you for your help,

Abdoul.

86. KKOL-1300 new transmitter site

Yahoo group: cidxclub
Date: 2005-05-12 18:14:05 UTC
From: Eric Floden
Topic: 86 Message: 86

From a note on the Northwest Broadcasters site, I found this; article below, URL is http://seattlepi.nwsource.com/tv/223797_radiobeat12.html

---

When the conversation turns to conservative talk radio in Seattle, it usually involves Entercom's KTTH-AM (770) and Fisher's KVI-AM (570).

But there's actually a third local station in that segment -- Salem Communications' KKOL-AM (1300).

KKOL often is left out of the conversation, and rarely shows up in the overall Arbitron ratings because it doesn't have the prominent local or national hosts that the others do.

It also has been hampered by a weak signal. Ever since losing its lease with the Port of Seattle on a Harbor Island site in 2002, Salem has been looking for somewhere new to put its transmitter. In the interim it has been broadcasting at a reduced power of 1,000 watts from a boat moored near Salty's on Alki.

Salem had hoped to locate its antenna in the Kent Valley near Auburn, but that proposal ran into local opposition.

So now Salem is trying something different. David Fitts, general manager for Salem's five Seattle AM stations, says the company has signed a lease with the Port of Tacoma for property in Pierce County. The station is awaiting Federal Communications Commission approval for the move, which Fitts hopes will occur by the end of this year.

When it does, KKOL will be able to boost its power from the current 1,000 watts to 50,000 watts. To allow for that power boost, Salem bought a Port Angeles station at 1290 on the AM dial; that station is currently simulcasting KKOL and will go dark once KKOL goes to full power.

To go with the greater regional coverage the signal boost will provide, Fitts says changes could be coming in KKOL's weekday lineup of hosts, currently consisting of the nationally syndicated Michael Gallagher, Dennis Prager, Dave Ramsey and Hugh Hewitt shows.

"Hopefully we'll have some local presence," he adds. "It would give us instant credibility."

100. Satellite approved with strong CanCon rules

Yahoo group: cidxclub
Date: 2005-06-16 20:56:00 UTC
From: Eric Floden
Topic: 100 Message: 100

from
http://www.cbc.ca/story/arts/national/2005/06/16/Arts/crct-satellite050616.html

The CRTC on Thursday approved three subscription-based radio services, but imposed strong Canadian content rules.

INDEPTH: Satellite Radio: FAQs

"These licences will harness new technologies for Canadians and give Canadian talent exposure to listeners across Canada and indeed, North America...through new Canadian channels and airplay on U.S. channels," said CRTC chairperson Charles Dalfen.

The commission placed Canadian content rules on two of the services, which will deliver content through satellite.

Services from Canadian Satellite Radio and the CBC, partnered with Sirius, must offer:

At least eight original channels produced in Canada. A maximum of nine foreign channels may be offered for each Canadian channel.
At least 85% of the musical selections and spoken word programming broadcast on the Canadian channels must be Canadian.
At least 25% of the Canadian channels must be in the French language.
At least 25% of the musical selections on the Canadian channels must be new Canadian musical selections.
A further 25% of the selections must be by emerging Canadian artists.
The third pay service, to be run by CHUM and Montreal-based Astral Media, will used land broadcast towers.

That service must comply with current regulations under the Broadcasting Act, including 35% Canadian content and for French channels, a minimum of 65% French music.

Satellite radio offers commercial-free, near CD-quality sound no matter where listeners are in the country. It's delivered by a network of satellites, and not through the AM or FM band, which have distance and quality limitations.

Listening to satellite radio requires specialized equipment, such as a receiver for your home or car. In the United States, where satellite radio has been in operation for several years, receivers are a dealer option in some cars.

The proposed subscription fees are around $13 per month.

103. CIDX Logbook loggings

Yahoo group: cidxclub
Date: 2005-06-25 13:26:55 UTC
From: David Ross
Topic: 103 Message: 103

Hello

I am putting together the July CIDX Logbook loggings column this weekend. If you have shortwave loggings or related material that you would like to submit to CIDX Messenger, please do so ASAP.

Whether it is just one logging or many, please feel free to submit your contribution.

Thanks to those CIDX members who have already submitted their monthly loggings.

David Ross

116. OT: NPR station in eastern Ontario?

Yahoo group: cidxclub
Date: 2005-07-18 07:31:09 UTC
From: Eric Floden
Topic: 116 Message: 116

greetings,

I have been discussing radio with some non-DX friends, and the question of receving NPR came up.

Can anyone suggest a reliable source of over the air reception in Ottawa - Burnstown - Golden Lake areas? The NPR site allows you to enter towns in the US by state, and then it rates the available stations.

(A second question I have been unsuccessful in answering via Google is, what are the Ottawa area stations available on cable-FM?)

thanks

ef

You can tune into live scanner audio from some of the affected areas

Many internet feeds are available other than those listed below:

Take your pick:

http://64.5.58.149:8000
http://209.121.78.178:8000
http://66.255.148.51:8000
http://67.15.74.93:12345
http://216.22.26.45:8002
http://209.133.8.188:8000
http://205.134.173.10:8088

If you find more, please share them here.

SPECIAL NOTICE : Monitoring live police scanner traffic from New Orleans, Baton Rouge and Houston via Internet

If you would like to hear the operations from a police scanner in New Orleans and Baton Rouge, Louisiana, and just this morning, from the Houston Police Department at the Astrodome, there are some live streams being fed over the Internet on a service called "Shoutcast"

Go to:
http://www.shoutcast.com

From the main page, in the "Search" box, type the word "scanner"

You will get a list of various feeds from around the world, including several feeds from Louisiana and Houston. Simply click on the one which you want to access, save the file, and then open the file using WINAMP.

Once you have opened the file in WINAMP, simply click play on the WINAMP player.

Traffic has been extremely active this morning, particularly from the Astrodome.

Sheldon

141. listening from St John's NL

Yahoo group: cidxclub
Date: 2005-09-10 14:56:13 UTC
From: Eric Floden
Topic: 141 Message: 141

greetings

I will be in St John's from late 1 September until 16th and will have my Sony 7600GR and ICOM R10 along.

I would enjoy anyone's short list of things to listen for on both MW and SW. I would love to hear a TA (never did in years from Ottawa), and woudl enjoy hearing any interesting English-language SW programs that do not make their way to Vancouver. I won;t have a lot of time to listen, but we have one off-day (Monday), where I plan to hike up Signal Hill and likely be there pre-sunset till dark . . .

thanks

ef
Vancouver

From: Vernon Ikeda
Topic: 151 Message: 151

News VIA the Canadian Amateur Radio Bulletin
[http://www.hfradio.net/bulletin/international.htm]

Amateur Radio Resources at the Ready for Rita (Sept. 23, 2005)

As Hurricane Rita (click for latest advisory) continues on course for landfall sometime early Saturday morning along the Gulf Coast between Texas and Louisiana, Amateur Radio Emergency Service (ARES)/Radio Amateur Civil Emergency Service (RACES) and other Amateur Radio groups are at the ready. The Hurricane Watch Net (HWN) on 14.325 MHz has announced plans to remain active until 0300 UTC or as long as the 20-meter band is available--whichever comes first. ARRL Headquarters is maintaining regular contact with Section Managers and Section Emergency Coordinators in the Gulf Coast region as they muster their own volunteer resources, some of whom already have been deployed to emergency operating centers and other strategic sites.

Full Story: http://www.arrl.org/news/stories/2005/09/23/6/?nc=1

(ARRL News Service)

Rita Amateur Operations Continue (Sept. 24, 2005)

All amateurs are requested to keep HF emergency net frequencies clear for Hurricane Rita emergency operations, especially:

3.873 MHz (eves)
3.935 MHz (eves)
7.285 MHz (days)
7.290 MHz (days)
14.325 MHz

Amateurs who wish to assist should not travel to the affected area. ARRL HQ has received reports from Section Managers and Section Emergency Coordinators in the area that it is not safe to enter the area independently at this time. Amateurs who wish to assist should register via the Hurricane Rita Disaster Communications Volunteer Registration & Message Traffic Database and await instructions.

161. Quebec may join U.S. in daylight savings leap

Yahoo group: cidxclub
Date: 2005-10-17 19:23:31 UTC
From: Eric Floden
Topic: 161 Message: 161

from Globe & Mail:

Quebec may join U.S. in daylight savings leap Monday, October 17, 2005
Quebec -- Quebeckers who were dreaming of enjoying daylight for an extra hour in the fall and spring will soon get their wish.

The provincial government is on the verge of following the lead of the United States to extend daylight time by two months, according to various government sources.

Daylight time in Quebec now lasts from the beginning of April until the end of October. But with the proposed changes in 2007, the clocks in Quebec would spring forward by one hour the first weekend of March before falling back the last weekend of November. CP

>Subject: RAC Bulletin 05-017: VO1MRC Experiments on 60 metres

VO1MRC Experiments on 60 metres

The Marconi Radio Club of Newfoundland (MRCN) station VO1MRC
will be conducting an experiment from 0000-2400 UTC on the 22nd
and 23rd of October 2005. During this period, a CW beacon will
be in operation on 5269.5 kHz to determine the diurnal variations
in propagation. Signal reports from local and distant stations
will
be gratefully received. VO1MRC will be open briefly for 2 way
contacts with stations
authorized to transmit on 60 metres starting 0000 UTC each of
these days and will operate simplex on 5260.5 kHz CW and receive
also on 5346.5 USB. Please note that this will start on the
evening of Friday 21 October in North America. The experiment was
proposed by MRCN, endorsed by Radio Amateurs of Canada and
authorized by Industry Canada. For further information,
please check the MRCN web site by searching for VO1MRC on the
Internet.

[Note from Vernon: The Marconi Radio Club of Newfoundland web
page can be found at:

In awe of the radio

There have been days when he kept listening throughout the night and forgot to sleep, says Srikanth

Visually challenged Srikant, who has made radio a constant companion, tells Meera Srinivasan about several proud moments he experienced while participating in shows featuring an array of global personalities such as Hilary Clinton, Benazir Butto and Mark Knopfler.

But for the radio, I wouldn't be speaking in English," says K. Srikanth.

Srikanth, who works for the Food Corporation of India as telephone operator, has grown up listening to BBC, Voice of America and National Public Radio.

He stopped going to school after his seventh grade. "After my eye surgery, I was advised rest for two months. That was when I started fiddling with my father's Murphy radio," says Srikanth.

Voice of America was covering the fall of Skylab, a US space station, extensively. Being an astronomy buff, Srikanth was totally fascinated by this coverage. He slowly started listening to other stations and eventually found himself in total awe of the medium. "I would get so excited when I heard BBC's signature tune (Lilli Bolero)," he says, with the excitement of a 10-year-old speaking about his favourite toy.

Srikanth who wasn't well versed in English then, started listening to BBC's broadcast in Tamil. This way, he could find out what most of the English words meant. "When I got comfortable with English, the haze began to disappear slowly. I was fascinated by Robert Robinson's language, he casts a magical spell you know," says Srikanth, who gradually moved on to magazine shows, sports shows and shows on music.

`Off The Shelf' is one of the shows he enjoyed the most. In 15-minute reading sessions everyday, a book would be completed in 20 shows. "I was really moved when I read Mandela's `Long Walk To Freedom' on this show," he says. He recalls with pride his

participation in several radio shows, when he got to speak to people like Hilary Clinton, Benazir Butto and Mark Knopfler over the phone.

Srikanth speaks of his favourite presenters Pete Myers or Robert Greene with great affection and admiration. "I believe whatever Pete says. Such is the conviction I have in him; such is the conviction he has in himself, rather," he says. "Oh Pete Myers knows how to make you laugh and cry," he adds. He also enjoys Tenkachi Swaminathan's talks and Ajay's (Radio Mirchi) `Madras Tamil'.

"The greatest joy for me is to listen to a story, however long," says Srikanth, who says, that there were days when he kept listening throughout the night and forgot to sleep.

Though Srikanth initially looked at the radio as a medium that would educate him and equip him, now, it's his tool to achieve his goal. "I have a vision," he says. And this vision is to create a hunger-free world. "My idea of a super power is a blissful world," he notes, adding "we should be ashamed of having two square meals a day when thousands are dying of starvation everyday."

"I want to become famous. This world takes you seriously only if you are someone famous," he says. "Yes, the radio has made me a combination of a romantic and a cynical person," he smiles.

Hello

I am putting together the November CIDX Logbook loggings column today. If you have shortwave loggings or related material that you would like to submit to the CIDX Messenger Logbook column, please do so ASAP.

Whether it is just one logging or many, please feel free to submit your contribution.

Thanks to those CIDX members who have already submitted their monthly loggings.

172. Radio Six, Scotland

Yahoo group: cidxclub
Date: 2005-10-28 23:28:52 UTC
From: Daniel Sampson
Topic: 172 Message: 172

From the Radio Six website, updated today at 0640 UTC.

With the clocks in most countries going back an hour on Sunday, there's a change in the time of our transmissions to Europe, the Middle East, North Africa and the Pacific. From this Sunday the transmission will begin at 12:00GMT on the mighty 9,290kHz (via Latvia-ds). Each week we'll feature one of our regular web shows. This Sunday, Joanne Davy will be back with more of her kind of music. And from Saturday November 5th, Saturday Sounds will start at 07:00GMT. In reality, this should mean these programmes appear at the same time as before, because most listeners will have adjusted their clocks simultaneously, but listeners in New Zealand will hear the show an hour later than previously.

There appear to be no changes to the rest of the frequencies and the 5105 relay from Maine is still listed as being on hiatus and 15725 via Italy is also listed inactive. This should make the Radio Six schedule as follows:

0700-0800 9290 via Latvia to Europe Asia and Pacific Saturday
0700-0800 13840 via Italy to Europe Africa and Middle East 2nd Sunday of month

0830-0930 13840 via Italy to Europe Africa and Middle East 2nd Saturday of month
1200-1300 9290 via Latvia to Europe Asia and Pacific Sunday

1900-2000 5775 via Italy to Europe Africa and Middle East 2nd Thursday of month

The first edition of the Prime Time Shortwave B-05 English schedules has been uploaded to the website, http://www.primetimeshortwave.com At Prime Time Shortwave you can find the schedules sorted by time, country or by frequency. The schedules are available in excel, DBase, ASCII and html table formats. The PalmOS file will be available once Dan Lyddy has created it. The DX media program guide will be available once Mickey Delmage has updated it. The ASCII text file sorted by country is available at http://www.primetimeshortwave.com/country.txt and the ASCII text file sorted by time is available at http://www.primetimeshortwave.com/time.txt

182. RAC Prepares draft letter for use in response to IC's BPL consultation.

Yahoo group: cidxclub
Date: 2005-11-14 02:17:31 UTC
From: Vernon Ikeda
Topic: 182 Message: 182

RAC Prepares draft letter for use in response to IC's BPL consultation.

Some time ago, Industry Canada posted a Gazette notice seeking comments from spectrum users on a proposed Canadian policy on Broadband over power lines (BPL). For clubs and individual amateurs wishing to comment on Industry Canada's proposal, RAC has prepared a draft letter you may wish to use as a template. RAC Director Ed Frazer says "The template is a guide for amateurs and clubs in preparing their response, and they are encouraged to add their own thoughts and additional examples of the value of amateur radio to Canadian and the international society. Respondents should not just copy the document and sent it "as-is" to Industry Canada.

The template can be found at:

http://www.rac.ca/downloads/2005_11_BPLResponse.doc

199. CBC Radio identifications

Yahoo group: cidxclub
Date: 2005-12-17 15:10:17 UTC
From: Alain
Topic: 199 Message: 199

Good day.

I have almost finished monitoring one by one every CBC Radio One and Radio-Canada streamed broadcast and have some observations.

Radio Canada "Première Chaine" stations identify properly every hour on the hour before the news, with the callsign of the main station. The only noted exception was 88.1 Charlottetown PEI which skipped the callsign but mentioned the frequency.

CBC Radio One has no formal station identification at any time. Some of them, not many, may give the local station's frequency and origin after the news and the weather forecast. Check for local broadcasts on the available schedules on the Internet. Sometimes a local broadcast might mention something that remotely sounds like a station ID... a passing mention of, for example... "On CBC Radio One in Saskatchewan" for example.

One observation of note: every morning at 6:18 AM Pacific Time (0918 ET), during the program "North by North West" on CBU 690, after the national news, the local news, the weather forecast and the first song featured on the program, the program host mentions the frequencies for Vancouver and Victoria, as well as a frequency of one of the numerous CBC Radio One relays on the B.C. network, a different one each time.

Have fun!

From: raja raja
Topic: 203 Message: 203

COLOMBO: Long before bullets and suicide bombers gave Sri Lanka dismal global headlines, even as its tourism scene and airline brought it a special aura, Radio Ceylon pioneered a revolution in broadcasting. Emerging as a trans-national broadcaster and introducing chatty engagement with listeners, it conquered South Asia's airwaves.

For aficionados from the `radio generation' spanning the 1950s and 1970s, no day was complete without tuning in to Radio Ceylon, now called the Sri Lanka Broadcasting Corporation (SLBC).

As it turned 80 on December 16, the SLBC had long lost its position as the ruler of the region's airwaves. It now competes with a scattering of private broadcasters and has paid the price for not keeping up with the times.

SLBC's precursor, Colombo Radio, started off a few years after broadcasting made its debut in Europe. Radio Ceylon, as it was called between 1949 and 1972, was catalysed by the shifting of the Radio SEAC (South East Asia Command) to the island in 1949.

"We were the radio generation. Radio Ceylon was our introduction to Ceylon," recalls Nirupama Rao, the Indian High Commissioner to Sri Lanka. The SLBC's continued popularity in India was in full force a few months ago. When its Hindi service was discontinued, the Indian High Commission in Colombo was inundated with letters from India, and the programme was subsequently restored.

Enthusiasts remember Tamil broadcaster Mayilvaganam for infusing life into the airwaves. A walk along the corridors of the SLBC building in Colombo ? once a mental hospital ? takes one along the bylanes of broadcasting history. Old studios retain the charm and romance of an era fast fading from memory.

Massive investment is now on the cards. Sunil Sarath Perera, Chairman, SLBC, wants to digitise the collection of "over one lakh Sinhalese, Tamil, English and Hindi songs" and share them with the National Archives.

Eric Fernando, who started his SLBC career as a broadcaster in the mid-1970s and was its Director-General between 1998 and 2001, is emphatic that "no radio station anywhere in the world can pride itself of such a collection of original material, including 78-rpm records of the 1920s and 1930s." These should be re-formatted digitally and form the basis for a range of attractive programmes, he said.

Foray into commercial broadcasts earned Radio Ceylon a name for itself. But challenges from television, cassette-recorders and private radio stations, sliced away chunks of its audience and revenue.

206. [Forward]: Fessenden Special Event Station - Canadian Radio pioneer remebered.

Yahoo group: cidxclub
Date: 2005-12-24 06:27:36 UTC
From: Vernon Ikeda
Topic: 206 Message: 206

From the Radio Amateurs of Canada News Page.

Canadian Radio pioneer remembered

This month marks the 100th anniversary of one of the most significant events in the history of amateur radio. One day in December 1905, an engineer at a receiving station based at Machrihanish in Scotland was listening in when - to his astonishment - he heard the voice of Reginald Fessenden. What made this so special was that Fessenden was at the time in North America - this was the first time that a voice transmission had been copied across the Atlantic.

Remarkably, it was purely by accident. Fessenden - a talented if eccentric Canadian scientist - had actually been talking to another station in Maryland, USA but, thanks to the wonder of propagation, his signal made its way across the Atlantic.

This was not the only first achieved jointly by Fessenden and the Machrihanish station. A month later, after the Scottish station had been readied for transmission, it and Fessenden undertook the first ever two way CW radio contact across the Atlantic. In this respect, Fessenden was ahead of his great rival Marconi who at
that point had only achieved a one-way crossing.

Fessenden was also in 1900 the first to use HF alternators and first to superimpose the human voice on radio transmissions. He also made the first radio music broadcast, on Christmas Eve 1906. His other achievements include inventing AM and writing over 500 patents. And yet, despite his great contribution to radio, he rarely received the credit he deserved, and died in 1932 a largely forgotten man. Meanwhile, his arch competitor Marconi had become a legend.

There was also to be a sad ending for the Machrihanish station with which Fessenden achieved his pioneering radio contacts. The station was closed down in December 1906 - less than a year after the first two-way CW contacts across the Atlantic - after severe gales blew down its mast.

To mark Fessenden's pioneering work with the Machrihanish station, the special event callsign GB1FVT will be activated during the first week in January from the Machrihanish site. Operation will be on all HF bands, CW and SSB. Another special

event station - AA1A/BO - will be aired from Brant Rock in the US. (Thanks to the RSGB)

GU0/MU0, GUERNSEY. Operators Paul/F6EXV and Jan/DJ8NK will be active as MU0EXV and GU0VNK, respectively, from Bailiwick, January 20-30th. Activity will be on 160-10 metres, CW, SSB and the digital modes. QSL via their home callsigns (QRZ.com addresses). This activity will also count for the Guernsey Island (main) lighthouse (WLOTA LH-0013).

HI9, DOMINICAN REPUBLIC. Tibor, HA7TM and his XYL will be here between January 18th and February 2nd. Look for Tibor to sign HA7TM/HI9 from HI9CF's QTH at Las Terrenas, Samana, Dominican Republic. He will use an IC-706 w/100 watts into a 7 element Log Periodic Yagi, rotary dipole for 40m, FD4 multiband wire antenna and possibly a dipole for 160m depending on local situation.

KG4, GUANTANAMO BAY. Jose, N4BAA (KG4SB), and Bill, W4WV (KG4WV), will be heading back to GITMO from January 21-31st. Activity will be on all bands 160-6 metres (including 60m!) and on all modes. During a 2-4 day period, Bill (KG4WV) will activate LIGHTHOUSE GIT-001 as well. Jose will also be active in the CQ 160 Meters CW Contest (January 28-29th). QSL via their home callsigns.

On the weekend of Jan 6th, a windy rain storm came through my area and
broke my antenna wire. I repaired it with about a loss of 10 feet of wire.
My antenna is now about 70 feet in length and is now at an angle. Reception
of the bands from about 4.7 to 10 Mhz has been GREAT during the morning to
noon hours. 21 mHz has been dead most of the time with 17 mHz down to 11 mHz
normal reception. I do not know why the lower bands are suddenly alive with
strong signals BUT I understand the reception in Australia is also
tremendous too! What is happening??? Whatever it is, I hope it will last a
long time for us radio listeners.

220. CBC sign-on an ID procedures

Yahoo group: cidxclub
Date: 2006-01-29 19:52:31 UTC
From: Alain
Topic: 220 Message: 220

Here are some recent observations (January 2006) with regards to CBC radio sign-on times and procedures.

CBC Radio One stations seem to generally sign on at 5:AM local time during the week after an announcement on CBC Radio Overnight bidding farewell to those stations "that are going to cut away for local programming after the CBC news". Sign-on time is 5:57AM during the weekend, after the conclusion of CBC Radio Overnight's final chapter from Radio Australia.

Some stations will play the national anthem at 5:57, perhaps partially or in its entirety. Some stations give a complete listing of transmitters including callsigns and power. The details seem to be more and more sketchy and incomplete as we go from East to West. The most detailed sign-on was from Newfoundland, the least from Whitehorse. St.John's lists frequencies, callsigns and powers of the relays, Halifax mentions callsigns and frequencies, The Maritimes and Quebec list frequencies, further into Ontario, only a list of relay sites are mentioned, not even frequencies. From Lake Superior on, only the regional address is given, sometimes mentioning that there are "numerous frequencies in various locations". Vancouver signs on with the maritime forecast, Whitehorse with filler music only from 5:57 to the 6:AM newscast.

While CBC Radio One stations sign on three minutes before the 6:AM newscast, Radio Canada signs on right after the 6:AM newscast.

Here are some noted particularities about some of the ID procedures. Some CBC Radio One stations ID one particular relay at a time, soon after the CBC news and the local weather. Thunder Bay and Moncton do this regularly. Other stations don't ID at all: Sudbury, Manitoba, Saskathewan, the North for example. CBC British Columbia lists a couple of frequencies at 6:18 AM Pacific after the news, the weather and the first song featured on the program North by Northwest. Perhaps others do this as well during their own local programming, but it might take some time before I pick up their pattern.

Radio-Canada stations ID just before the news on the hour. Most of them will give the callsign.

Hope this helps.

221. Foward: Ohio/Penn DX Bulletin #745 - Ham in Space.

Yahoo group: cidxclub
Date: 2006-01-29 22:48:42 UTC
From: Vernon Ikeda
Topic: 221 Message: 221

HAM IN SPACE NEWS. Congratulations to International Space Station (ISS) Commander Bill McArthur, KC5ACR, for achieving "Worked All States" (WAS) and "Worked All Continents" (WAC)from NA1SS. He contines to work on his DXCC as well. On Sunday afternoon, January 29th, just as this was being written, your editor heard Bill state he now has 95 countries. ADDED NOTE: Your editor would like to thank Bill for the QSO on Tuesday morning, January 24th.

PLEASE NOTE: An interesting event will be taking place this week. OPDX readers may want to drag out the old 2 meter HT for this event. Bill McArthur and his crewmate, Valery Tokarev, are scheduled to do a space walk on February 3rd and will release "SuitSat-1". As the "ARRL Letter" states, "--quite possibly the most unusual Earth satellite ever. SuitSat consists of a surplus Russian Orlan space suit converted into a transmit-only satellite with an FM downlink frequency of 145.990 MHz. Using the callsign RS0RS, it will transmit voice messages, telemetry and an SSTV image on a nine minute cycle as it orbits Earth. The batteries powering the satellite are expected to last about a week, and SuitSat's free-floating, decaying orbit should cause it to re-enter Earth's atmosphere after some six weeks in space. The SuitSat signal should be strong enough to hear using a VHF transceiver or scanner and a simple
antenna." For more details on this event and pictures of SuitSat, please visit the following Web pages (Plenty of interesting reading!):

228. Digital broadcast: radio's next wave

Yahoo group: cidxclub
Date: 2006-02-16 15:38:13 UTC
From: raja raja
Topic: 228 Message: 228

Digital broadcast: radio's next wave?

ANAND PARTHASARATHY

Waiting in the wings is a compelling mix of digital sound, text and video broadcasting options

RADIO RENAISSANCE: Digital radios, portable TV and phone-TV are built to use digital audio broadcast and digital mobile broadcast standards.

"ALL THE running you can do to keep in the same place. If you want to get somewhere else, you must run at least twice as fast as that," said the Queen to Alice in Lewis Carroll's `Through the Looking Glass.'

It is a thought that seems almost prophetic today when one looks at the phenomenon in India that is being called `the rebirth of radio.'

The sudden spurt of interest that followed the unshackling of local Frequency Modulation (FM) radio from government control and the way these new stations are attracting a new, young and mobile audience, is being seen as a new leap of technology in a medium that will be 100 years old in 2006.

Yet, along with the back-patting and the satisfied smirks, last week, a new sobering message was trickling down from the Broadcast Engineering Society's international conference on terrestrial and satellite broadcasting, `BES Expo 2006', held in the nation's capital.

Deployed in 40 countries

This was a reminder that a hot new technology was waiting in the wings ? indeed, it had already been deployed in 40 countries, with over 1000 services on the air. It is called digital audio broadcast (DAB) or digital radio, a term which today includes digital mobile broadcast (DMB), that is, TV and multimedia. (There is a rival digital broadcast standard known as HD Radio, mostly used in the U.S.)

DAB identifies the generic technology of digital broadcasting, including the main standard that it

follows (Eureka 147). It is promoted by a global non-governmental organization called the World DAB forum, which has its operational headquarters in the U.K.

In fact, the core technologies to move radio broadcast as we know it today, whether Amplitude Modulation (long wave, medium wave and short wave) and FM, from the analogue to the digital world, can be traced back to leading British research centres like Imperial College, London and the cluster of technology companies which has mushroomed around Cambridge University.

Not surprisingly the U.K. is well ahead on the road map of digital radio with 12 per cent of households accounting for 3 million digital radio receivers, which can listen to over 400 digital broadcast stations within the country.

Equally unsurprisingly, Singapore became the first country in Asia, to launch a digital radio initiative and currently has 14 stations on the island. China is conducting trials and plans to deploy digital radio using the DAB standard, in time for Beijing Olympics in 2008.

Korea which already has a lively digital broadcasting operation, has moved one notch up the value chain, and harnesses DMB to provide mobile TV from terrestrial as well as satellite platforms on a variety of portable devices.

The Korean broadcasting Commission is currently in India to demonstrate terrestrial DMB. Indian Government agencies, as well as private players like Bharti , Star TV , Zee TV and Tatas, are said to be associating with these trials; while All India Radio has an ongoing digital radio experiment in Delhi.

Backward compatibility

What does all this mean for the customers? At workshops organised in Delhi, Mumbai and Bangalore earlier this week, WorldDAB brought together experts from U.K., Singapore, Taiwan and Sweden to evangelise digital broadcasting and showcase their own offerings.

Nick Bank of Radioscape, U.K., explained that it was now possible to build backward compatibility with analogue broadcast systems into chips that fuelled DAB.

Hence the digital broadcast receivers on sale today, some of them as cheap as $50, can also receive conventionally broadcast LW, MW, SW and FM content.

Crystal clear reception

Lindsay Cornell, Principal System Architect with BBC Research explained that DAB over longer distances with foot prints comparable to short wave could be achieved with an extension known as Digital Radio Mondiale. While DAB was currently restricted to the 30 megahertz band, the new DRM standard, would push this to 120 megahertz .

One of the beauties of DAB is that it allows some tweaking to the audio band so that data at 50 kilobits per second can also be simultaneously broadcast.

That is why in addition to its crystal clear reception quality, digital radio receivers are also able to provide text-based station identification, programme guides and weather information or news snippets.

Interestingly, some of the most exciting developments in digital broadcast are happening in India.

The Bangalore-based Epigon, has created circuit modules which will enable the country's only digital satellite radio provider, WorldSpace to launch a terrestrial operation as and when it is licensed to do so.

Epigon's CEO Radhakishan Rao, explained that the company had also perfected a mobile TV solution based on the DAB standard.

In fact, explains Glenn Vandevoorde of Future Waves, Taiwan, terrestrial digital TV broadcasts are already being received on mobile phones, in many Pacific Rim countries and they may well represent the future of broadcasting, where a single digital standard will rule across radio and TV.

"India must embrace a digital future," says WorldDAB's Asia advisor, Jeff Astle, "Asia is already a hot bed of digital broadcast technologies."

Nobody expects today's FM and other analogue radio technologies to vanish overnight.

Even optimists give it another decade; but with so many countries already declaring a cut-off date for analogue TV, it is inevitable that radio too will soon have to count the days for a digital deadline.

The time to start, for India, could be here ? and now.

Hello

I am putting together the next CIDX Logbook loggings column today. If you have shortwave loggings or related material that you would like to submit to the CIDX Messenger Logbook column, please do by tomorrow at the very latest.

Whether it is just one logging or many, please feel free to submit your contribution. They are appreciated by all.

Thanks to those CIDX members who have already submitted their monthly loggings.

The first edition of the English shortwave schedules have been posted at Prime Time Shortwave, http://www.primetimeshortwave.com

Schedules are sorted by time, country and frequency. They are available in the following formats: ASCII text, tab delimited, HTML table, DBase, Excel. Daniel Lyddy had a hard drive crash so the PalmOS version may not be available right a way.

OLI 96.8 F.M IS VERY FAMOUS FM STATION IN
SINGAPORE.THEY ALSO BROADCAST IN 7170 KHZ IN FOR A
LONG TIME.
BUT TODAY (14.04.2006) ONWARDS THEY CHAANGED THEIR
FREQUENCY FROM 7170 KHZ TO 7275 KHZ. THEY ALSO
INTRODUDED PODCASTING SERVICE ALSO.

Hello

I am putting together the May CIDX Logbook loggings column. If you have shortwave loggings or related material that you would like to submit to CIDX Messenger, please do so ASAP.

Whether it is just one logging or many, please feel free to submit your contribution.

Thanks to those CIDX members who have already submitted their monthly loggings.

Thursday, May 11
1600-1700 KNLS in Russian
2000-2100 KNLS in English

Friday, May 12
1400-1500 KNLS in Chinese
1800-1900 KNLS in English

Also, we're sending a special limited-edition QSL card to anyone who
sends in a reception report from these broadcasts. The contact
information is:

knlsdrm@...

Or via classic mail to: KNLS, 605 Bradley Court, Franklin, TN 37067

Barring any unforeseen last-minute changes, we have established the
following program schedule for the CBC/RCI DRM transmissions of NASB
member station programs May 11 and 12 from 1400-2100 UTC on 11730
kHz.

Thursday, May 11
1400-1500 KAIJ
1500-1530 KFBS (Russian drama in English)
1530-1600 Beth Shalom Center Radio
1600-1700 KNLS in Russian
1700-1730 WRMI (Viva Miami 1)
1730-1800 HCJB (Música del Ecuador)
1800-1830 AWR Wavescan 1
1830-1900 World of Radio
1900-1930 Good Friends Radio Network (Radio Weather 1)
1930-2000 HCJB (DX Party Line)
2000-2100 KNLS in English

Friday May 12
1400-1500 KNLS in Chinese
1500-1530 KFBS (Chinese drama in English)
1530-1600 WRMI (Viva Miami 2)
1600-1630 HCJB (DX Party Line)
1630-1700 AWR Wavescan 2
1700-1730 World of Radio
1730-1800 Good Friends Radio Network (Radio Weather 2)
1800-1900 KNLS in English
1900-1930 HCJB (Música del Ecuador)

1930-2000 Beth Shalom Center Radio
2000-2030 AWR Wavescan 1
2030-2100 AWR Wavescan 2

Please note that some organizations, including NASB, AWR, KNLS and WRMI are offering special QSL cards for reception reports on these transmissions.

Also, for those who do not have DRM receivers and want to hear this special programming, WRMI will simulcast the programming in analogue format from 1400-1600 UTC on May 11 and 12 on 7385 kHz to North America. WRMI will retransmit the 1600-2100 UTC programs on a delayed basis from 0400-0900 UTC May 12 and 13 on 9955 kHz to the Caribbean and Latin America (in the same order as the 1600-2100 UTC broadcast).

And finally, HCJB in Quito, Ecuador will have special DRM transmissions of its own programming for the USDRM-NASB annual meetings on May 10, 11 and 12 at 1000-1200 UTC on 9745 kHz and at 1700-2100 UTC on 15370 kHz (both transmissions using an azimuth of 0 degrees and a power of 4 kilowatts).

264. [dxld] Fessenden anniversary to be commemorated by Canadian Amateurs

Yahoo group: cidxclub
Date: 2006-05-21 22:16:52 UTC
From: David Ross
Topic: 264 Message: 264

Per Wade Smith <ve9wgs@...>, <dxld@yahoogroups.com>

Canadian amateur radio operators will have special prefixes available
for use from June 10-July 9, 2006 to mark the 100th anniversary of
Canadian born Reginald Fessenden's voice transmission by radio.
The following are the regular/special prefixes for this event, VE/VX,
VA/VG, VY/XK, VO/XJ. Thanks to VE2AWR. http://www.callsign.ca/indsp.php

Look for many during the Canada Day Contest on July 1, 2006.

Wade Smith, VE9WGS/VX9WGS
New Brunswick

Hello

I am putting together the June 2006 CIDX Logbook loggings column. If you have shortwave loggings or related material that you would like to submit to CIDX Messenger, please do so ASAP.

Whether it is just one logging or many, please feel free to submit your contribution.

Thanks to those CIDX members who have already submitted their monthly loggings.

David Ross
CIDX Logbook loggings column Editor

286. Forward: Amateur DX news from the OPDX Bulletin.

Yahoo group: cidxclub
Date: 2006-08-14 14:52:16 UTC
From: VE2MBS
Topic: 286 Message: 286

Here is a partial forward from the Sunday, August 13 edition
of the Ohio-Penn DX (OPDX) Club bulletin.

VY0, Canada. Kevin, WD0AAV, will be active as WD0AVV/VYO from
Iqaluit, Nunavut, between August 14-18th. Activity will be on
40-10 meters using primarily CW. QSL via his home callsign.

XV, Vietnam. Operators Higashi/JA1DHY and Eiji/JA1EKK will be
active as XV3DHY and XV3EKK, respectively, from August 31st to
September 6th. Their activity will be on 80-6 meters, CW, SSB
and SSTV. QSL is OK via the JARL Bureau or direct to their
home callsigns.

I've also heard that the forecast for Solar Cycle 25 is that
it is going to very weak - get the high HF - low band VHF DX'ing
done in this Solar Cycle!!

290. [Forward] IRC News via the OPDX Buletin #772

Yahoo group: cidxclub
Date: 2006-08-21 23:13:24 UTC
From: Vernon Ikeda
Topic: 290 Message: 290

From the OPDX Bulletin #772

The Ohio/Penn DX Bulletin No. 772
August 21, 2006
Editor Tedd Mirgliotta, KB8NW

IRCS. Alan, VK4AAR, has received important information direct from the Universal Postal Union (in Switzerland) in response to his inquiry regarding the expiry dates for IRCs. Here is what he received from the IRC and philately Programme Assistant:

"Since 2002, the validity date for exchange is printed on each international reply coupon.

The new international reply coupon (Beijing model 2), on sale from 1 July 2006, is valid for exchange until 31 December 2009. The international reply coupons (Beijing model 1), on sale from 1 January 2002, must be exchanged before 31 December 2006. They will have no value after this date.

I would like to inform you that International Reply Coupons (IRCs) issued from 1906 to 1974 (in blue colour) do not have any value for exchange, but maybe they have a historical value. You may wish to consult a collector of IRCs to know if the coupon has any financial value. You should understand that currently the IRCs issued from 1975 to 2001 (in yellow colour) are exchangeable indefinitely according to the current UPU rules. However, this kind of IRC cannot be anymore exchangeable, in term of finances, between the postal administrations since 30 June 2006. Therefore, it means that some of them do not accept anymore this coupon for exchange.

The exchange of IRC (after the customer's exchange) between the postal administrations is managed by a bilateral agreement, and if there's no bilateral agreement, the postal administrations loses money."

Readers are suggested to visit a Web page that Jim, AD1C, has put up about the above IRC information (from the Universal Postal Union). On the Web site, readers will see the different IRCs as mentioned above. Go to:

http://www.ad1c.us/upu_rules_irc.htm

311. Amateur Radio DX News Summary via the OPDX Bulletin.

Yahoo group: cidxclub
Date: 2006-10-22 20:02:31 UTC
From: Vernon Erle Ikeda
Topic: 311 Message: 311

This is a summary of upcoming dx-peditions from the Ohio-Penn
DX (OPDX) Bulletin.

3C0, Annobon Island. Elmo, EA5BYP, is now active as 3C0M from
the Island
of Annobon (Pagalu) and will remain on the island for 15 days.
Elmo will
be on air on SSB (80-10m), RTTY (20-15m) and CW (only on 160m).
QSL via
EA5BYP. Please remember that this DXpedition is very costly for
only one
operator, and he is looking for help in funding his operation.
Two Web
pages are now active for this DXpedition. The Elmo's log will be
available
after his operation over at: http://www.tabarca.es.mn
http://personal.telefonica.terra.es/web/ea5yn

4O3, Montenegro. Operators Toma/YU1AB and Emin/T91S will be
active as
4O3AB and 4O3ES, respectively, between October 27th and November
3rd.
Activity will be on CW, SSB and PSK. QSL via their home
callsigns.

E21, Thailand (Update and More!). Champ, E21EIC, will be
active in the
CQWW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band
(20m)/
Low-Power entry. JA stations QSL via JR5XPG and all others via
E21EIC.
ADDED NOTE: Champ informs OPDX readers to also look for the
following
Thai stations to be active in the CQWW DX SSB Contest:
E20PFE SOAB LP QSL via E20PFE
E20WXA SOSB 15M QSL via E20WXA
E21YDP SOSB 40M QSL via E21YDP
HS6MYW/1 SOAB LP QSL via HS6MYW
HS8KAY SOSB 20M QSL via HS8KAY
HS0AC M/S QSL via HS0ZFZ (See HS0 below)

HI9, Dominican Republic. Operators Udo/DL2AQI, Ingolf/DL4JS,
Sigi/DL8AKI
and Rich/DK8YY will be active as homecall/HI9 from October 21st
to November 3rd. Activity will be on SSB, CW and Digital modes.
They will also be active in the CQWW DX SSB Contest (October

28-29th) as HI9L. QSL Manager for all these callsign go to DH7WW via the bureau or direct to: Ulrich Moeckel, Muldenstrasse 1, 08304 Schoenheide, Germany. He does not accept IRCs with expiry-date, 31st December 2006, as return postage!

HR, Honduras (Update). A team of Russian speaking hams from New York will be going here between October 22-30th. Operators mentioned are:
Andrei/EW1AR/NP3D (team leader), Boris/UU5SY/N3SY, Alex/K2PAL (ex-UB5XAZ)
and Joel/KB2PDW. The group will activate Tigre Island (NA-060) together
with Javier/HR2J and other HR operators from October 22-25th. The callsign
will be HQ4D. Andrei, EW1AR/NP3D, reports that for those who make the most
QSOs, there will be special prizes like T-Shirts from Tigre Island that
will be sent out. QSL via W3HNK. Activity will be on 80-6 meters, RTTY,
CW and SSB. During the CQ WW DX SSB Contest they will be active and on
as Single-Band entries.

HS0, Thialand. Operators John/W2YR/HS0ZDJ, Winit/HS0CKC, Charly/K4VUD/
HS0ZCW and Bob/KL7ENY/HS0ZCG will be active as HS0AC during the CQWW DX
SSB Contest (October 28-29th) as a Multi-Single entry. QSL via HS0ZFZ.
John, W2YR, informs OPDX that due to restricted band allocations in
Thailand, the 160 meter operations will be about 1.824 MHz and on 80
meters they will transmit about 3.539 MHz and listen up the band for
contacts.

J3, Grenada. Harry, AC8G, informs OPDX that Grenada will have lots of
activity from October 25-31st. The contest station J3A (QSL via WA1S)
will be active as a Multi-Multi entry in the CQWW DX SSB Contest (Ootober
28-29th). Team members Diane/K2DO, George/N2GA, Tim/KU4J and Ulf/DL5AXX
will use J3/homecall with Ann/WA1S and Harry/AC8G using J38AA and J37K,
respectively, outside the contest. Bill, VE3EBN, will provide logistic
support and will use J37LR outside the contest and be a separate

Single-Op
entry in the contest using J37T. Unless advised differently, QSL
to their
home callsigns. Outside of the contest, expect various other
modes and
operations on the WARC bands. The team has arranged for antenna
and power
improvements including assistance by Cushcraft in replacing of
the 40
meter beam destroyed in the hurricane IVAN.

J48/SV8, Greece (Contest/IOTA Op). A group of Hungarian
operators will
once again be active from Astris, Thassos Island (EU-174),
Greece, between
October 26th and November 8th. They plan to participate and be
active as
J48RT in the CQWW DX SSB Contest (October 28-29th) as a
Multi-Single entry. QSL via HA6NL. The group will also be
active in the 33rd HA QRP Contest (see
http://www.radiovilag.hu/haqrp2.htm) using the same callsign,
but on 80 meters CW with only 7 watts output. Outside of the
contests, the operators will use their home callsign on all
bands, mainly on CW and SSB during the two week period.
Operators and callsigns are as follows:

Gyuszi/HA2VR - SV8/HA2VR Al/HA7JJS - SV8/HA7JJS
and J48JJ
Laci/HA6NL - SV8/HA6NL and J48NL Laci/HA7PL - SV8/HA7PL
and J48PL
ZSolt/HA6PS - SV8/HA6PS and J48PS
QSL via operators home callsigns, by the bureau or via QRZ.COM
addresses.

KH2, Guam (Change). Look for Matsuda, JM3PIT, to be active
December 20-22nd (not 22-26th). His callsign and bands of
activity were still
not provided. QSL via JM3PIT.

OA7, Peru. Arno, DL1CW, will be active as OA7/DL1CW from
October 20-30th. He will travel throughout Peru and will
operate four days from Puerto Maldonado, three days from Cuzco,
and one day from Lake Titicaca. His activity will be on 80-10
meters CW using only 100 watts and a dipole.
QSL via DL1CW, by the DARC Bureau only.

Special Event. Members of the "Radio Officers Association"
(ROASS) will
air the special event callsign GB500KCS for three days starting
November
2nd. Activity is to celebrate the centenary of the Berlin

International
Wireless Telegraphy Convention. The convention established 500
kHz as the
maritime calling and distress frequency and SOS as the distress
signal.
The association is also using the special event to launch its
campaign
for 500 kHz to be recognised internationally as a heritage
frequency.
For more details about ROASS and the special event station,
please visit
the ROASS Web page at:
http://www.anything-it.biz/roass/default.htm
ADDED NOTE: The Italians will also air a special event station
on November
2-4th. Look for IY1SP/500KCS to be active.

314. B-06 English shortwave schedules

Yahoo group: cidxclub
Date: 2006-10-28 20:44:36 UTC
From: Daniel Sampson
Topic: 314 Message: 314

The first issue of the B-06 English shortwave schedules is now available at Prime Time Shortwave, http://www.primetimeshortwave.com The next update should be sometime during next week. The schedules are available in ASCII, DBase and Excel formats with sorts by time, country and frequency. The PalmOS file will be available once Daniel Lyddy updates it.

Something new this time. There a now listings to five target areas for those who would like a shorter listing. These areas as Africa, Americas, Asia/Oceania, Europe and Middle East. Keep in mind there will be easily heard stations targeting to other areas that can be heard but not listed. For example in the Americas you can easily hear Deutsche Welle and Radio Australia although they don't target the Americas.

Daniel Sampson

316. November 2006 CIDX Messenger

Yahoo group: cidxclub
Date: 2006-11-03 14:15:00 UTC
From: sheldonharvey
Topic: 316 Message: 316

Hi, everyone. Just a quick note to let you all know that the November 2006 edition of the CIDX Messenger has just been sent off by e-mail this morning to all members.

If you are a CIDX member, but did not receive the e-mail, please contact me to let me know. Also, if you are having any difficulty with the pdf file format used for the bulletin, please let me know and we'll see if we can help out in any way.

We are also looking for input for next month's special Holiday December edition of the bulletin. If you come across any Holiday/Radio related material throughout November, please send it along to CIDX. We'll consider using it in the December Holiday edition.

Thanks, and good DX!

Sheldon

317. Radio St. Helena Day

Yahoo group: cidxclub
Date: 2006-11-03 14:18:01 UTC
From: sheldonharvey
Topic: 317 Message: 317

Tomorrow is the big day for DXers around the world, and for the South Atlantic island of St. Helena. Radio St. Helena, remembered fondly by DXers for their past special Radio St. Helena Day broadcasts, returns to the air tomorrow for a series of special broadcasts.

Details of the event are included in the November 2006 CIDX Messenger sent to members today. You can also find all the details at the special Radio St. Helena Radio Project web page at:

http://www.sthelena.se/radioproject/

Best of luck to the staff and management of Radio St. Helena for a successful day tomorrow. Also, we hope that propagation cooperates and that many of you around the world are able to hear the special transmissions. If you hear them, let them know, and let us know as well!

Good luck everyone!

Sheldon

319. Radio St. Helena Day transmission to Japan

Yahoo group: cidxclub
Date: 2006-11-04 20:13:00 UTC
From: sheldonharvey
Topic: 319 Message: 319

I was most surprised to tune into 11092.5 kHz. at 2000 UTC and actually hear a weak signal on the transmission of Radio St. Helena to Japan using short-path!

The European and North American transmissions coming up later this afternoon should be well received, I would think.

Sheldon

From: gletourneau
Topic: 320 Message: 320

Hi all,

Yes indeed, signal is weak but clear here in Montreal, so I also think that the european and north american broadcast should come in very well later on.

Hey guys. How are you doing? Hope the signals are coming in on your DXpedition weekend.

Still tuned to St. Helena here at 2149. Seems to be fill music, with a version of Stairway to Heaven. Waiting to see how things change at 2200.

Sheldon

I don't know about everyone else, but I am measuring Radio St. Helena a little off frequency here.

The audio seems to be the clearest on 11092.45 kHz. Anyone else noticing this?

SH

326. CIDX mentioned on Radio St. Helena

Yahoo group: cidxclub
Date: 2006-11-04 22:41:28 UTC
From: sheldonharvey
Topic: 326 Message: 326

I forgot to mention that CIDX was mentioned on the Radio St. Helena broadcast at 2016 UTC.

When I heard the transmission to Japan making here into Montreal, I sent an e-mail to Radio St. Helena. The address is:

radio.sthelena@...

At 2016, just minutes after sending out the e-mail, I actually heard the guy on the station reading my e-mail on the air! I had mentioned that I am President of CIDX and that many of our members will be listening to their transmissions today. Pretty neat.

I just now checked my inbox and I actually have a response from the station. Here it is:

Hi Sheldon..

Good to hear from you. We are hoping it will get better for you later in the evening. Please stay in tune and enjoy the show

Derek ZD7CTO

Subject: [CIDX Club] Re: St Helena

I don't know about everyone else, but I am measuring Radio St. Helena a
little off frequency here.

The audio seems to be the clearest on 11092.45 kHz. Anyone else
noticing this?

Well antennas should be turned to north america now, signal is
improved , good here in `Montreal with Peter Gabriel song at 2233 UT
there are some deep fades from time to time but overal very good .

Yes, we heard that too, then us westerners also got a good mention a bit after your email being read...

Heard reasonably well at 1800 s/on with the log periodic to the west (long path) but signals fell after that, altho remained copyable enough for program details, song titles etc. Signals were strong and very steady after 2000 to closing of final b'cast. My log was turned to 66 degrees short path after 2000 as signals were better then direct. Heard all the RF getting into the audio as they turned the beam and then as they turned it back, heard the audio clean up. The frequency was clear and only an odd burst of digital data (ALE?) now and then.

Mickey was taping it all here on the IC-7800 and it was right on 11092.50 and sounded very good and natural, but I didn't mess up his tape by tweaking it so perhaps it was off a tad but only a few hertz at most.

Subject: [CIDX Club] CIDX mentioned on Radio St. Helena

I forgot to mention that CIDX was mentioned on the Radio St. Helena broadcast at 2016 UTC.

When I heard the transmission to Japan making here into Montreal, I sent an e-mail to Radio St. Helena. The address is:

radio.sthelena@...

At 2016, just minutes after sending out the e-mail, I actually heard the guy on the station reading my e-mail on the air! I had mentioned that I am President of CIDX and that many of our members will be listening to their transmissions today. Pretty neat.

I just now checked my inbox and I actually have a response from the station. Here it is:

Hi Sheldon..

Good to hear from you. We are hoping it will get better for you later in the evening. Please stay in tune and enjoy the show

DX News from Ohio-Penn DX Bulletin 782 and 783

5A, Libya (Topband Activity). An international team of operators will activate Libya between November 15-29th, using the callsign 5A7A (See OPDX.765 and OPDX.774). Rudi, DK7PE, one of the 5A7A operators, announced this past week the following frequency combination will be used during their 160m operations:

* During JA openings - TX frequency will be 1.821 MHz (QSX 1.825 MHz).
* After the JA window is closed they may change to 1.824.5 MHz (QSX up 5) for North America in case 1.821 is covered there with QRM.
They will use a TITANEX V160E vertical for transmitting, but their major challenge will be the reception side. They expect a beverage not to perform very well over the high conducting soil directly on the beach, let alone the space limitations. Therefore, they will use a Pre-Amp/FES (KD9SV) in connection with a Pennant receiving antenna and also with a K9AY system.
Rudi states that he will also bring his well proved Coax loop with him.
For more info and updates, visit: http://5a7a.gmxhome.de

5H, Tanzania(IOTA Op). Giovanni (John), I5JHW, will be active as 5H1HW on Zanzibar Island (AF-032) between November 7-22th. Activity will be on SSB and RTTY, using an IC-7000 with a SGC 500 and verticals. QSL via I5JHW, direct or by the bureau.

A7, Qatar. Some operators from Qatar will activate the special callsign A70RRY from now until December 15th to celebrate the 15th Asian Games 2006 which is going to start in Doha on December 1st. Activity this past week has been on 160/20/15/10 metres CW/SSB. QSL via EA7FTR.

Please see EA7FTR on QRZ.com for details on QSLing.

E51, North Cook Islands. Operators Bill/N7OU and Bob/W7YAQ are now
active from Penrhyn Atoll (OC-082) as E51PEN and E51PDX, respectively,
until November 18th. Activity will be on 160-10 metres, mostly on CW,
but with some SSB and RTTY. They will be running 100 watts and
verticals. QSL via their home callsigns. ADDED NOTE: Operators Mike/KM9D
and Jan/KF4TUG, who have been active as E51QMA from Penrhyn Atoll
(OC-082) this past week, are expected to be QRT by the time you read
this. They plan to set sail towards Christmas Island (T32). QSL via
OM2SA.

FT5X, Kerguelin Islands. Gildas (Gil), TU5KG, has been active as
FT5XP/mm in the Austral Sea (in Southern Indian Ocean) on a fishing boat
near/around the Kerguelen Islands. He is expected to be active from Port
aux Francais, Kerguelen Islands, as FT5XP during the CQWW DX SSB Contest
weekend. No accurate dates or times were specified. He will
also be on Kerguelen the weekend of November 25-26th (for fuel refill).
QSL via F4EFI.

OA, Peru. Martijn, PA3GFE, will be active as OA#/homecall from now
until December 10th. Activity will be on 40-10 metres. He is expected to
be active as OA4O during the CQWW DX CW Contest (November 25-26th). QSL
via his homecall.

CIDX Ham Band Editor

335. Part of Ohio-Penn DX (OPDX) Bulletin 784

Yahoo group: cidxclub
Date: 2006-11-13 04:38:26 UTC
From: Vernon Ikeda
Topic: 335 Message: 335

Part of this week's OPDX Bulletin.

6E/6F/6G/6H/6I/6J, MEXICO. In 2007 the Federacion Mexicana de Radio-experimentadores A.C. (FMRE) will celebrate its 75th anniversary (LMRE and FMRE), and XE stations will be using new prefixes during this special event. Look for the following prefixes/callsigns in 2007:

6G1LM - From January 1st through December 31st, 2007
6F75A - From January 1st through December 31st for contests for FMRE
6H1 for XE1 stations
6I2 for XE2 stations
6J3 for XE3 stations (foreign stations)
6E4 for XF4 Revillagigedo stations

8Q, MALDIVES. Gianluca, IK0XIH, will be active as 8Q7GL and will be on holiday between November 21-27th. Activity will be on 80-10 meters SSB only. QSL via his home callsign. His official Web page is at: http://www.mdxc.org/8q7gl

CANADIAN SPECIAL PREFIXES. To celebrate the 100th anniversary of Reginald Fessenden's first AM voice broadcast on December 24, 1906, all Canadian Amateur Radio operators may use a special prefix during the period of December 1, 2006, to January 31, 2007. For example, the special callsign CG1 could be use by all callsigns with the VE1 prefix.

CF1 = VA1 CG1 = VE1 CG8 = VE8
CF2 = VA2 CG2 = VE2 CG9 = VE9
CF3 = VA3 CG3 = VE3 CH1 = VO1
CF4 = VA4 CG4 = VE4 CH2 = VO2
CF5 = VA5 CG5 = VE5 CI1 = VY1
CF6 = VA6 CG6 = VE6 CI2 = VY2
CF7 = VA7 CG7 = VE7 CI0 = VY0

QSL via the individual operator's own personal callsign.

JOIN OH2BH 60TH BIRTHDAY ON THE AIR! Jarmo, OH2BN, informs OPDX readers in a press release: "Martti J. Laine, OH2BH, has provided an abundance of on-the-air pleasure to Amateur Radio operators the world over by serving rare countries and exciting prefixes for several decades. He is up to celebrating his 60th birthday among his friends. Since his friends are scattered in every corner of the world, this new unique concept is presented.

You just dress up for the occasion, switch on your radio, and you will find yourself at the most thrilling birthday party ever. Welcome on board! The event will commence November 18th at 0000 UTC and run for 48 hours until November 19th, 2006, 2359 UTC - the 19th being the actual birthday. It will run on CW and SSB simultaneously, on frequencies .025 and .225, such as 14.025 and 14.225 with powerful 4O60BH stations from a 600-meter high mountain perch overlooking the beautiful Kotor Bay in the fledgling Republic of Montenegro. The radio operations are led by Ranko, YT6A, and Dragan, YT6Y and others from near and far.

But that's not all; you can pass your birthday wishes personally on radio since you may get an appointment at the time of your choice for 14.225 kHz by sending a request to sked-60@... <mailto:sked60@...> The birthday party station will then call you at that exact minute. You can also send your birthday greetings through msg-60@... <mailto:msg60@...> But even better - following the procedures of any Asian flavoured birthday party, you can obtain a lottery number for a lucky draw from any of the 4O60BH stations. A lucky draw number can be requested by a new one-time Q-code, QBH. The prizes for the lucky draw will be published next week.

The actual draw will take place at the Monday Dinner Party and the winning number will be published the following day in The Daily DX and other DX publications.

The actual Birthday Reception will be held on Monday, November 20th at 1800 hours at Hotel Vila Aleksandar, Herceg Novi, Montenegro. QSLs will be via OH2BN and each direct request will be honored by a special stamp released for the occasion.

Just join this new way of partying - making the internet work back-to-back with Amateur Radio - all on the air - and be part of BH - Birthday Happiness. See: www.kolumbus.fi/oh2bn/bhday

--- DX IS! 73 de Jarmo OH2BN"

336. Frequency Measuring Test - November 15, 2006

Yahoo group: cidxclub
Date: 2006-11-14 15:37:14 UTC
From: Vernon Ikeda
Topic: 336 Message: 336

Maxim Memorial Station W1AW at ARRL Headquarters
WA6ZTY FMT

The West Coast FMT signal from WA6ZTY will emanate from vintage Heath
equipment, although Hewlett-Packard instruments synchronized to GPS
satellite time will provide the stable signal source.

NEWINGTON, CT, Nov 8, 2006--Once again a November tradition, the ARRL
Frequency Measuring Test (FMT) returns to the airwaves Thursday, November
16, UTC (Wednesday, November 15 in US time zones). Unlike the 2004 and
2005 FMTs, which called on participants to measure the frequency of an
audio tone modulating the carrier, the 2006 FMT will represent a return
to basics: Measuring the carrier frequency of the transmitted signal.
Engineer and Contributing Editor Ward Silver, N0AX, spells out the
details of FMT 2006 in the article "Frequency Measuring Test 2006 --
Back to Basics, Plus," [155,922 bytes, PDF file] which appears in
November's QST.

"You don't have to own a rack full of sophisticated test equipment,"
Silver advises. "By calibrating your radio to a known frequency
reference such as WWV or CHU and letting the radio reach an even,
stable temperature, your measurements can be within 1 part per million
(ppm) or even better!" Silver's QST article includes details on how to
turn your receiver "into a precision FMT machine" with a few simple
steps.

FMT transmissions from ARRL Hiram Percy Maxim Memorial Station W1AW at
League Headquarters in Connecticut will take place on 160, 80 and 40

meters starting at 0245 UTC on November 16 (November 15 in US time
zones), replacing the W1AW phone bulletin normally scheduled at that
time. The approximate W1AW frequencies will be 1853 kHz, 3586 kHz
and 7039 kHz. An initial call-up will take place on all three bands.
During the FMT, W1AW will indicate the band for the upcoming
transmission. W1AW's FMT 2006 transmissions will start on 160
meters.

To better accommodate stations west of the Mississippi, Mike Fahmie,
WA6ZTY, has volunteered to transmit a separate West Coast FMT signal
on 40 meters from his location in San Francisco's East Bay. The FMT
transmission from WA6ZTY will follow W1AW's and will begin at 0330
UTC on the approximate frequency of 7029 kHz.

Those participating in FMT should listen to the W1AW CW or digital
bulletin transmission prior to the FMT to determine which band will
provide the best conditions for reception and measurement purposes. The
W1AW test will consist of three 60-second continuous carrier
transmissions on each band, followed by a series of Morse dits and
station identification. The whole test will run for about 15 minutes
and will end with a series of Vs followed by a station ID.

The West Coast FMT from WA6ZTY will begin with a general call at 10
WPM CW of "QST DE WA6ZTY". The measurement period begins with "NOW 40
METERS". Transmissions consisting of one minute of continuous carrier
and 10 seconds of Morse dits will follow. The West Coast FMT will
conclude with 15 seconds of Vs followed by a station ID.

All FMT participants will receive a Certificate of Participation.
Those coming closest to the measured frequency will be listed in
the test report and receive special recognition on their certificate.
Submit entries via e-mail or via the USPS to W1AW/FMT, 225 Main

St,
Newington, CT 06111. Entries must be received or postmarked by December 16, 2006.

An ARRL staple for nearly 50 years, the League resurrected the FMT
in 2002. The first FMT, held in October 1931, employed three transmitting stations--W1XP at Massachusetts Institute of Technology,
W9XAN at Elgin Observatory in Illinois and W6XK at Don Lee Broadcasting System in Los Angeles--and drew more than 200 measurement
reports. The increasing technical quality of amateur gear was one of
the primary reasons that the FMT was suspended in 1980.

337. Special mediumwave DX tests from Montana

Yahoo group: cidxclub
Date: 2006-11-17 22:24:12 UTC
From: sheldonharvey
Topic: 337 Message: 337

Just wanted to remind everyone of these special AM DX tests coming up on the weekend from several Montana AM stations. Note that the times quoted are in MOUNTAIN STANDARD TIME.

Sheldon

Montana "Big Sky DX Tests" Special Event

The state of Montana is one of the rarest of all for DX'ers, especially those east of the Mississippi River. Through the joint efforts of a lot of dedicated folks, we are now proud to announce a special multi-station DX test from Montana offering listeners a rare opportunity to log this state.

Special thanks go out to the ABDX E-Mail List, Engineer Ron Huckeby, Michael Richard of KEVA, and the staff of these stations for putting this test together. DX'ers everywhere owe them all a debt of gratitude.

KANA 580khz, Anaconda, MT (1KW Daytime Pattern)
KKGR 680khz East Helena, MT (5KW Non-Directional)
KERR 750khz Polson, MT (50KW Non-Directional) **
KLCY 930khz, East Missoula, MT (5KW Daytime Pattern)
KGVO 1290khz, Missoula, MT (5KW Daytime Pattern)
KEIN 1310khz Great Falls, MT (5KW Daytime Pattern)

Date(s): Late Saturday Night November 18th, 2006 continuing until early Sunday morning, November 19th.
Time: Midnight until 2 AM Mountain Time. 2 Hour Long Test.**
Modes of Operation: Transmitter Testing. Daytime Power & Patten for all stations.
Programming: Morse Code ID's, Sweep Tones, Voice ID. KEIN 1310khz will run a mixture of nostalgia music programming and Morse Code ID's, sweep tones, etc. KERR will run country music and normal ID's, no code or sweep tones.

** KERR 750khz Polson, MT will be doing transmitter maintenance 0005-0058 Mountain Time. 50kw Non-Directional.

Notes: Transmitter audio chain testing. Stations will broadcast voice ID's, Morse Code ID's, special Sweep Tone signals, etc. Reception reports are desired via e-mail (first choice) and postal mail . Due to the high volume of QSL requests, we will only accept Postal reports as a last resort. No DX'er with e-mail capability will be allowed to submit a Postal QSL request. Station would prefer to receive recordings of the test (MP3, CD, or cassette). Submit reports to: les @ highnoonfilm.com and please put "Montana DX Test" in the

subject line. All standard mail reports should go to:

Les Rayburn
High Noon Film
100 Centerview Drive Suite 111
Birmingham, AL 35216

Please include a SASE for reply.

Our thanks to the Kevin Redding & The ABDX E-Mail List, Ron Huckey, Michael Richard, Steve Dow, Todd Clark, and the staff members of these great stations for helping to arrange this once in a lifetime DXing event!

344. Pirate on Saturday Dec 9th

Yahoo group: cidxclub
Date: 2006-12-09 00:16:49 UTC
From: gletourneau
Topic: 344 Message: 344

Hello all from Montreal,

Just a quick note to all CIDX members here is a notice of Pirate Cupid Radio that will be on air Saturday December 9th 2006 starting at 1400 UTC with a beam towards africa and then at 1500 UTC he will beam towards north america.

Frequency is 15070 KHz

Cupid radio is a Pirate from Holland.

Reports can be sent to cupidradio@...

2 weeks ago it was a easy catch here in Montreal, so let's hope conditions help once again.

Good luck and 73's

Gilles Létourneau
Montreal, Canada

Yahoo group: cidxclub
Date: 2006-12-20 00:26:23 UTC
From: Vernon Ikeda
Topic: 348 Message: 348

CF3, Canada (CISA and Contest Op). Members of the local Ottawa Amateur Radio Club will activate Bate Island on December 30th (0000z) for a 24 hour period as CF3RCS (Canadians Freezing - 3 - Real Cold Spot). Bate Island is located in the Ottawa River (Island Park Drive north of the Parkway) and is considered part of the City of Ottawa. Operators mentioned at press time are Bob/VA3QV, Terry/VE3TWC, Steve/VE3SBC, Mark/VA3UMP and Martin/VA3SIE. This will be a new activation for the Canadian Islands Awards Program (CISA), and they hope to earn the island an island number in that program. Visit the CISA Web site at: http://www.qsl.net/ve3tpz/cisa/ The group also hopes to take part in the RAC Canada Winter Contest. Details at: http://www.rac.ca/service/infocont.htm

Activity will be on VHF and 6m (FM/SSB/CW) as well as 160-10 metres HF, SSB and CW. Operating modes and contest class will depend on the operator's personal preferences and band conditions at the time. A special QSL card will be sent out for this event, and they would appreciate if you QSL direct to the callbook addresses for VA3SIE, VA3UMP or VA3QV. A SASE would be appreciated.

J6, St. Lucia (NA-118). Remember to look for Oleh, KD7WPJ, to be active this week as J6/KD7WPJ between December 21-27th. Activity will probably be on 160-6 metres CW/SSB. QSL via his home callsign.

T30, Western Kiribati. Toshi, JA8BMK, will active as T30XX during his spare time from December 27th to January 8th. Activity will be on 160-10 metres CW/SSB. He will be using a TS-480 and a FT-897 with Linear Amp. Antennas will be: 3 element yagi for 20/15/10 meters, Rotary dipole for 40/30/17/12 metres and an Inverted "V" for 160/80/75 metres. QSL via JA8UWT, direct only.

351. Next Solar Cycle

Yahoo group: cidxclub
Date: 2006-12-22 17:57:00 UTC
From: gletourneau
Topic: 351 Message: 351

Season's Greetings,

First I would like to wish a very merry Xmas and happy new year 2007,
all the best, to all CIDX members.

I came across an interesting article about the next solar cycle, it
should be one of the strongest ever recorded and all explanation to
this are in the link below from science at Nasa.

There have been many reports in the past few months pointing to a
strong solar cycle to come.

Hello

I am putting together the January CIDX Logbook loggings column this weekend. If you have shortwave loggings or related material that you would like to submit to the CIDX Messenger, please do so ASAP.

Whether it is just one logging or many, please feel free to submit your contribution.

Thanks to those CIDX members who have already submitted their monthly loggings.

355. Extracts from the Ohio-Penn DX (OPDX) Club DX Bulletin No. 790

Yahoo group: cidxclub
Date: 2006-12-25 03:11:55 UTC
From: Vernon Ikeda
Topic: 355 Message: 355

DX Bulletin No. 790
December 24, 2006
Editor Tedd Mirgliotta, KB8NW

3 Steve's & W1AW. Here is your chance to work the "3 Steve's" again. The trio will be guest op'ing at the ARRL station, W1AW, Wednesday, December 27th, from 1700-2045z. Operators are Steve/KF2TI, Steve/N2IFA, Steve/KB2ENF and Kurt/W2MW (aka Steve). This is the group's 14th annual WAS (Worked All Steve's) DXpedition to Newington and they will be operating the following bands: 30m CW (Kurt/W2MW aka Steve) 15/20/ 40m SSB (Steve, Steve and Steve) 6 metres SSB - The 4th operator Andrew/N2IFB will try his hand on this band. Depending on conditions, they will try 10 metres SSB as well and listening for contacts outside the U.S. Packet spots will be posted.

ADDED NOTE: If you work any 3 operators, they will send you a beautiful, full color WAS (Worked All Steve's) certificate (suitable for framing). No QSL is needed, as they will have copies of the log and send out a certificate to all those who qualify. The logs will be posted after January 1st on their Web site: http://3stevesandkurt.dynu.com/

This is not an officially sanctioned ARRL event. It is run for fun by the 3 Steve's and a Kurt Amateur Radio Association - WK3SS (all rights reserved), and they are responsible for the printing and sending of the 3 Steve's and a Kurt Worked All Steve's certificate (suitable for framing). ANOTHER NOTE: They hope to have the 3 Steves/KP2 certificates and cards out very soon. They apologize for the delay.

4S, Sri Lanka. Ben, DL7UCX, will be active (possibly as) 4S7UCG from December 26th and January 5th. This will be a holiday style operation with activity being focused on 160-30 metres CW. QSL via DL7UCX, by the bureau or direct.

A3, Tonga (OC-049). Just a reminder that Mark, VK2GND, will be active as A35GN from December 25th to January 3rd. Suggested frequencies are: 7050, 14195 and 14273 kHz. QSL via VK2GND.

IS0, Sardinia (50/144 & EME Op). Look for Giancarlo, I0JU, to be active as IS0/I0JU between December 27th and January 2nd. From Grid Square JN40DN, he will have two stations with sufficient power (600 and 1k watts on 6 and 2 metres) on the air. Main activity will be focused on EME and MS.

LZ2007, BULGARIA. On January 1st, 2007, Bulgaria will become a full member of the European Union, and to commemorate this event, look

for the HQ of the Bulgarian Federation of Radio Amateurs to air the special event callsign LZ2007EU between January 1st and April 30th, 2007. QSL (preferably) via the LZ QSL Bureau to LZ1BJ.

SV/A, Mount Athos. Monk Apollo, SV2ASP/A, was active early Sunday morning on 20 metres (14250 kHz) SSB around/after 0900z. He is expected to be active over the next two weeks. QSL direct.

NNNN

356. Amateur radio and the Fessenden anniversary

Yahoo group: cidxclub
Date: 2007-01-01 18:30:16 UTC
From: David Ross
Topic: 356 Message: 356

KAIJ has a special one hour program featuring amateur radio and the Fessenden anniversary. The show is hosted by Ted Randall (WB8PUM and former Detroit radio personality), & co hosted by Allen Pitts, W1AGP public relations director of the ARRL.

It will air on January 1, 2007 at 2 pm CST (2000 UT) on 9480 kHz and at 4 pm CST (2200 UT) on 5755 kHz. Fessenden is credited for the first voice over radio broadcast Christmas Eve 1906 and New Years Eve 1907.

The radio show covers a number of topics about ham radio and pays tribute to the first radio broadcast of 100 years ago.

360. Pirate radio Special

Yahoo group: cidxclub
Date: 2007-01-15 03:22:53 UTC
From: gletourneau
Topic: 360 Message: 360

Hi all CIDX members,

I have worked a special transmission from Cupid Radio in Holland for North America DXers and CIDX members in February.

Cupid Radio has been active for the past few months and has made it here in Montreal on several occasions when propagation conditions are good. We hope that conditions will be good for this broadcast.

The Broadcast is schedule for Saturday, February 17th, 2007, from 1400 - 1600 UTC on the frequency of 15070 KHz, antenna will be turned for the eastern part of North America.

There will be some announcements on air from Me that I have sent to Cupid Radio , to send greetings to all Dxers and CIDX members.

All Dxers that will hear Cupid Radio can send their reports, there will be 3 beautiful QSL's available and a 3 page information sheet about Cupid Radio itself. There are 2 ways to send your reports:

via email: cupidradio@...

By regular mail: Cupid Radio, P.O. Box 9, 8096ZG, Oldebroek, Netherlands

All reports are welcome and will be verified, to receive a QSL card, all that is needed is to send a postcard representing the City where you live.

Thank you Rinus of Cupid Radio for making this possible and hope that propagation will be good for this special broadcast.

If you have any questions please feel free to write to me: gletourneau@...

Gilles Létourneau
Montréal, Canada

364. CIDX Logbook loggings

Yahoo group: cidxclub
Date: 2007-01-26 17:42:51 UTC
From: David Ross
Topic: 103 Message: 364

Hello

I am putting together the February CIDX Logbook loggings column this weekend. If you have shortwave loggings or related material that you would like to submit to the CIDX Messenger, please do so ASAP.

Whether it is just one logging or many, please feel free to submit your contribution.

Thanks to those CIDX members who have already submitted their monthly loggings.

David Ross
CIDX Logbook loggings column Editor

For those of you who have been to this studio / office location, prepare to be surprised at how much it has changed in the past few months. They are developing the former plaza into another building

current progress webcam: http://www.cbc.ca/bc/redevelopment/webcam.html

for a look at how it used to look in an "IPIX" view:
http://www.cbc.ca/studios/media/ipics_home.html

367. OPDX Bulletin #786 [Partial]

Yahoo group: cidxclub
Date: 2007-02-04 23:10:12 UTC
From: Vernon Ikeda
Topic: 367 Message: 367

Ohio/Penn DX Bulletin No. 796
February 5, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

3B9, RODRIGUES ISLAND (AF-017). Look for Nigel, G3TXF, to be active as 3B9/G3TXF between February 7-13th. Activity will be on 80-10 meters CW. The location will be the same Cotton Bay Hotel used by the large Multi-Op 3B9C DXpedition in April 2004. He will be using small vertical antennas during this one week stay.

3W, VIETNAM. Operators Eddy/XV1X and Stan/3W9JR, the 3W3W Team, are now back in Hanoi from Doson, and they inform that it was a very hard weekend during the CQWW DX 160M CW Contest. However, they state that it was fun, good score and lot of new experiences. They want everyone to visit their Web page at: http://3w3w.ok1jr.com
On the Web page you can use the log search, see a personal presentation and 50 pictures in Photo Gallery. Team states, "Thanks to all of you who call us." QSL via OK1DOT, DIRECT ONLY.

4L, GEORGIA. Operator Scott, MM0LID, will be active as 4L0N during the ARRL International DX CW Contest (February 17-18th) as a Single-Op/All -Band/High-Power entry. QSL via MM3AWD.

6W, SENEGAL. Operators Ingolf/DL4JS and Rich/DK8YY will be active as 6W/homecall from now until February 9th. Activity will be on CW, SSB and the Digital modes. As this was being written, QSNs showed 6W/ DK8YY was active on 160 meters after 2100z and was also on 20 meters PSK after 1600z. There was no sign of 6W/DL4JS. QSL for both callsigns are via DH7WW, by the Bureau or- direct to: Ulrich Moeckel,
Muldenstr.1,
08304 Schoenheide, Germany.

6W & J5, SENEGAL AND GUINEA-BISSAU. Peter, HA3AUI, will once again be active from Africa and will also activate again both Senegal (as 6W2SC) and Guinea-Bissau (as J5UAP), between February 25th and April 30th (posssibly longer). Activity from both places will be on all bands, mostly Digital and some SSB. QSL via HA3AUI; direct, by the bureau, LoTW or e-QSL. He is currently has a Web page under construction at: http://cqafrica.net

ANTARCTIC ACTIVITY WEEK NEWS.....

PLEASE REMEMBER - Stations That Are Active May NOT Be In The Antarctic!

Just a reminder that the Worldwide Antarctic Program's (WAP) 4th Antarctic Activity Week (AAW) will take place between 0000z, February 19th and 2400z, February 25th. The AAW is an unique world-wide event where Hams are "celebrating and working to improve Worldwide interest around the Antarctic Continent and its related matters, to understand and share what the Nations and Organizations are doing to study and protect this still non contaminated corner of the world and share from there, a message of peace." Also, AAW is celebrated every year during the last week of February, and it coincides with Argentine's celebration
of their Antarctica Day (see http://www.marambio.aq) on February 22nd. Visit the WAP's Web page at: http://www.ddxc.net/wap

Look for the special callsign II1MNA (WAP-060) to be activated for the first time during the 4th Antarctic Week from the National Antarctic Museum (MNA - Museo Nazionale dell'Antartide) in Genoa, Italy. During this activation, activity will count towards the Italian Castle Award (DCI). Listen for the reference number.

Paolo, IK2QPR, will be active as IU2ANT (WAP-52) during the 4th AAW (February 19-25th). QSL via IK2QPR.

Francesco, IZ7AUH, has been issued the special callsign IR7ANT (WAP-74) from the Italian Ministry of Communication Dept. Members of the SRT Group of Puglia and Taranto HF Team will use this callsign during the 4th AAW (February 19-25th). However, Francesco will be using IR7ANT/n starting February 11th (where /n will indicate the days before the 2007 AAW 2007 event). QSL via IZ7AUH, by the Bureau or direct to: Francesco Giacoia, Casella Postale 2224/TA05, 74100 Taranto, Italy.

More info and details are available at: http://ir7ant.iz7auh.net

C5, THE GAMBIA. Andre, ON7YK, will once again be here for 3 weeks between February 9th and March 1st. His callsign is currently unknown. Activity will be on 80/40/20/17/10 meters SSB using a dipole and a Kenwood TS-2000 running only 100 watts. Andre states, "Be aware that this is not a DXpedition." QSL via ON7YK (with e-QSL!).

CE, CHILE (Lighthouse Activity). Look for Hector, CE3FZL, to be active as CE2P from Panul Lighthouse (ARLHS-073) during the weekends until the end of February. Activity will be on 40/20/15/10 meters, SSB only. He was heard this past week and weekend on 40 meters between 0145-0803z. QSL CE2P via EA5KB.

CW7, URUGUAY. Calvin, K6CT, member of the Florida Contest Group, will be active as CW7T during the ARRL International DX CW Contest (February 17-18th) as a Single-Op/Single-Band (15m)/High-Power entry. QSL via K5WW.

EF8, CANARY ISLANDS. Edu, EA8AUW/EC8AUA, informs OPDX that a Spanish and Canary Islands team will be active as EF8A from the URE Las Palmas section during the CQ WW WPX RTTY Contest (February 10-11th) as a

(possible) Multi-2 entry. Operators mentioned are: Juan/EB1ISN, Roberto/EA2RY, Juan/EC8ABQ and Edu/EA8AUW. QSL via EA8AUW, by the Bureau or direct.

HK, COLOMBIA. Operators Stan/AC8W and Hank/K8DD will be active as HK1/AC8W and HK1/K8DD, respectively, from in Cartagena, between February 14-21st. Activity will include the ARRL CW DX Contest (February 17-18th) as a Multi-Single entry. Their sign has not been decided yet. QSL via their home callsigns.

J20, DJIBOUTI (Update/Contest/IOTA Op). The group of Italians, who are now active as J20MM and J20RR from Moucha Island (AF-053) until February 15th, have announced that they (Operators IK2CIO, IK2HKT and I2YSB) will be in the CQWW RTTY WPX Contest (February 10-11th) as J20RR as a Multi-Single entry. Activity outside the contest will be on all bands 160-10 meters including the WARC bands, CW, SSB and RTTY with three stations on the air. The complete team of operators are: Stefano/IK2HKT, Alfeo/I1HJT, Vinicio/IK2CIO, Angelo/IK2CKR, Carlo/IK1AOD, Marcello/IK2DIA and Silvano/I2YSB. QSL is via I2YSB. Their Web page is available at: http://www.i2ysb.com/j2/ ADDED NOTE: The team has also requested a licence for 60 meters (5 MHz) and will try to be active next week.

PIRATE ALERT. The station active as VK7ZO on 17 meters CW January 28th (2007) was a PIRATE. The operator gave his name as Jeff, but Buckmaster, QRZ.com and RAC list VK7ZO as Graham. The original VK7ZO sold all his gear in 1997 and moved to Canberra, taking on the callsign VK1ZO. Save your postage and green stamps.

PJ4, NETHERLANDS ANTILLES. Joeke, PA0VDV, is now active as PJ4/PA0VDV from the Island of Bonaire (SA-006, WLOTA LH-1279) until February 18th. He was heard on 10 meters CW this past weekend after 1630z. QSL via his home callsign, direct or by the bureau.

TI, COSTA RICA. Andy, DH8WR, will once again be active from here between February 5-27th. Callsign was not provided (possibly DH8WR/TI). He will try to uploaded his logs via his Web site after the DXpedition. For further information, check his Web sites at: http://www.dh8wr.de or http://www.dxx.eu

TO5, MARTINIQUE. Al, F5VHJ, will be active as TO5A in the ARRL International DX SSB Contest (March 3-4th) as a single-Operator/All-Band/High-Power entry. QSL via F5VHJ, direct or by the bureau.

XU7, CAMBODIA (Update). Operators Steve/9M6DXX, John/9M6XRO and Pete/SM5GMZ continue to be active as XU7DXX, XU7XRO and XU7ADI, respectively, from an established DX shack in Sihanoukville, Cambodia, until February 10th. Activity over the past weekend has been mostly CW on 40/30/20/15 meters, and some SSB on 40/20 meters. Look for the digimodes to be used and possibly the other bands (depending on propogation). Steve will primarily be on SSB and

John will be on the key and RTTY. QSL XU7ADI via SM5GMZ, and for XU7DXX and XU7XRO via M5AAV: Graham Ridgeway, 6 Pilgrim Street, Nelson, Lancs, BB9 0JQ, England. Remember, ISWL members can claim John for the "Monitor Award", if heard or worked.

YW0, AVES ISLAND (Update/Change). The recent announcement by the 4M5DX Group, that a team of 15 experienced operators lead by Alex, YV5SSB, will be active as YW0DX from Aves Island (NA-020), has changed their plans for activation. The agreement with the Venezuelan Military Navy is to leave for Aves Island on February 7th (with operations beginning February 8-9th). Their departure day will be between February 13-15th. It was also announced that operators YV1FM, YV1CTE, YV1RDX, YV5KAJ, YV5RED, YV5OHW, YV5SSB, YV5MSG and YV5WW will be active in the CQWW RTTY WPX Contest (February 10-11th) as a Multi-Op/Single/Low-Power entry. QSL via IT9DAA. They are looking for sponsors/donors. More details are available on their Web page at: http://yw0dx.4m5dx.org

ZB, GIBRALTAR. David, EB7AEY., will once again be active as ZB2/4O3AL, February 23-25th (if all is OK and weather conditions permit). Activity will be on 80/40/30/20/17/15/12/10 meters SSB and RTTY. He is also expected to be active during some other months throughout 2007 during his spare time. QSL via EB7AEY.

ZD8, ASCENSION ISLAND. Operators Bill/W2WX (ZD8WX) and Jan/K4QD (ZD8QD) will be traveling here on February 19th. They will remain on the island until February 27th. Jan will enter the CQ 160-Meter SSB Contest (February 24-25th). Outside the contest, look for them on all bands CW, PSK-31, RTTY and SSB. QSL ZD8WX direct only to W4WX and ZD8QD via K4QD, by the Bureau or direct. Read all about the Island at: http://www.ascension-island.gov.ac/

From: gletourneau
Topic: 372 Message: 372

Hello all CIDX members,

here is a reminder,

I have worked a special transmission from Cupid Radio in Holland for North America DXers and CIDX members in February.

Cupid Radio has been active for the past few months and has made it here in Montreal on several occasions when propagation conditions are good. We hope that conditions will be good for this broadcast.

The Broadcast is schedule for Saturday, February 17th, 2007, from 1400 - 1600 UTC on the frequency of 15070 KHz, antenna will be turned for the eastern part of North America.

There will be some announcements on air from Me that I have sent to Cupid Radio , to send greetings to all Dxers and CIDX members.

All Dxers that will hear Cupid Radio can send their reports, there will be 3 beautiful QSL's available and a 3 page information sheet about Cupid Radio itself. There are 2 ways to send your reports:

via email: cupidradio@...

By regular mail: Cupid Radio, P.O. Box 9, 8096ZG, Oldebroek, Netherlands

All reports are welcome and will be verified, to receive a QSL card, all that is needed is to send a postcard representing the City where you live.

Thank you Rinus of Cupid Radio for making this possible and hope that propagation will be good for this special broadcast.

If you have any questions please feel free to write to me: gletourneau@yahoo.com

Hello from Montreal,

Special transmission from Cupid Radio has started.

Here in Montreal, at 1409 UT, signal is weak and difficult copy.

Anyone else hearing something?

frequency is 15070 KHz until 1600 UT today February 17th

377. HCJB in english

Yahoo group: cidxclub
Date: 2007-02-25 00:27:04 UTC
From: gletourneau
Topic: 377 Message: 377

Hello all,

Just came across an english program on HCJB, spotlight, in slow english, seems to be a program aimed at learning english.

Subject was about women that dissapeared in Mexico.

Was at 2330 to 2359 UT saturday February 24th and frequency was 11700 KHz, wonder if this is on every week ?

signal was very good, SINPO 44444, they had spanish ID at 2359 with frequencies mentionned.

379. 2007 ARRL International SSB DX Contest

Yahoo group: cidxclub
Date: 2007-03-02 14:20:48 UTC
From: David Ross
Topic: 379 Message: 379

2007 ARRL International SSB DX Contest

Starts 0000 UTC Saturday; ends 2400 UTC Sunday. That's 48 hours of
continuous contesting/listening.

Your chance to hear and QSL Amateur Radio operators in a lot of countries
that either no longer have a shortwave service or never did.

http://www.arrl.org/contests/rules/2007/intldx.html

If you have any questions or need help, email me.

From: Vernon Ikeda
Topic: 380 Message: 380

SB DX @ WW < KB8NW $OPDX.800
Ohio/Penn DX Bulletin No. 800

The Ohio/Penn DX PacketCluster
DX Bulletin No. 800
BID: $OPDX.800
March 5, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

7X, ALGERIA. Yves, F5MSR (ex-FT2XE and one of the F6KAT ARS gang), will
once again sign 7X0MT from Algier, Algeria. The length of his stay is not
known at this time. He will use a FT817 (QRP) and a long wire. His
activity will be mainly on CW and the digital modes. QSL via his home
callsign, either direct (QRZ.com) or via the French REF Bureau.

9M0, SPRATLY ISLANDS (Update). Spratly Island 9M2SDX DXpedition will
take place this week from Pulau Layang Layang (AS-051) in the Spratly
Island group, March 10-19th. Operators will include members of the
Malaysian Amateur Radio Transmitter's Society (MARTS) and a group of JA
operators. Malaysian operators mentioned are: Chow/9M2CF,
Kiyohiro/9M2/JH3GCN, Tex/9M2TO and Yasumasa/9M8YY. JA operators mentioned
are: Yoshiaki/JA1OCZ, Tack/JE1CKA, Harumi/JF1PJK, Naoyuki/JK1FNL,
Miho/JJ2VLY, Yutaka/JQ2GYU and Takashi/JR7TEQ. They plan to have 2-4
stations up and running for 24 hours on all bands 160-6 metres, and on
CW, SSB, RTTY and PSK modes. QSL via 9M2TO, by the bureau or direct to:
Tex Izumo, 2C-10-03 Mutiara APT., JLN. SG. EMAS 11100 Batu Ferringhi,
Penang, MALAYSIA. Visit the DXpedition's Web page at:
http://island.geocities.jp/layang9m4sdx/

CN, MOROCCO. Members of the Dar Bouazza Contest Group (DBCG), will
activate their ARRAM club station (CN8MC) in Rabat, during the CQ WW WPX
SSB Contest (March 24-25th) as CN5W and as a Multi/Single entry. Operators
mentioned are: Mohamed/CN8PA, Jean-Luc/F5IQA and Patrick/F6IRF. QSL via
EA7FTR or the LoTW. More details available soon at:
http://cn2ww.blogspot.com/

EK0, ARMENIA. Operators Hovik/EK6TA, Anna/EK6YL, Leszek/SP9LJD and
Kazimierz SP9UON/DJ0MCZ will be active as EK0B during the CQWW WPX SSB
Contest (March 24-25th) as a Multi/? entry. QSL via SP9ERV.

FK, NEW CALEDONIA (Also 3D2/R). Tony, 3D2AG (aka FO5RK), is currently active as FK/FO5RK from Noumea, until the end of April. Activity is mainly CW on 40 metres after 0600z and 20 metres after 0900z. Reports
indicate that he will go to Rotuma in May/June and operate as 3D2AG/p.

HB0, LIECHTENSTEIN. Look for two WorldWide Young Contesters (WWYC) teams to activate Liechtenstein between March 16-19th, and participate independently in the Russian DX Contest (March 17-18th) from there. The German team, consisting of Simon/DJ4MZ, Matthias/DK4YJ, Ulf/DK5TX, Christoph/DK9TN and Martin/DL5RMH, will sign HB0/homecall outside of the contest, but will be active as HB0/DK4YJ in the Russian DX Contest as a Multi-2 entry. QSL via the Bureau to their home callsigns. The Croatian Team, consisting of Dragan/9A2SX, Igor (Siro)/9A3AXX, Hrle/ 9A6XX and Mark/9A8MM, will sign HB0/homecall outside of the contest, but will be active as HB0/9A8MM in the Russian DX Contest as a Multi-Single entry. QSL via the Bureau to their home callsigns. Visit the two WWYC team's Web sites at:

German team http://www.dk9tn.de/hb0
Croatian Team
http://www.rkp.hr/active/index.php?option=content&task=view&id=306&Itemid=77

HF40, POLAND. Members of the "Piastowski Klub Krotkofalowcow" will activate their club station (SP6PAZ) using the special event callsign HF40PAZ to celebrate their 40th anniversary. The station will be on the air between March 1st and April 30th, and again between September 1-30th. Also, look for HF40PAZ to be active in the 2007 CQWW WPX SSB Contest (March 24-25th). QSL via SP6PAZ. Visit their Web page at: http://www.sp6paz.int.pl

HI, DOMINICAN REPUBLIC. Javier, NM6E, informed OPDX on Thursday that he is in Santo Domingo and is active as HI8/NM6E. He will be in the country on an extended work assignment until March 15th. He plans to travel around the country, so look for him to also sign HI3/NM6E (Santiago) and HI7/NM6E (Punta Cana). Activity will be on 80-10 metres CW/SSB. Javier will use his K2 #4409 (QRP) station and a Super Antenna MP-1 vertical (10-80 plus wire antennas). His operation will be from the hotel pool areas or beach as his work schedule permits. He was expected to be in this past weekend's ARRL International DX SSB Contest (QRP Category) and Elecraft QSO Party (both modes, common QRP calling freqs). Depending on his work, Javier should be on in the evenings and on the weekends. QSL via LOTW ONLY.

J75, DOMINICA. The W2RZS Amateur Radio Club will be returning to Dominica for the 2007 CQ WW WPX SSB Contest (March 24-25th) and they will be using their J75RZ callsign. This will be their third trip to J7-land. They expect to arrive on March 21st and stay for 6 days. Their "home" will be the Harmony Villa which boasts a 1700 foot elevation and is situated in the rain forest. Due to work schedules, there will be only two operators this trip; Bob/WB2NVR (J79RS) and Mike/WA2VQW (J79VQ). They will be active before and after the contest

and will be concentrating on the lower bands. All QSLs for J75RZ should be sent to W2RZS via direct or by the bureau.

J8, ST. VINCENT AND THE GRENADINES. Look for Gary, W0AW, to be active as J8/W0AW from the Island of Bequia (pr. Bek-way) in the Grenadine Islands (NA-025), March 10-16th. He will be using an ICOM IC-7000 and an inverted "L" for 80-10 metres. If antenna space is available there will also be some operations on 160 metres. Activity will be CW, RTTY, and some SSB. QSL via W0AW, either by the bureau or direct.

KH6, HAWAII. Matsuda, JM3PIT, will be active as KH6/JM3PIT from Oahu,March 21-25th. His activity will include the CQ WW WPX SSB Contest (March 24-25th). QSL via JM3PIT, by the Bureau.

LZ129, BULGARIA (Special Event). Members of the Balkan Contest Club (LZ1KZA & LZ5A) will activate the special event callsign LZ129LO from March 1-31st, to commemorate 129th anniversary of the "Liberation of Bulgaria from Ottoman yoke by Russia." The special station LZ129LO counts 10 points towards the "St. Teodosii Tyrnovski Award": http://www.balkanclub.org QSL via LZ1KZA by the Bureau.

V31, BELIZE. Robin, K4VU, will be active as V31RG from March 21-28th. Activity will include the CQ WW WPX SSB Contest (March 24-25th) as a Single-Op entry. QSL via K4VU.

VP9, BERMUDA. Mark, AA1AC, will be operating from the Hamilton Parish, Bermuda, as AA1AC/VP9 from March 11-15th. QSL via to his home callsign, direct or via the bureau.

VR2, HONG KONG. A group of VR2 hams will be active as VR2C during the CQ WW WPX SSB Contest (March 24-25th) as a Multi/2 entry. QSL via VR2NN (NO Bureau cards).

392. Prime Time Shortwave

Yahoo group: cidxclub
Date: 2007-04-08 01:26:01 UTC
From: Daniel Sampson
Topic: 392 Message: 392

The first edition of A-07 English shortwave schedules are finally available at Prime Time Shortwave, www.primetimeshortwave.com Schedules are available in ASCII text, Excel, DBase, and tab delimited formats. Sorts are available by time, country and frequency. Enjoy.

Daniel Sampson

393. Radio built into a pencil, 1939

Yahoo group: cidxclub
Date: 2007-04-11 17:04:08 UTC
From: Eric Floden
Topic: 393 Message: 393

fun article from 1939

http://www.boingboing.net/2007/04/11/radio_built_into_a_p.html
Radio built into a pencil, 1939
I love the idea of a crystal set radio built into a pencil, as illustrated in this September, 1939 issue of Modern Mechanix. It reminds me of the clandestine radio built into the water bottles in James Clavell's kick-ass WWII novel King Rat<http://www.amazon.com/exec/obidos/ASIN/0440145465/downandoutint-20>.

A MIDGET crystal set, built into a common lead pencil, is the technician's answer to demands for a personalized radio receiver. The crystal and cat's whisker are built into eraser end of pencil. Headphones complete the outfit. Construction plans for a similar device were carried in the May issue of this magazine.

http://blog.modernmechanix.com/2007/04/11/pencil-forms-midget-radio-set/

PRESS RELEASE

April 25, 2007

The 2007 Dxpedition to Scarborough Reef is pleased to announce they have departed on their ship for Scarborough Reef at 06:00 UTC 25 April. The trip is approximately 60 hours and upon arrival they will immediately build their stations and erect antennas.

This is the culmination of 5 years of planning and preparation. The International Team led by W6RGG includes 9V1YC, BA1HAM, BA1RB, BA4RF, BA4RC, BA7NQ, BV6HJ, DU1EV, DU1BA, ND2T,AA4NN, K4UJ,N6MZ,K9AJ, OH2BH, I8NHJ, and DL3MBG.

They are backed up by a support staff including N4XP, N1DG, K5YY, BV4FH and DU1JMG to insure that they are safe and informed of events happening off island.

We wish to thank the Chinese Sport Radio Association, the Philippine Amateur Radio Association, the American Radio Relay League, NCDXF and INDEXA who were instrumental in their support.

Scarborough Reef has unique and dangerous attributes and as such we will not have online logs or pilots. All efforts are on keeping our team safe so they can provide a new one to as many hams as possible.

Good luck in the pileups,

N4XP and N1DG for the 2007 Scarborough Reef Expedition.

The website is at: http://www.BS7H.com

BS7H Press Release # 7

11:00 UTC 28 April 2007

The team has arrived at the rocks on the North side just as the sun was setting. At
daybreak they will scout out the operating positions and build the stations.

Stay tuned for further information.

Subject: [OPDX] BS7H Press Release #8

This update is as of 0300Z 29 April - Local time at Scarborough Reef
was 1100 hours in the morning.

The team has made entry into the lagoon area and are starting to build
the operating positions.

They are proceeding as quickly as possible under the conditions that
are present.

The weather is now perfect and for the time being should not hinder
work activities as the day moves on.

The team plans to provide an update to us sometime during the day as to
progress on station work. We will forward that information as soon as
it is received.

N4XP and N1DG for the 2007 Scarborough Reef DXpedition

405. Forward OPDX Bulletin 807 (Partial)

Yahoo group: cidxclub
Date: 2007-04-30 02:16:39 UTC
From: Vernon Ikeda
Topic: 405 Message: 405

DX Bulletin No. 807
BID: $OPDX.807
April 30, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NJ1Q, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W4TV, AF8C, K8YSE, Pete's-DX-Newsdesk, 9M2TO, DK8JB, DL6LAU, DL7MAE & The DX News Letter, EA7FTR, F5NQL & UFT, G3XTT, I1JQJ/IK1ADH & 425 DX News, IZ2DPX, LZ1BJ, OH2HSJ, PY2ZA, PY4WAS, RSGB IOTA, RZ3EM, SM3CVM, TA1HZ, UR7EU, VA3RJ & ICPO, VK4AAR and ZL3JT for the following DX information.

3B7C, ST.BRANDON ISLAND (DXpedition Update). Don Field, G3XTT, has sent out a press release (#4) with updated information. Excerpts from the release states that plans for the September FSDXA DXpedition to St. Brandon are progressing well. A suitable boat has been chartered to take the team and its 6 tons of equipment to the island. The licence has been received, and all permits are in place for their stay on the island. The team will be operating from Isle du Sud, the southern end of what is shown on the charts as Cocos Island (not to be confused with Cocos Island in TI9 or the Cocos-Keeling Islands VK9!). "Lighthouse on the Air" enthusiasts might be interested to note that Cocos Island does have a beacon (WLOTA-Ref. LH 1017). This will be an all-time new one for lighthouse collectors - assuming the light is accessible from Isle du Sud. There have been some team changes. Some of the previously announced members have, unfortunately, had to drop out of the expedition. These include G3VMW, G4KIU, SM5AQD, WF5T and W3WL. However, they are delighted to announce that they will be replaced by Bob/MD0CCE (also known as N2BB), Pete/SM5GMZ (recently QRV from 6W), Gordon/G3USR and Clive/GM3POI (well-known as a low band expert living in the Orkney Islands). It was also announced at the RSGB Board meeting on Saturday, March 16th, that the board unanimously agreed to award the Five Star DXers Association (FSDXA) the "Calcutta Key" for the association's outstanding service to International Friendship. The FSDXA now has a four page full-color brochure with more information about their expedition available. This can be downloaded in both high and low definition PDF format from their Web site at: http://www.3b7c.com

4W, TIMOR-LESTE (OC-148). Members of the Korea DX Club will be active from the capital city of Dili between May 30th and June 4th. Operators Kim/6K5YPW, Lee/DS2BGV, Choi/HL5FUA and Yoon/6K2AVL will be active as 4W6AAV (or possibly a 2 letter suffix callsign that will be requested upon their arrival). Activity will be on 160-10 meters CW, SSB and the

digital; depending on propagation. Suggested frequencies are:
CW - 1822/1824, 3515, 7015, 10115, 14015, 18075, 21015, 24895
and 28015 kHz
SSB - 3795, 7095, 14195, 18130, 21295, 24950 and 28460 kHz
Digi - 14082, 21082 and 28100 kHz
QSL via HL5FUA: Jong-sool CHOI, P.O.Box 5, ULLEUNG ISLAND, 799-800,
Republic of KOREA. QSL cards will be sent to the KARL Bureau after
completing the direct request. More info and logs will be available at:
http://dxpedition.co.kr/

6W, SENEGAL. Remember Pete, SM5GMZ, is expected to be active from Thies
as of April 27th. The callsign will be 6V7-something. He plans to
operate for 12 days. Activity will be on all modes and bands, but look
for him especially on 80/160m. QSL via SM5GMZ, direct or by the bureau.

BS7, SCARBOROUGH REEF. A team of 18 operators left for Scarborough Reef
at 0600z, April 25th, from Hong Kong and arrived at the Reef on the
North side just as the sun was setting on April 28th. The trip was
slower than expected because of extreme rough seas. As this bulletin
was being written, the team reportedly (as of 0300z, April 29th - Local
time at Scarborough Reef was 1100 hours in the morning) "has made entry
into the lagoon area and are starting to build the operating positions.
They are proceeding as quickly as possible under the conditions that
are present. The weather is now perfect and for the time being should
not hinder work activities as the day moves on." Currently, all the
DXers world-wide wait patiently to work the most wanted DXCC entity.
By the time you read this, they should be on the air and active for
9 days. This operation has been in the planning stages for 5 years.
We were told that the International Team is led by Bob/W6RGG and
includes James/9V1YC, Chen/BA1HAM, Fan/BA1RB, David/BA4RF, Chen/BA4RC,
Terry/BA7NQ, Ko/BV6HJ, Eddie/DU1EV, Jun/DU1BA, Tom/ND2T, Joe/AA4NN,
Paul/K4UJ, Mike/N6MZ, Mike/K9AJ, Martti/OH2BH, Massimo/I8NHJ and
Christian/DL3MBG. The support staff include Tom/N4XP, Don/N1DG,
Sam/K5YY, Paul/BV4FH and Jose/DU1JMG. According to their press release:
"Scarborough Reef has unique and dangerous attributes and as such we
will not have online logs or pilots. All efforts are on keeping our
team safe so they can provide a new one to as many hams as possible."
OPDX wishes the team best of luck and a safe operation and safe trip
back from BS7. QSL via KU9C. For updates, visit the BS7H Web Page at:
http://www.bs7h.com
NEWS FLASH (Just before going to print!):PRESS RELEASE #9 (14:00 UTC
29 April): "The BS7H team worked throughout the day in setting up the
stations and managed to get one station operational as darkness fell.
The first QSO was made at 13:47 UTC. The dangerous environment
prohibits any work in darkness, and they were unable to fully provision
the one station that is operating. As a result, the CW station now on
14024 does not have enough gas to last the evening, so when you hear
them QRT do not panic. At daybreak they will resupply the station as
well as complete adding the other stations. We expect the team to be
fully operational with all stations by darkness tomorrow.
N4XP and N1DG for the BS7H

C4, CYPRUS. A team of operators (possibly 5B4AIE, LZ2HM and LZ3CQ) are expected to be active as C4I during the CQ WW WPX CW Contest (May 26-27th) as a Multi/? entry. QSL via LZ2HM.

C9, MOZAMBIQUE. Eduardo, CU2AF, is expected to be active as C91AF from Maputo between now and May 6th. He plans to be active only a few hours a day on 80-10 meters SSB, RTTY and PSK31. QSL via his home callsign.

DAYTON HAMVENTION ACTIVITIES.....
SWODXA DX DINNER: This is another reminder of the 22nd annual DX Dinner to be held in conjunction with the 2007 Dayton HamVention ?. It is not too late to order tickets, but time "IS" running out. The dinner will be Friday evening, May 18th, at the Crowne Plaza Hotel, located in Dayton City Center. Their key speaker will be Ward Silver, N0AX. Ward is a well known DXer, contester and author. ICOM has generously donated another IC-756 Pro III as a door prize. In addition, there are many other nice prizes. Full information can be found on their Web site at: http://www.swodxa.com
Please check it out. Come join them for an evening of fun and fellowship. After checking out the web site, further information may be obtained from Jay at: k4zle <at> yahoo <dot> com. Be sure to get your tickets now, sales at the door are done as a courtesy for selling those tickets previously purchased but brought back or sent back at the last minute.

LINE-UP FOR THE CONTESTING AND DXING FORUMS
11:15 p.m. - 1:45 p.m. Contesting
Moderator: Doug Grant, K1DG
Speakers: * Atilano Oms, PY5EG-WRTC2006 Video
* Randy Thompson, K5ZD/PT5Q; John T. Laney III, K4BAI/PW5Y and Charlie Wooten, NF4A (referee of PT5O)- Memories of the WRTC2006 Experience
* Dick Norton, N6AA/PT5K-The 40-Zone Adventures of Phil Goetz, N6ZZ
* Champ C. Muangamphun, E21EIC (PS2T in WRTC2006) - Contesting from Thailand & South East Asia
* Tim Duffy, K3LR/PT5G - The K3LR Multi-Multi Station and Video Notebook

2:00 p.m. - 4:45 p.m. DXing
Moderator: Jay Slough, K4ZLE
Assitant Moderators, Harry Flasher, AC8G & Tom Kissner, W8WQT
Speakers: * John Papay, K8YSE ..KH8SI; Swains Island
* Ramon Jose Perez Brett, YV5EED..YX0A/YX0LIX; AVES Island
* Ralph Bellas Jr., K9ZO..ZL8R; Kermadec Island
* Theodore Mirgliotta, KB8NW; OPDX Bulletin preparation and distribution.
* Glen Johnson, W0GJ.. VU7NR; Lakshadweep Island
* Mike Mraz, N6MZ - The upcoming Scarborough Reef operation.
* Dewey Jones, W8KJ

E51/S, SOUTH COOK ISLANDS. Gary, ZL2IFB, will be on a family holiday to Rarotonga and is expected to be active during his stay sometime at the end of May. He has not received his callsign yet (possibly E51IFB). His activity will include the CQ WW WPX CW Contest (May 26-27th) as a Single-Op/All-Band entry. He states that he will be "using 5W or 100W to wires at the hotel unless a friendly E51 op needs an extra CW contester and perhaps some logistics help from the ZL end." QSL via ZL2IFB or LoTW.

E51/N, NORTH COOK ISLANDS. Sailing couples Mike/KM9D (E51QMA) and Jan/ KF4TUG (E51TUG), are expected to be active any day now from Suwarrow Atoll, Northern Cook Islands. QSL via OM2SA.

EF8, CANARY ISLANDS. Operators RD3AF, RZ3AZ, RA9JR and RX3APM will be active as EF8M during the CQ WW WPX CW Contest (May 26-27th) as a Multi-2 entry. QSL via RX3DU.

FS, SAINT MARTIN (Update). John, K9EL, is now active as FS/K9EL whenever possible until May 6th (because he is on a family holiday). He will be heard this past weekend on 60 meters (5346.5 kHz after 0245z). He is using an IC7000 and verticals for 80-10 meters, and will mainly be on CW and SSB. QSL to his home callsign; bureau QSL cards are OK.

IOTA NEWS.....
AS-049. Operators JA1GLE, JA3BKM, JA4JBZ and JR8GZU will be active as homecall/6 from Taira Island (JIIA AS-049-011), Tokara Islands, May 3-8th. Activity will be on the HF bands and 6 meters. QSL via their home callsigns, direct or by the bureau.

EU-008. (Update) Jim, MM0BQI, will be operating as MM0BQI/p from the Island of Shuna (IOSA FL08), in the Inner Hebrides, NW Scotland, now through May 5th. He also mentions that he will have a boat available so other island activations may be possible in the local area. Operation will mostly be on 80/40/30/20 meters, RTTY, SSB and CW. QSL to his home callsign, by the RSGB or direct.

EU-030. Jurgen "Yogi", DB5YB, will be active as OZ/DB5YB from Bornholm Island (BO-001 for the Danish Islands Award, LH-2203) between May 5-18th. Activity will be on 20/17/15 meters SSB. He will also try to be in the DARC VHF/UHF Contest. QSL via his home callsign. For more information, vist: http://www.gellertinloehne.de/db5yb/Islands.html

EU-041. Max, IK2YSE, will be active as IM0/IK2YSE from Caprera Island (IIA OT-012, MIA MIS-006), May 3-5th. Activity will mainly be CW only on 40-10 meters. He will also try 6 meters; watch 50200 kHz. QSL via his home callsign, direct or by the bureau.

EU-054. Operators Raffaello/IT9ATF, Gianni/IT9ORA, Renato/IT9NPR, Pippo/IT9PPG, Giuseppe/IT9RZU and Pino/IT9WDC will be active

as IF9A from Favignana Island (IIA TP-011, MIA MI-025, WLOTA LH-1545), May 2-6th. They will also be active between October 26-28th, for the CQWW DX CW Contest. Activity for both operations will be on all bands and modes. QSL via IT9ATF.

EU-055. Operators Henk/PA3FMC and Ruud/PE1BTV will be active from Utvaer Island and lighthouse (ARLHS NOR-264, WLOTA LH-2373). They will participate in the International Lighthouse/Light-ship weekend. Activity will be on all HF bands using SSB and BPSK, plus 2 and 6 meters with meteor scatter. QSL via PA3FMC (QRZ.com). More information can be found at: http://la2007.dxpedition.nl

EU-128. Jorn, DG5XJ, will be active as DG5XJ/p from Fehmarn Island (O-01 for the German Islands Award), May 8-10th. Activity will be on 80/40/20/15/10 meters SSB only, using a Yaesu FT-897 with 100 Watt output to Force 12 Sigma 40XK or Spiderbeam. QSL via his home callsign.

LZ07, BULGARIA (Special Event). Several members of the Bulgarian Federation of Radio Amateurs (BFRA) will activate the special event station LZ07KM (LZ Zero Seven KM) from May 1-31st. Activity is to commemorate the brothers St. Kiril (Cyril) and St. Methodius, founders of the cyrillic alphabet, and the Bulgarian's Culture and Literatute Day (May 24th). QSL via LZ1PJ, by the bureau or direct to: Ivan Ivanov, P.O. Box 15, BG-1324, Sofia, Bulgaria (w/SAE+ 1 IRC-EU and 1 IRC or 2USDs-DX). NO eQSLs. QSL bureau E-mail request via: lz1pj@...

MMAA DX CONTEST. The Manchester Mineira All American DX Contest (MMAA DX Contest) will take place between 1500z, May 19th through 2359z, May 20th. The purpose of the contest is to celebrate the anniversary (birthday) of Juiz de Fora City, obtaining CWJF Awards and promote CW activity by groups in North/South/Central America. Prefix hunters should be interested in this event because of the special Brazilian prefixes that get used (such as PQ, PT, PX, ZV, ZW, ZW, ZX, ZY and ZZ). To read the rules and see the 2006 results for the MMAA DX Contest, please visit the following Web site: http://www.powerline.com.br/cwjf

OH2, FINLAND. Look for special event station OH2EURO to be active from May 11-13th. Activity is to celebrate the "Eurovision Song Contest" which wil be held in Helsinki on May 12th. Two YL operators (Anne/OH2YL and Annika/OH2HSJ) will be active on HF bands. They will use mostly SSB with some CW. QSL OH2HSJ via the bureau.

OX, GREENLAND (Expedition to Greenland of Foundation & Academy "The World Encyclopedia of Travel"). Operators Valery/RW3GW, Andrey/RW3AH, Alexander/RA3MR and Artemiy/UA3MQM will be active as OX/NA1SA from Kangerlussuaq, May 4-10th. Activity will be on all HF bands, CW, SSB, RTTY and PSK31. Special attention will be given to the WARC and lower bands. QSL via NA1SA or the Foundation & Academy "The World Encyclopedia of Travel", P.O.Box 88, Moscow 101000, Russia. All the QSOs will be confirmed automatically via the bureau. ADDED NOTE: The

team is also expected to be active as OZ/NA1SA on May 3rd and 11th from Copenhagen, Denmark. During the OX & OZ expedition, a special video (including Radio operation) will be produced!

PACIFIC ACTIVITY (KH2 and KH0). Toshi, JP1IOF, will be active as KH0WW from Saipan Island, Mariana Island between May 10-13th. He will also be active from Guam as WH7P/KH2, May 13-15th. Activity from both places will be on 160-6 meters, CW and SSB (with 500W). QSL via his home callsign, direct or by the bureau.

QSL INFO AND NEWS.....

US Postal Service has announced all of the increased postal rates. See: www.usps.com/cpim/ftp/bulletin/2007/pb22203a.pdf
In addition to an increase in U.S. Domestic First Class rates, international rates also increase and Surface Parcel Post service is being discontinued. It is believed that the loss of surface parcel post will probably effect the cost of forwarding cards via the ARRL Outgoing QSL Bureau (unless they are using m-bag service and even then those rates are increasing significantly).
old new
-------- -------
Domestic First Class $0.39 $0.41 (1 ounce/28 gm)

Canada/Mexico $0.63 $0.69 (1 ounce/28 gm)
Rest of world $0.84 $0.90 (1 ounce/28 gm)

IRC $1.85 $2.00

New rates/prices/services effective May 14, 2007.

9M4SDX QSL STATUS. Tex, 9M2TO, informs OPDX that the direct 9M4SDX QSLs are starting to be answered. All NA DIRECT REQUESTS have been mailed as of April 27th. They are now processing EUs, then JAs and Asia.

CN3A and 5D5A QSL STATUS. As of April 26th, the CN3A direct QSL requests backlog has been cleared, and all the cards are in the mail. New requests for CN3A, from now on, will be answered once a week. The 5D5A direct QSL requests backlog will be processed starting from May 2nd.

Look for R7C/TF QSLs to start coming out in the middle of May. This info is via RW3GW/3.

QSL Manager Alan, VK4AAR, reports: "Due to the rapidly increasing strength of the Australian dollar (or perhaps the US dollar is weakening?) it is vital that DXers are aware that ONE U.S. DOLLAR will no longer buy a stamp to any part of the world from Australia. Lately I have been able to survive by using 'card only rate' postage ... but that is no longer possible. I have noticed that the EURO is more stable and ?^¬1.00 (one Euro) will be enough ... but do NOT send coins! Banks only accept and exchange paper money."

QSL Z29KM via EA7FTR.

QSLS RECEIVED IN THE MAIL: 3C0M, 3DX2Z, 3XM6JR, CE1/K7CA , EK8WA, HB9RDE, PJ2/N0KE, R1FJM, TG9NX, TI8II, V31JZ/p, V51AS, VP9/W6PH, XT2C, YI9KT, ZS4U and ZS9X

QSLS VIA THE LOTW: 3DA0ODX, 5B/G3SXW, BX5AA, CT2FUH, DL4MCF, EA1CUB, FP/G3SXW, HH4/K4QD, HV0A, HZ1SK, PJ4/W9NJY, V26B, T40C and V51/DL5XL

SPECIAL EVENT. Look for special event station EN62EN to be active on all bands from Ukraine, May 5-13th. Activity is to celebrate the 62th anniversary of the end of WWII. QSL via UR4EYN: Nick I. Golub, P.O. Box 548, Ordzhonikidze, 53300,Ukraine. Special E-mail address for this event is: en62en@...

SPECIAL EVENT. look for special event station DL16XXV to be active during 2007 on all bands and modes. Activity is by a local radio club, Duisburg-Huckingen (DOK L16), which celebrates its 25th anniversary (Roman Numerals in the suffix of the callsign). A special DARC local identifier, DOK 25L16, will used May 1st-August 31st. QSL via the bureau and eQSL; info "OK" on QRZ.com. For 20m/SSB skeds, E-mail Johannes, DK8JB at: dk8jb@...

SPECIAL EVENT. Look for Jose, PY2ZA, to be active as ZY2P between May 1-3rd. Activity is to celebrate the visit of the Pope Benedict XVI at Sao Paulo City, Brazil. QSL Manager is PY2AA.

SPECIAL EVENT. Look for two special event stations to be active to celebrate the 100th anniversary of Fenerbahce Sports Club (Football team) between May 1-31st. Operators Tevfik/TA1HZ and Bekir/TA2RX will be operating as TC100FB from Istanbul mainly on 40/20 meters. Also, look for operator Mehmet/TA1CM to be active as TA100FB between May 13-27th from Tekirdag. More details about the evnt are available at:
http://www.qrz.com/
Fenerbahce Sports Club Web page at: http://www.fenerbahce.org

VP6, PITCAIRN ISLAND. Tom, ZL2HGR, will be active from here as VP6TD for about 4 months starting sometime in May. He will operate as his work permits on PSK31 as the primary mode with some SSB and CW. Tom's ETA is May 3rd on Pitcairn Island, but do not expect him on the air immediately. QSL is direct only to his home callsign ZL2HGR. Please include SAE with IRC or 2 USDs. No bureau please. Logs will be uploaded to LoTW and eqsl.cc after he returns home.

411. Chagos (Oil) Islands VQ9 Special Event Call

Yahoo group: cidxclub
Date: 2007-05-14 03:09:31 UTC
From: Vernon Ikeda
Topic: 411 Message: 411

From the OPDX Bulletin - Tedd Mirgliotta, KB8NW editor:

VQ97, CHAGOS ISLANDS (Attention PFX Hunters!). OPDX was informed by Jim, VQ9JC (ND9M), that he has received written permission to use the special callsign "VQ97JC" from May 23rd through June 5th. The special indicator "7" added to the prefix simply reflects the number seven in the year 2007. Jim was informed by Harmon (a.k.a. Dale), W4QM/VQ9QM, who was "Mr. VQ9" for 15 years, this is the first time a special prefix was authorized to be used there. Look for Jim to use this special prefix as much as possible during those two weeks. He states, "I am on a work assignment while at Diego Garcia, and as such I can only be on the air after work which normally means 1200-1730z. That said, I'm hoping to make the VQ97 prefix available at least 10 evenings during that period; with luck, there may be more. My work schedule includes weekends, so a pretty big bite is already taken out of the CQ WPX Contest timeframe. But I'm expecting to stay overnight at the shack both nights during the contest so that I can put in some time around the local sunrise (2300-0100Z) as well. I'll be SOAB during the contest." QSL via ND9M, direct or by the bureau. QSL cards will not be printed at least until after his return home to Florida in August.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 27th/May, through Sunday, 3rd/June there were 219 countries active. Countries available: 3A, 3B8, 3D2, 3V, 3W, 3X, 4J, 4L, 4O, 4S, 4W, 4X, 5B, 5H, 5N, 5R, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9U, 9V, 9Y, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D6, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J7, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TL, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP6, VP8, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YL, YN, YO, YS, YU, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO (Special Event). Look for special event station 3A7JO to be active between now and June 10th to celebrate the XII edition of the "Games of the Small States of Europe" (see http://www.monaco2007.mc/). Activity will take place on all bands and modes. All QSOs will be confirmed automatically via the bureau. Direct requests should be sent to the Association des Radioamateurs de Monaco (ARM) QSL Bureau, B.P. 2, MC 98001, Monaco Cedex.

3A, MONACO. Operators Luc/ON4LUC and Paul/ON6DP will be active as 3A/ON4LUC and 3A/OP0P from now until June 8th (possibly the 9th). They will be operating on RTTY, PSK and SSB with 100w and an "Inverted V" on 80/40/20 meters. QSLs via ON6DP, direct or by the bureau.

3A, MONACO. Eli, N6PF, will be celebrating his 60th birhday with a visit to 3A2MD's QTH. He will be operating as 3A/N6PF from June 25-30th. Bands and modes of activity were not provided. QSL via his home callsign.

3B6, AGALEGA ISLANDS (DXpedition Update). Team leader, Witek, SP9MRO, sent out a press release a day before leaving (June 1st) for Agalega Island. He indicated that the 3B6SP group had finished loading the equipment to the catamaran, and that they would be leaving in the morning. The group would be passing St. Brandon Island, which is very close to the catamaran route and only one day sailing from Mauritius. He expects a 4-5 day trip to Agalega because of high level of the ocean and activity from the volcano on Reunion Island. The team will try to work on the air during their trip under homecall/mm on all bands. If

everything goes as planned, they will start radio activity from Agalega on Thursday, June 6th. Their suggested frequencies are:
CW - 1821.5, 3521, 7021, 10121, 14021, 18081, 21021, 24901 and 28021
SSB - 1845, 3780, 7063, 14185, 18136, 21290, 24930 and 28490
RTTY - 3590, 7040, 10140, 14084, 18104, 21084, 24924 and 28084
PSK - 7038, 10142, 18102, 21072, 24922 and 28122 kHz

QSL via SP9SX. For more details and updates, visit the 3B6SP Web page at: http://3b6.godx.eu/

5N, NIGERIA. Marek, SQ8JCA, will once agin be active as 5N2/SQ8JCA from Cogi during all of June. Activity is expected to be on 80-6 meters SSB. Look for him especially between 1000-1600z. QSL via his home callsign.

7O1YGF OPERATION STATUS RESURFACED AGAIN. Since the International DX Convention in Visalia, as well as the Dayton HamVention, OPDX has been receiving questions about the status of the 7O1YGF German DXpedition to Yemen. It seems Dave Patton, NN1N, ARRL's Membership and Volunteer Programs Manager, has stated that the status of "7O1YGF is not closed". This would mean efforts continue to gain the right and necessary documentation.

AN8, CANARY ISLANDS (AF-004). As part of a campaign to get the Teide National Park (Tenerife, Canary Islands) to be included in the UNESCO World Patrimony List, a group of radio amateurs will air the special callsign AN8TID, June 9-10th, by operating from La Rambleta (Teide volcano), at an altitude 3,555 meters. Activity will be on all HF, VHF and UHF bands, using CW, SSB and the digital modes. QSL via EA8NQ, either direct (see www.qrz.com/ea8nq/) or by the Bureau. For details and information, visit the Web page: http://www.ure.es/ea8arg/an8tid/

9A, CROATIA. Jan, PA4JJ, will be active as 9A/PA4JJ/p from June 16th to July 7th. He will be on a holiday at Porec Istria and will try to be active as much as possible on the WARC bands using RTTY and PSK modes. He states that the antenna he will use will be either a vertical or a ZS6BKW. QSL information can be found on his Web site at: http://www.pa4jj.nl There is a possibility to request a special paper QSL card as well.

9A & T9, CROATIA AND BOSNIA-HERZEGOVINA. Zik, VE3ZIK (also DO7ZZ), will once again be active from Bilice (JN73WS), Croatia, as 9A/VE3ZIK between June 16th and September 5th. Look for him on all HF Bands, CW, SSB, RTTY, PSK31 and FM (around 29600 kHz if there is condx). He will also be active at least from one IOTA island, and active in the IOTA Contest. Visit Zik's Web page at: http://www.qslnet.de/ve3zik
Send E-mail QSL Bureau request via: zik@... Zik also has some plans to be active from Bosnia-Herzegovina as T9/VE3ZIK between June 20-27th and September 5-10th. This will be a holiday style operation with 100W and some wire antennas. QSL 9A/VE3ZIK and T9/VE3ZIK via DL3PS, by the DARC Bureau. No e-QSL or LotW.

AO5, SPAIN (Special Event). Look for Pascual, EA5FKQ/AO5FKQ, and other EA operators from the Valencia region to use the special prefix

AO5 instead of EA5 until July 7th. This special activity is to celebrate the most prestigious 32nd America's Cup sailing event being held in Europe for the first time off the shore of Valencia.

BS7H PHOTOS AVAILABLE. More BS7H Scarborough Reef photos are now available for viewing at via the following Web page at: http://album.blog.yam.com/bv6gu&folder=2705675

CS2, PORTUGAL. Members of the ARVM (Associa??o de Radioamadores da Vila de Moscavide) will be active as CS2FD, June 16-17th, from Montemor Park near the city of Loures, to participate during their Field Day event. Activity will be on all bands, CW, SSB, RTTY and TVA. For more details, visit their Web page at: http://www.arvm.org/index_fd2007.html

DL100, GERMANY (Special Event). Look for special activity during the month of June by members of the radio clubs of Norddeich (Z-65) and Hage (I-55) to celebrate the 100th anniversary of the well known coast station Norddeich Radio. Operations are planned for 160-10 meters on various modes. Also, look for 2 meters to be activated on SSB, CW, FSK441 and JT65. A special callsign, DL100DAN, and a special award, DAN100, will be available. More informations can be found on the Norddeich Web page at: http://norddeich-radio.de/
Also, visit the DL0DAN Web page at:
http://www.fdeiters.de/Termine/termine.html

EW905, BELARUS. Members of the Borisov Amateur Radio Club (BARC) will be active as EW905B between now and November 30th. Activity is to celebrate the 905th anniversary of Borisov City. QSL via EW2EO. For more details, visit: http://www.qsl.net/ew2ww

FY, FRENCH GUIANA. Operators Roger/G3SXW and Nigel/G3TXF will be active as FY/homecalls, June 8-10th. Activity will be on all bands, CW only. QSL via their home calls, direct or by the bureau.

GB1, SCOTLAND (Special Event). Look for special event station GB1EPC to be active from now until June 28th to celebrate of the European PSK Club's 1st anniversary. The station will be set up in Glasgow, and the activity will only be on the PSK modes. QSL via MM0DFV.

I2, ITALY. Look for Patrick, ON7ARQ, to be active from Lombardia (JN55) as I2/ON7ARQ between June 8-18th. Activity will be on HF SSB, 6 and 2 meters using a FT817 and TS50 into a mobile antenna + ATU. QSL via his home callsign.

OD5, LEBANON. Paulo, CT1EFS, is in Shama and is active as OD5/CT1EFS until the end of June. Activity will be on 20/17/15 meters, CW and SSB. Look for him starting around 1630z. QSL via CT1CJJ

SPECIAL EVENT (ISWL). The International Shortwave League (ISWL) will have a few special event station events active during the month of June. Look for the following:
GX4BJC/A - Herbie, G6XOU, ISWL QSL Bureau Manager, will operate

from Walton on the Naze, in Essex.
GC4BJC/P - Herbie, G6XOU, will also used this callsign from Wales during the month.
MX1SWL/A - John, G8XTJ, ISWL President, will operate from Great Missenden, in Buckinghamshire.
All QSL info is available on http:/www.iswl.org.uk or via eQSL.cc (NO LOTW).

TM6, FRANCE (Special Event). Look for special event station TM6ACO to once agin be activated (for the 56th year) between June 3-17th for the "24 Hours of Le Mans 2007". Activity will be on all bands (HF-6m), CW and SSB. QSL via the bureau to F6KFI. For more details, visit the Web page at: http://asso.proxiland.fr/aras72/

Subject: [RAC-Bulletin] Subject: VO1MRC Experiments on 60 metres

The Marconi Radio Club of Newfoundland (MRCN) station VO1MRC will be conducting a propagation experiment from 0000-2359 UTC on the 15th and 16th of June. During this period, a CW beacon will be in operation on 5269 kHz. The station will be open briefly for 2 way contacts starting 0001 UTC each of these days and will operate simplex on 5260.5 kHz CW. Following this it will transmit on 5327.5 USB and receive 5346.5 USB for stations authorised to transmit on 60 metres and 3807.5 kHz LSB for other stations. Please note that only stations so authorised by their respective administrations may transmit on 60 metres.

The experiment was proposed by MRCN, endorsed by Radio Amateurs of Canada and authorised by Industry Canada. Further information may be found by searching for VO1MRC on the internet.

435. Forward: Partial - [OPDX] Ohio/Penn DX Bulletin #814

Yahoo group: cidxclub
Date: 2007-06-25 07:46:57 UTC
From: Vernon Ikeda
Topic: 435 Message: 435

Subject: [OPDX] Ohio/Penn DX Bulletin #814

SB DX @ WW < KB8NW $OPDX.814
Ohio/Penn DX Bulletin No. 814

The Ohio/Penn DX PacketCluster
DX Bulletin No. 814
BID: $OPDX.814
June 25, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

3A, MONACO. Operator Slavo, SP2JMB, will be active as 3A2/SP2JMB between June 26-28th. Activity will be on 40m to 70cm on CW and SSB.

3B7, ST. BRANDON ISLANDS (DXpedition Update). DXpedition was expected to go QRT at/around 0600z, June 21st; QSL via SP9SX. For more details, updates and the log, visit the 3B6SP Web page at: http://3b6.godx.eu/

E2, THAILAND. Champ, E21EIC, informs OPDX this past week that he will be going to south Thailand on June 20th. He will operate as E21EIC/8 until June 30th. JA stations QSL via JR5XPG; all others via E21EIC.

FS & PJ7, ST. MARTIN AND ST. MAARTEN ISLANDS (Update/Survey). Operators Marq/CT1BWW, John/EA3GHZ and Tomas/EA5YH will be active as FS/homecall and PJ7/homecall between July 15-25th. The trio (with their XYLs) will start their activity on the French side of the island but will make visits to the Dutch side throughout their stay. Activity will be on 80-6 meters, CW, SSB and the digital modes. QSL via their home callsigns. Visit their very interesting Web page at: http://www.dxciting.com/index.htm

They have also added to their Web page a survey to determine what bands and modes are needed the most for each entity. During their operation, visit the DXFUN Web page for updates, photos and logs. Their survey is also available on this Web page too.

HB0, LIECHTENSTEIN. Pierre, HB9QQ, will be active as HB0/HB9QQ between June 29th and July 2nd and again between July 6-9th. Activity will be on the HF bands, 6 and 2 meters. QSL via his home callsign.

PACIFIC TRIP (IOTA Op). Karl, N1DL, who was active from various Caribbean locations last year, will be active from various French Polynesian Islands as FO/N1DL and as E51ADL from Rarotonga (OC-013), South Cooks Islands, this year between June 27th and July 11th. His activity will be limited because he is on holiday, but look for operations to be on most bands and all modes. QSL via his home callsign.

VP2E, ANGUILLA (Interesting Callsign). Look for Jim, WB2REM, to operate with a special four letter suffix callsign, VP2EREM, from here between June 28th and July 8th. Activity will be on 80-10 meters CW and SSB. QSL via his home callsign.

Excerpts and distribution of The OPDX Bulletin are granted as long as KB8NW/OPDX/BARF80 receive credit.

440. Special Event Station - VE2XPO

Yahoo group: cidxclub
Date: 2007-07-10 16:16:23 UTC
From: Vernon Ikeda
Topic: 440 Message: 440

Good afternoon,

This is to let you know that there will be a special event station on the air from the site of the 1967 World Exposition (Expo 67) in Montreal, Quebec from Friday, July 13 to Sunday, July 29. Please see the attached message below. As soon as i have any more information, I will pass it on.

73, Vernon

Hello,

I have been contacted by Roland Masse, VE2PX, who was the manager of the amateur radio station at Expo '67. For the fortieth anniversary this year he has secured permission from the city of Montreal to operate VE2XPO from the site of the former Korean Pavilion on Ile Ste-Helene from July 13 to 29, 2007.

This is short notice because the date coincides with activities for the anniversary activities planned by the city of which the station will be an integral part. The equipment for the station has been secured and the RAQI communications trailer has also been made available.

What is needed now is operators. Roland is hoping that clubs will take responsibility for staffing set days. I will find out what the specific operating hours will be but I would like to know who would be interested to help out and when you would be available. I would like to see MARC handle at least one day.

Please let me know if you are willing and able to help and when and I'll see how best we can work out a schedule.

If you have any questions please let me know.

73 de Jim.

James R. Hay, VE2VE ve2ve@...
President
Montreal Amateur Radio Club (VE2ARC)
Repeaters - VE2RED (147.270+), VE2BG (147.06+), VE2RJS (449.975-)

460. AFGANISTAN: Radio Solh, sin señal, ¿Cancelad o?

Yahoo group: cidxclub
Date: 2007-09-07 13:31:05 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 460 Message: 460

AFGANISTAN. Desde hace unos días noto la ausencia de Radio Solh vía Reino Unido en 17700 en el servicio de 12:00 a 15:00, en un principio pensé que se trataba de mala propagación o bien algún problema técnico, quizás una reducción de horario, pero según pasa los días parece que este servicio a sido cancelado, por regla general esta señal entra con mucha fuerza aquí en Valencia.

Saludos cordiales.

RUSIA?? 6000 Voz de Rusia, 18:08-18:15, captada el 12 de septiembre, probablemente en ruso, aunque por momentos parece griego, sintonía de identificación, locutores con boletín de noticias, referencias al presidente ruso, Vladimir Putin, SINPO 54333.

* Se trata de un nuevo servicio??, no encuentro listado este servicio en Aoki ni en Eibi.

471. Ultimas escuchas, Radio Solh y Radio Zamaneh sin emisión hoy. Ramadan.

Yahoo group: cidxclub
Date: 2007-09-13 19:26:29 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 471 Message: 471

Saludos cordiales.

ARGELIA 6300 Radio Nacional Saharaui, 18:30-18:45, captada el 13 de septiembre en idioma árabe, locutor con comentarios en programa musical, música árabe, SINPO 44444.

KUWAIT 15495 Radio Kuwait, 18:50-18:55, captada en árabe el 13 de septiembre, a pesar de estar en ramadán, no se aprecia ningún cambio significado en la programación, locutora con noticias, locutor con titulares acompañado de música electrónica de fondo, SINPO 44444.

REINO UNIDO 17700 Radio Solh, tentativa hoy 13 de septiembre a las 12:00 y a las 13:00 UTC, sin señal, se aprecia unas emisiones irregulares en los últimos días, igual están dos o tres días emitiendo y de repente no se les escucha, ¿problemas con el transmisor?.

TUNEZ 7225 RTV Tunisia, 18:55-18:58, captada el 13 de septiembre en árabe, música y locutor en conversación telefónica con oyente, tras un corto segmento musical otro oyente al teléfono, SINPO 45444.

UCRANIA 6245 Radio Zamaneh, tentativa hoy 13 de septiembre a las 18:20, sin emisión, los mismo que el día de ayer, ¿mala propagación?, no lo parece ya que VOIRI vía Lituania en 6255 llega con buena señal, lo mismo que RASD en 6300, quizás servicio eliminado, o problemas con el transmisor.

472. Historia de Radio Liberty en Canal Historia.

Yahoo group: cidxclub
Date: 2007-09-14 16:06:04 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 472 Message: 472

Para los que dispongan del Canal Historia en España, documental de Radio Liberty, el 29 de septiembre, repetido el 30 de septiembre.

Lamentablemente muchos no puedan verlo por no disponer de este canal de pago, pero si tienen oportunidad,veanlo o pidan que se lo graben.

Radio liberty

Sábado 29 de Septiembre
23:00h
Domingo 30 de Septiembre
07:00h , 15:00h

Partiendo de las imágenes del desmantelamiento y de la posterior dinamitación (marzo 2006) de las torres y antenas de onda corta de RADIO LIBERTY en la Playa de Pals (Girona), el documental repasa los hechos cronológicos más notorios de la emisora desde el inicio de la Guerra Fría, investigando aspectos como su misión, su organización, su repercusión internacional, sus relaciones con los sucesivos gobiernos españoles, desde la construcción de la estación de Pals en 1958 hasta su cierre en 2002, la evolución geoespacial actual y futura de Radio Liberty, así como la polémica y sentimientos confrontados que ha generado la desaparición de la estación en Pals.

488. fiction -- book involving radio in the NWT / Tuning in to the North

Yahoo group: cidxclub
Date: 2007-09-22 21:22:03 UTC
From: Eric Floden
Topic: 488 Message: 488

in case anyone wants to read a story on this. Meanwhile, we poor folk in Vancouver are in day 60 of a library strike so I have no idea when I can get a copy to read -ef
Tuning in to the North<http://www.theglobeandmail.com/servlet/story/LAC.20070922.BKHAYY22/TPStory/Entertainment/Books>

LATE NIGHTS ON AIRBy Elizabeth HayMcClelland and Stewart,364 pages, $32.99The Arctic is hot, but I doubt that is why accomplished Canadian novelist Elizabeth Hay wrote a novel set in Yellowknife and the Barrens in the mid-1970s. In Late Nights on Air, Hay has returned to a city and landscape she knew in the 1970s. Returned in her imagination, that is; she has not actually been there since the 1980s. Which makes her achievement in this quiet, elegiac book even more astounding than it is simply in the reading.

from the review:

The book has three settings: a little radio station in Yellowknife, not unlike the CBC station where Hay worked back then; a larger, in some ways metaphorical northern world, brought into focus by the Mackenzie Pipeline Inquiry hearings conducted by Justice Thomas Berger between 1974 and 1977; and, in the final third of the book, the Barrens, the route for a canoe trip delineated by the British traveller John Hornby, from Great Slave Lake, via Pike's Portage, to Artillery Lake and then into the Thelon River. It's a 500-mile, six-week canoe trip undertaken by four of Hay's characters.

http://www.bnr.bg/RadioBulgaria/Emission_Spanish/Theme_Espacio_diexista/Material/070923.htm

Siria. Según anuncio difundido por Radio damasco, en la nueva temporada de radio se empleará una frecuencia única para las emisiones para el exterior, posiblemente la de 9330, debido al escaso interés de los oyentes de esa emisora. Radio damasco emite en turco, iwrit, ruso, inglés, alemán, francés y español. En programa en idioma español se inicia a las 22.05 para concluir a las 23.30 horas. Se utilizan las frecuencias de 9330 y 12085 kilohercios.

494. DX program Radio Bulgaria

Yahoo group: cidxclub
Date: 2007-09-24 13:02:49 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 494 Message: 494

Broadcast Tips

http://www.bnr.bg/RadioBulgaria/Emission_English/Theme_DX_Programme/Material/dx219.htm

Ukraine. Radio Ukraine International has announced schedule changes as of September 23. The one-hour programs in English will be broadcast at 14, at 19 and at 21 hours on 5830 kHz, at 00 and at 03 hours on 5820 kHz, at 05 and at 07 hours on 7420 kHz and at 11 hours on 9950 kHz. The DX Program starts at the 12th minute of the broadcasts Saturday at 14 , at 19 and at 21 hours and Sunday at 00, at 03 and at05 hours, narrating Olex Yegorov.

Germany. The historic transmitter in Berlin ☐ Britz, which had earlier operated for long years on 6005 kHz as Radio RIAS discontinued its transmissions after a fire on July 17, 2007. Most likely it will not be restored and will be closed down for ever.

Russia. Valery, holding the call signs RA3GF and RN3GF has announced in the ☐Open DX☐ Forum on the Internet that after introducing the Internet Service through the 220V power line, BPL. by the company Spark, ham radio communications have become practically impossible in the town of Rostov-on-Don due to enormous interference. Even the local powerful broadcast stations cannot be received.

Ascencion Island. The new frequency of the stations broadcasting from Ascension Island to Sierra Leone and Liberia under the names ☐Star Radio☐ and Radio ☐Cotton Tree News☐ is 13760 kHz used from 07 to 08 hours.

China. A super DX reception occurred on September 7 when China Radio International was received in Sofia at 17 hours on 1521 kHz with a program in Russian.

Pakistan. Radio Pakistan was reported from 15.15 to15.45 hours on 4836 kHz with a program in Dari. News in English can be heard 9380 kHz.

India. All India Radio is soliciting reception reports for its out-of-band broadcasts on 10330 kHz from 00.25 to 04.35, from 09 to 12 and from 12.45 to 17.40 hours. The address for reports is: spectrum-manager@...

From: JOSE MIGUEL ROMERO ROMERO
Topic: 499 Message: 499

Magnífico documental que emitió en el día de ayer Canal Historia, en el siguiente enlace se puede ver un largo video de promoción del documental en inglés.
También se puede ver una recopilación de fotografías de la grabación del documental, así como una sinopsis del mismo. También una relación de personas entrevistadas en el documental.

José Miguel Romero

Adios, Liberty (Canal Historia)

Los próximos dias
Sábado 29 de Septiembre a las 23:00h
y Domingo 30 de Septiembre a las 07:00h y 15:00h

El canal Historia emite "Radio Liberty", un documental del que hice la dirección de fotografia sobre la radio que en los años 60 la CIA montó en la playa de PALS.

Sinopsis:
Quote:
Partiendo de las imágenes del desmantelamiento y de la posterior dinamitación (marzo 2006) de las torres y antenas de onda corta de RADIO LIBERTY en la Playa de Pals (Girona), el documental repasa los hechos cronológicos más notorios de la emisora desde el inicio de la Guerra Fría, investigando aspectos como su misión, su organización, su repercusión internacional, sus relaciones con los sucesivos gobiernos españoles, desde la construcción de la estación de Pals en 1958 hasta su cierre en 2002, la evolución geoespacial actual y futura de Radio Liberty, así como la polémica y sentimientos confrontados que ha generado la desaparición de la estación en Pals.
El documental lo rodamos en alta definición (hasta con 6 camaras y helicoptero), y posteriormente lo emitirá TV3 (aun sin fechas, pero espero que ademas, lo emitan por el canal de HD!).
Si quereis ver el trailer, en la web de la productora han puesto un fragmento largo: http://www.canalparadis.net/homeespanol.html (id a canal docs, seleccionad waves of liberty y de alli al trailer)

y de propina, alguna foto del rodaje

ITALIA. Ayer domingo 30 de septiembre pude escuchar la última emisión en Onda Corta de RAI Internacional en su servicio en español, a las 21:10 comenzó su habitual sintonía y su habitual identificación, ☐RAI, radio televisión italiana☐, ☐RAI Internacional, programa en castellano para Europa☐, ☐Diario desde Italia, el informativo de RAI Internacional☐, tras saludar un locutor comienza con los titulares del programa, comienza con noticias nacionales, luego el siguiente anuncio ☐Les recordamos amigos oyentes que están ustedes escuchando el informativo de RAI Internacional, avisamos también a nuestros oyentes, que este será el último noticiario en lengua española por que a partir de mañana todos los noticiarios en lengua extranjera cesarán de la RAI Internacional☐.
Luego continua con noticias internacionales y la sección de deportes, el programa finaliza con esta despedida, ☐Avisamos a nuestros oyentes que acaban de escuchar el último noticiario de la RAI en lengua española, así después de 75 años de compañía, a partir de mañana todos los noticiarios en lengua extranjera cesarán, gracias por su ayuda y por su escucha, amigos oyentes desde Roma muy buenas noches☐, para finalizar, la última despedida ☐Hemos transmitido, diario desde Italia, el informativo de RAI Internacional☐.
Los últimos minutos estuvo amenizado por un segmento musical.

Se puede escuchar la última emisión en Onda Corta en:

509. Chile: Radio Universidad de Concepción.

Yahoo group: cidxclub
Date: 2007-10-04 15:18:53 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 509 Message: 509

Saludos cordiales, interesante blog homenaje a la emisora chilena Radio Universidad de Concepción, por Hugo Olea, periodista y profesor de la Universidad de Concepción.

http://www.radiodelau.blogspot.com/

Historia de Radio Universidad de Concepción

http://www2.udec.cl/radio/historia/historia1.htm

Un 14 de Septiembre del año 1959 aparece oficialmente en el dial RADIO UNIVERSIDAD DE CONCEPCION, bajo la rectoría de David Stichkin Branover. Nuestra Radio nace como un proyecto para la "Educación Fundamental ", iniciativa enmarcada en la línea de la UNESCO, destinada a elevar el nivel educacional de los países en desarrollo. Consideraba repartir receptores de radio con sintonía fija en Radio Universidad,especialmente destinados a los sectores rurales, con la finalidad de entregar una opción de alfabetización a la comunidad rural juvenil y en horas vespertinas como una opción para los
adultos. Sin embargo, el proyecto original nunca logró concretizar sus estrategias por falta de recursos universitarios y por no haber tenido el respaldo esperado de los organismos internacionales involucrados.
En consecuencia, Radio Universidad nace con una orientación cultural dirigida a la comunidad toda.

510. R. Solh y Emisora Afro-pop sin emisión.

Yahoo group: cidxclub
Date: 2007-10-05 13:38:02 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 510 Message: 510

Saludos cordiales.

Hoy 5 de octubre se observa que la emisora afro pop que venía transmitiendo en los últimos meses de forma interrumpida por la frecuencia de 17660, probablemente desde Gabón y que salió al aire con la finalidad de interferir a la emisora clandestina para Libia Sawt al-Amal, está fuera del aire, normalmente empezaba sus emisiones a las 11:30, prolongándose hasta las 15:30, llegando a interferir a BSKSA Riyadh en su emisión en francés de las 14:00 a 15:55, se descarta que sea mala propagación, ya que África Nº 1 en 17630 está llegando con un SINPO 44433. Recuerdo que ayer 4 de octubre esta emisora musical estaba emitiendo.

Por otra parte cuando son las 13:30 tampoco se escucha en 17700 a Radio Solh vía Rampisham, quizás empieza mas tarde, últimamente se observa emisiones irregulares, unos días comienza a las 12:00 UTC y otras veces mas tarde, se desconoce el motivo.

511. Firedrake Jammer Chinas ausentes.

Yahoo group: cidxclub
Date: 2007-10-05 15:16:07 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 511 Message: 511

Hoy 5 de Octubre se observa a los jammer chinos apagados en muchas frecuencias, los conocidos cómo friredrake jamming, quizás el tifón Lekima que está asolando esa zona haya provocado algún problema.

http://ar.news.yahoo.com/s/reuters/071004/internacional/internacional_tormenta_asia_lekima_sol_2

....
La tormenta azotó la isla china de Hainan el martes, atrapando a turistas y obligando a la evacuación de 225.000 personas.
....

Se supone que es en esta isla donde están ubicados los transmisores de las Firedrake:

http://www.iarums-r1.org/iarums/prcdragon.pdf

Frecuencias chequeadas el 5 de octubre entre las 13:50 y 15:05.

Interesante Blog donde se puede escuchar un audio de la primera transmisión de la emisora clandestina La Voz Popular de Guatemala. La Voz Popular

Este es el primer programa de la Voz Popular, radio que funcionó durante la guerra y era emitida desde el Corazón de la Sierra Madre por la Unidad Revolucionaria Nacional Guatemalteca.
Por su valor histórico, lo compartimos con todos ustedes.

516. 8 oct. R. Solh y Afro-pop inactivas hoy ta mbién.

Yahoo group: cidxclub
Date: 2007-10-08 13:39:19 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 516 Message: 516

Saludos cordiales.

AFGANISTAN. Hoy 8 de octubre tampoco se aprecia que la emisora Radio Solh vía Reino Unido en 17700 esté activa, chequeada desde las 12:00 a 13:30.

GABÓN. Hoy 8 de Octubre se sigue apreciando inactiva la emisora afro-pop en la frecuencia de 17660, desde las 12:00 a 13:30 e chequeado esa frecuencia y adyacentes sin resultado. Por otra parte en 17630 África Nº 1 con buena señal, no recuerdo en los últimos meses escuchar esta emisora en esta frecuencia con tan buena señal.

Date: 2007-10-08 17:30:30 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 461 Message: 517

Saludos cordiales.

ARGELIA 6300 Radio Nacional Saharaui, 17:00-17:10, escuchada el 8 de octubre en hasania, comienza la emisión con el himno nacional, locutor con identificación, canto del Corán, SINPO 44444.

BIELORRUSIA 7105 Radio Belarus, 19:58-20:02, escuchada el 5 de octubre en inglés, locutor con presentación e identificación, ☐This is Radio Belaus☐, locutor con noticias, SINPO 55444.

11930 Belaruskoje Radyjo 1, 06:35-06:45, escuchada el 6 de octubre en bielorruso en programa musical, temas pop melódicos, curioso la emisión de un tango cantado en bielorruso, locutor con comentarios, ☐...Belarus..☐, SINPO 34333.

FRANCIA Voice of África, 20:20-20:23, escuchada el 5 de octubre en árabe a locutor con boletín de noticias, ID, SINPO 45444.

* Debe tratarse de un nuevo servicio o ampliación de horario, ya que este servicio se anuncia de 18:00 a 20:00 UTC en EiBi.

RUSIA 15260 Ethiopian Orthodox Church, 16:54-17:00, escuchada el 8 de octubre en amárico, locutor y locutora con despedida del programa, anuncian página web, cuña de ID, segmento musical, SINPO 43433.

VATICANO 7360 Radio Vaticano, 17:18-17:22, escuchada el 8 de octubre en idioma no identificado, probablemente ruso o ucraniano, aunque intuyo que se trate del final del servicio en rumano y principio del búlgaro, servicio no listado, ¿nuevo o cambio de hora?, sintonía, ID, noticias del Vaticano, SINPO 43433.

From: JOSE MIGUEL ROMERO ROMERO
Topic: 500 Message: 518

Saludos cordiales. Por el momento el servicio de correo de yahoo se a restablecido, de todas las maneras aquí en Valencia, España, seguimos en alerta roja por riesgo de fuertes lluvias, las temibles "Gotas frías" han llegado.

CHINA 17705 China National Radio , 11:30-11:45, escuchada el 10 de octubre en mandarín, locutor con comentarios, cuñas de la emisora, música, SINPO 44333.

INDIA 9870 All India Radio, 13:55-14:02, escuchada el 11 de octubre en hindú a locutora con comentarios en programa musical, temas de música pop melódica local, SINPO 44333.

ISRAEL 15785 Galei Zahal, 16:35-17:05, escuchada el 10 de octubre en hebreo, emisión de música melódica, cuñas publicitarias, cuña de ID ☐Galei Zahal, Kol Israel☐, al menos eso me a parecido escuchar y no recuerdo una identificación así de esta emisora, locutor con boletín de noticias, se aprecia una deficiencia en la modulación, SINPO 44343.

REINO UNIDO 17700 Radio Solh, 12:52-13:00, escuchada el 10 de octubre en idioma afgano con emisión de música pop local, ligeramente interferida por CNR en 17705, SINPO 44444.

Saludos cordiales, hoy 14 de octubre se está escuchando desde Valencia en España desde las 18:15, la estraña retransmisión en 4395 USB de Onda Cero, se aprecia con la emisión nacional en paralelo por Onda Cero Valencia en 101.2 de la FM.

Probable emisión pirata con destino a pescadores faenando en la zona norte de España.

529. Web del servicio en español de VOIRI fuera de servicio.

Yahoo group: cidxclub
Date: 2007-10-22 13:36:53 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 529 Message: 529

Saludos cordiales, hoy 22 de octubre se observa que la web del servicio en español de La Voz Islámica de Irán está fuera de servicio:

http://spanish.irib.ir/

No es el único enlace que se observa con problemas en la página principal.

http://www.irib.ir/worldservice/

Por ejemplo si se intenta acceder al servicio en árabe de esta emisora, el enlace te lleva al servico en inglés.

El servicio en Albanés también está inoperativo.

533. 9825 Radio Miraya desde Valencia en España.

Yahoo group: cidxclub
Date: 2007-10-26 13:51:56 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 533 Message: 533

Saludos cordiales.

9825 Radio Miraya, 13:35-13:50, escuchada el 26 de octubre en idioma desconocido, locutor con comentarios, emisión de música pop y regae africano, conexión telefónica con oyentes, SINPO 44444.

Emisión en paralelo por Internet pero con retraso.

http://www.mirayafm.org/listen.html

Wednesday, 24 October 2007
Starting on 25th October 2007, Miraya Sudan is broadcasting on shortwave from 6 p.m. to 9 p.m. Sudanese time (1500 - 1800 GMT)on frequency 9825 KHz in the 31 meter band.
This signal can be heard all over Sudan and in neighbouring countries.
Monday to Friday
News every 30 minutes (in Simple Arabic, Arabic and English). Features and
information for and about the Sudanese people will be aired in
between the news bulletins.
Saturday and Sunday
We join Miraya FM live for news bulletins on the hour and the weekend edition of Sudan Tonite
We want to know if you can receive the signal loud and clear ?
Please let us know and tell us where you are listening by sending an email to '); document.write(addy50401); document.write(''); //-->\n mirayasudan@... '); //--> This e-mail address is being protected from spam bots, you need JavaScript enabled to view it '); //--> or click here for online feedback.

535. B-07 English shortwave schedules

Yahoo group: cidxclub
Date: 2007-10-27 02:56:57 UTC
From: Daniel Sampson
Topic: 535 Message: 535

The first edition of the B-07 English schedules are available at Prime Time Shortwave. Thanks goes out to Ernest Riley for making this possible with his work on the database. I very much appreciate it. The schedules are available as before in ASCII, DBase and Excel formats. Sorts are available by time, country and frequency. All file have been updated except for the Palm OS file.

Espacio diexista 29.10.07

http://www.bnr.bg/RadioBulgaria/Emission_Spanish/Theme_Espacio_diexista/Material/07.10.25+DX.htm

En primera entrega, nuestro material sobre la señal radial más potente en la historia de la radiodifusión. Después podrán Vds. escuchar las habituales noticias del mundo de la radio. A mediados de los años 70 del siglo pasado los oyentes radiales y los radioaficionados del mundo entero, y no sólo ellos, se quedaron pasmados ante la señal superpotente inesperadamente aparecida, de transmisor desconocido que operaba en onda corta. La señal cubría simultáneamente unos 7 u 8 canales o sea, una banda ancha de aproximadamente 40 kilohercios.
La señal aparecía de golpe y se movía, básicamente de una frecuencia superior a otra inferior y en su trayecto cubría incluso las señales de las emisoras de mayor potencia en el mundo. De vez en cuando esta señal poderosísima se detenía en alguna banda ancha de 40 kilohercios en la que comenzaba a emitir su superseñal por espacio de varios minutos. El propio sonido transmitido se percibía por el oído humano como el emitido por el pájaro carpintero al picotear la corteza de un árbol.
La periodicidad de los sonidos repetitivos era de unos 6 a unos 10 segundos, y la frecuencia de las señales de ☐picoteo☐, de unas 10 veces por segundo.
Aquella señal extraordinariamente potente se emitía por el diapasón de 7 a 19 megahercios y afectaba las bandas de 16 a 41 metros de onda corta. La señal se escuchó por vez primera el 4 de julio de 1976. Se afirma que las últimas señales se habían captado a finales de 1989 pero, de vez en cuando, aparecen noticias de haberse captado nuevamente en diferentes zonas del globo esas señales.
La afirmación más reciente es del director técnico de Radio Ucrania Internacional, del mes de septiembre del año en curso. Dice él que la señal cortaba en determinados momentos todos los tipos de comunicaciones radiales de radioaficionados y de emisoras utilitarias y asimismo cualquier tipo de transmisión radial y otras actividades electromagnéticas.
Las frecuencias armónicas del ☐pájaro carpintero☐ irrumpían incluso en las redes telefónicas y perturbaban las emisiones de TV en los años en que no había todavía televisión por cable.
Con la ayuda de satélites militares y otros equipos especiales fue localizada la zona desde la cual provenía ☐el picoteo☐ del ☐pájaro carpintero☐.
En los mapas la zona estaba designada con el nombre de ☐campamento de pioneros☐ en la entonces URSS. Muy recientemente se esclareció que los ☐pájaros carpinteros☐ eran tres. En el año 1988 la Comisión federal de Investigaciones de EE.UU. concluyó que la extraña instalación era un radar de nueva generación de la familia de los llamados radares sobre el horizonte, o sea Over the Horizon, en inglés.
Así ☐el pájaro carpintero☐ emite una señal dirigida a la ionosfera que, tras reflejarse en ésta retorna a un dispositivo receptor. La señal, en su trayecto verifica si hay alteraciones de la ionosfera causadas por el paso de misiles balísticos. El paso de éstos provoca el llamado efecto de ☐desionización☐ y esto repercute en la reflexion de las ondas radiales, concretamente de las ondas cortas.
Con respecto a esta misteriosa instalación se hicieron miles de estudios e investigaciones en el mundo entero pero por la estricta confidencialidad en que está envuelta esta actividad se desconoce hasta hoy en día para qué exactamente servía el extraño equipo.
Cabe mencionar únicamente las conclusiones principales que se han desprendido de algunos de los numerosos estudios científicos efectuados en aquellos años por prestigiosos institutos y universidades. Son muy diversas y aluden a comunicaciones con submarinos, jamming de programas de radio, barrido electrónico de toda la tierra,

alteración artificial de los fenómenos atmosféricos, contactos radiales con extraterrestres, dispositivo para provocar seísmos artificiales o alterar la mente y conciencia humanas etc.
En nuestro próximo espacio conoceremos la opinión de los expertos en esta materia y evocaremos intentos de radioaficionados por contrarrestar el fenómeno.

Por Rumen Pankov

greetings

a resource I had never seen before: this URL is for BC -- you can easily navigate around elsewhere as desired

oddly it shows a station on 1630 in Vancouver

http://radiotime.com/region/c_100453/British_Columbia.aspx

584. getting rid of WRTH & Passport

Yahoo group: cidxclub
Date: 2007-11-25 20:39:09 UTC
From: Eric Floden
Topic: 584 Message: 584

I have the following, free for pick-up or handoff (if mailing required, well maybe, maybe not - might be beyond my level of energy)

WRTH 2000, -1, -2;
Passport to WBR 1998, -9, 2000, -1.

I have a couple of Joe Carr's books (Receiving Antenna Handbook, Loop A.H.) that might need a new home "soon"

contact off-list if interested

thanks

588. Montreal area Christmas Dinner 2007

Yahoo group: cidxclub
Date: 2007-11-27 21:54:58 UTC
From: sheldonharvey
Topic: 588 Message: 588

Monday, December 10, 2007 will be the date for this year's Radio in Montreal/CIDX Christmas buffet dinner.

DATE: Monday, December 10, 2007, at 6:30 PM.

LOCATION: Buffet La Stanza, 1132 Marcel Laurin in St. Laurent, at the corner of Cote Vertu. This is within walking distance of the Cote Vertu Metro station. There is free parking in front of the restaurant.

The cost for the all-you-can-eat buffet is $11.95 per person, plus taxes; beverages not included. The buffet included a wide selection of different types of cuisines.

As in previous years, we will have a selection of door prizes to be awarded at the dinner. Please feel free to bring along your spouse, significant other, family members or friends.

If you are planning to attend please let me know ASAP by e-mail, at ve2shw@.... I will need to make our reservation within the next week or so.

Looking forward to seeing everyone on December 10th.

Sheldon

592. Ultimas escuchas. 4395 relay Radio Nacional de España, un misterio.

Yahoo group: cidxclub
Date: 2007-12-02 21:29:45 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 592 Message: 592

Saludos cordiales.

ESPAÑA 4395 Radio Nacional de España, 15:35-15:40, escuchada el 1 de diciembre en español a locutora con programa y cuña de identificación, fuerte interferencia de estación utilitaria, en principio no le di mucha importancia a esta escucha, ya que pensé se trataba de algún armónico o de alguna emisión fantasma, de las muchas que suelo captar con la Sangean si tengo puesta la antena de hílo, pero me a llamado la atención el log desde Brasil de Lucio Otavio, que también la captó, desconozco la procedencia de esta emisión, hoy 2 de diciembre también e notado a las 17:08 que estaba la emisión en la misma frecuencia, pero a nivel de ruido, muy difícil intentar comprender nada, SINPO 22332.

BURQUINA FASO 5030 Radio Burquina Faso, 21:02-21:10, escuchada el 31 de noviembre en francés a locutor con bolatín de noticias, conexión con corresponsal, SINPO 44443.

CHINA 4330 PBS Xizang, 17:43-17:45, escuchada el 2 de diciembre en kazajo a locutor con comentarios, fuerte interferencia de emisión morse, SINPO 32332.

4460 China National Radio 1, 15:40-15:44, escuchada el 1 de diciembre en mandarín con emisión de música pop, se aprecia interferencia por una estación del Mossad con emisión de código alfa, SINPO 33342.

4500 China National Radio 8, 15:44-15:49, escuchada el 1 de diciembre con emisión de música pop melódica, SINPO 34433.

4800 China National Radio 1, 17:14-17:16, escuchada el 2 de diciembre en mandarín con emisión de música folklórica local, SINPO 33432.

4820 PBS Xizang, 17:17-17:20, escuchada el 2 de diciembre en mandarín a locutor con invitado con comentarios, SINPO 33332.

CUBA 15370 Radio Habana Cuba, 14:20-14:25, escuchada el 29 de noviembre en español con la emisión de un mitin político, SINPO 45343.

DJIBOUTI 4780 Radio Djibouti, 20:45-21:00, escuchada el 31 de noviembre en idioma vernácula a locutora con comentarios, música afro-pop con ritmos ancestrales, fin de emisión con música clásica, SINPO 44433.

ERITREA 7100 Vo Broad Masses of E 1, 17:25-17:30, escuchada el 2 de diciembre en idioma tigriña con emisión de música folklórica local, SINPO 33443.

ETHIOPIA 9704 Radio Ethiopia, 17:30-17:40, escuchada el 2 de diciembre en ahmarico a locutor y locutora con comentarios, música de sintonía, locutor con posible ID ☐Radio...☐, especie de cuña con efecto eco, música africana, SINPO 34433.

GABON 17630 Africa Nº 1, 12:55-13:05, escuchada el 1 de diciembre en francés con cuñas de ID ☐Africa Nº 1, la radio africaine☐, segmento musical, locutor presentando a invitado y entrevista, SINPO 45544.

LETONIA 9290 Radio Joystick, 09:24-09:57, escuchada el 1 de diciembre en alemán a locutor con comentarios, ID, música rock instrumental y disco dance, referencias a Antonio Puchades, finalizan con un tema rap, SINPO 45544.

NIGERIA 4770 Radio Nigeria Kaduna, 21:10-21:15, escuchada el 31 de noviembre en idioma vernácula a locutor con noticias, SINPO 34443.

ESTADOS UNIDOS 15330 Radio Martí, 14:15-14:20, escuchada el 29 de noviembre en español a locutoras con programa de noticias y comentarios, SINPO 44333.

REINO UNIDO 15265 Radio Solh, 14:08-14:15, escuchada el 29 de noviembre en afgano con emisión de música pop local, SINPO 45444.

SUDAFRICA 17660 Radio Mustaqbal, 12:21-12:30, escuchada el 1 de diciembre en idioma vernácula a locutor y locutora con comentarios, música instrumental africana con cantos rítmicos, SINPO 35443.

TAJIKISTAN 4635 Radio Tajikistan, 15:32-15:35, escuchada el 1 de diciembre en tajico a locutor con comentarios, música folklórica local, SINPO 24332.

TURKMENISTAN 5015 Turkmen Radio, 15:25-15:30, escuchada el 1 de diciembre en turkmeco a locutor con boletín de noticias, conexión con corresponsal, cuñas publicitarias, referencias a Pakistán, SINPO 34433.

594. Sri Lanca: Destruida Estación de radio de los Tigres de Liberación de la Tierra Tami l?=

Yahoo group: cidxclub
Date: 2007-12-04 13:50:37 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 594 Message: 594

La UNESCO condena el ataque contra una estación de radio de los Tigres de Liberación de la Tierra Tamilhttp://actualidad.terra.es/internacional/articulo/unesco_tigres_liberacion_tierra_tamil_2093375.htm
La Organización de las Naciones Unidas para la Educación, la Ciencia y la Cultura (UNESCO) condenó hoy el ataque aéreo contra la estación de radio 'Voz de los Tigres', en el norte de Sri Lanka, que causó la muerte de cinco de sus trabajadores y de al menos otras cinco personas que pasaban por el lugar, además de dejar una decena de heridos.
El director general del organismo, Koïchiro Matsuura, repudió el bombardeo y subrayó que, independientemente del contenido de las transmisiones, 'no pude haber excusa para los ataques militares a los medios de comunicación civiles'. Además recordó que este tipo de acciones violan la Convención de Ginebra, que estipula un trato de civiles a los trabajadores de los medios de información por parte de las Fuerzas Armadas.

'Matar al personal de los medios no ayudará a la reconciliación de Sri Lanka. Urjo a las autoridades a garantizar el respecto del derecho fundamental a la libertad de expresión', puntualizó Matsuura. La estación 'Voz de los Tigres' -vehículo de difusión del grupo rebelde Tigres de Liberación de la Tierra Tamil y ubicada cerca del poblado de Kilinochchi, en el norte del país -, fue bombardeada el pasado 27 de noviembre por aviones militares de Sri Lanka.

Radio Club: los artesanos de la comunicación.
http://www.lacapital.com.ar/contenidos/2007/12/09/noticia_0006.html

"Nos fascina la comunicación por la comunicación misma", explican los radioaficionados.
Hoy la imagen puede resultar algo risueña. Sin embargo es adecuado remontar un vuelo imaginario hacia el anochecer del 27 de agosto de 1920 y posar por un instante la mirada sobre la terraza del Teatro Coliseo de Buenos Aires. Esa noche, entre las 21 y la medianoche, el médico y radioaficionado Enrique Susini junto a sus tres amigos, César Guerrico, Luis Romero Carranza y Miguel Mujica, lograron emitir la ópera Parsifal constituyendo de esa manera la primera transmisión radial del mundo. Al día siguiente, una crónica firmada por el crítico musical Miguel Mastrogiani en el diario La Razón titulaba: "Una audición llovida del cielo. Parsifal a precios popularísimos"; y en uno de sus primeros párrafos decía: "Anoche una onda sonora onduló vermicular por el espacio, como cubriendo con su sutil celaje de armonías la ciudad entera".
Enrique Susini había estado un año antes en Francia interesado por los equipos transmisores utilizados por el ejército galo durante la Primera Guerra Mundial. De aquel viaje, Susini trajo a la Argentina algunas válvulas Pathé, con las que armó un precario equipo. De esa manera creó junto a sus amigos LOR Sociedad Radio Argentina y acordó con los dueños del Coliseo colocar una pequeña antena en la terraza del teatro. A partir de ese día pasaron a la historia como los "Locos de la Terraza".
Aquella noche unas cincuenta personas escucharon la ópera en las pocas radios de galena que existían y el presidente Hipólito Yrigoyen comentó: "Cuando los jóvenes juegan a la ciencia es porque tiene el genio adentro".
Una historia local
La noticia no tardó demasiado en llegar a nuestra ciudad y el interés por las radiocomunicaciones comenzó a expandirse rápidamente. La curiosidad de los rosarinos se acentuó un poco más, debido a que los buques cerealeros que amarraban en el puerto empezaban a mostrar las clásicas antenas multifilares. El entusiasmo fue creciendo al igual que la cantidad de mástiles y cables que se levantaban en las azoteas, intentando captar las emisiones de Radio Sud América o Radio Cultura de la Capital Federal.
En diciembre de 1921 se funda el Radio Club Rosario, cuyo objetivo era más bien experimental y de estudio sobre los elementos radioeléctricos. Al no estar reglamentada aún la actividad del radioaficionado, el uso de las potencias y de las frecuencias era discrecional, lo que provocaba interferencias y trastornos en los pocos y selectivos receptores que había en esa época.
Tres años más tarde comienzan a regir algunas normas más bien precarias para el funcionamiento de las estaciones de radioaficionados y se entregaron las primeras licencias. Esto llevó a que el 25 de septiembre de 1927 se produjera la segunda fundación del Radio Club Rosario, que incluía la habilitación de una estación dedicada a la radiodifusión que funcionaría hasta 1930 y que tenía la autorización para emitir programas culturales que se enviaban a través de la línea telegráfica.
Días de radio
El sonido agudo de una interferencia no permite escuchar con transparencia la lejana voz de fondo. El ingeniero electrónico Alfredo Angeletti mueve el dial de frecuencias automáticamente y los ruidos se apaciguan un poco. "Ahora estoy entrando en una banda que

se denomina de ochenta metros", explica mientras toma el micrófono del equipo de transmisión.
?Break, break; LU8FDZ pide entrada ?dice Angeletti.
Hay unos segundos de espera y entre los ruidos de descargas se escucha a alguien que dice: ?Adelante Rosario, acá transmite LU8 Radio Club Rafaela.
?Buenas noches, estamos haciendo una especie de demostración para un invitado que desea conocer sobre lo que trata la radioafición. Un abrazo fuerte y espero verlos pronto ?s aluda Angeletti.
?Con todo gusto, buenas noches para ustedes.
Los ruidos de fondo continúan y se oye una multiplicidad de voces en el parlante. "Esto es un comunicado; aparece uno, después otro y entonces te podés quedar tres o cuatro horas charlando y no parás", asegura el ingeniero.
Tres días por semana en la sede del Radio Club Rosario, en la calle Zeballos 817, se reúne un puñado de hombres apasionados por este hobby. Allí hablan de sus comunicados, estudian las nuevas tendencias en lo que ahora es la industria de la radioafición a nivel mundial y también debaten sobre el funcionamiento de los cursos u otorgamientos de nuevas licencias para las personas que se acercan a la actividad.
Eduardo Milhomens tiene 75 años y lleva apenas ocho años como radioaficionado, aunque asegura que el interés lo tuvo desde que era adolescente. "Creo que se nace con esto; en mi casa, más o menos por el año 1953, había un viejo receptor de radio valvular en onda corta. Ahí se escuchaba a los radioaficionados y a mí me gustaba mucho; antes estaban las escuelas de radio pero mi viejo nunca me incentivó. Hasta que el día menos pensado me vine a vivir justo en la esquina del Radio Club, cuando ya me había jubilado en la empresa que trabajaba, así que esa fue mi oportunidad y me anoté", enfatiza Milhomens mientras sus ojos destellan regocijo.
Luego de apagar los equipos, Alfredo Angeletti retoma la palabra y recuerda sus orígenes como radioaficionado. Tiene 60 años y hace más de treinta que obtuvo la licencia para poder operar. "En Armstrong, donde yo nací, no había quien se dedicara a esto y en esa época la actividad se aprendía como por herencia. Así que a mí me gustaba la electrónica y hacía aparatos que nunca funcionaban. Después me fui perfeccionando y la primera comunicación que logré fue con Casilda", dice, con una sonrisa.
La radioafición tiene varias facetas. Están aquellos que se dedican a buscar y conectar países; luego de hacer el comunicado se solicitan mutuamente unas tarjetas que certifican la comunicación. Otros se aplican de tal manera a las comunicaciones satelitales que lograron establecer contacto con la estación espacial internacional. Como ejemplo, vale recordar que el primer satélite argentino en ser enviado al espacio, el reconocido LU-SAT, fue hecho por radioaficionados. A esta lista también hay que agregarle los que aún alimentan una manera antigua de comunicarse pero no por ello menos eficaz, como lo es la telegrafía.
Los radioaficionados tienen una sigla particular que los identifica, por lo tanto cada uno de ellos es una estación de radio en sí mismo. "Entonces cuando uno se presenta con su patente ya se sabe desde dónde está transmitiendo. En mi caso es LU8FDZ, y ahí el oyente sabe que LU pertenece a Argentina y la F a la provincia de Santa Fe", explica Alfredo Angeletti.
LU8FM es la patente de Eduardo Milhomens, que además desempeña el cargo de secretario del Radio Club Rosario. Su voz tiene un tono más bien suave y asegura que entre los pares tanto nacionales como internacionales se produce una especial fraternidad. "Uno de los lemas de la radioafición es que la finalidad de este hobby es hacer amigos sin fronteras. A través del éter se establecen grandes amistades que duran para siempre", dice.
Alfredo Angeletti deja de lado por un momento la revista técnica que estaba hojeando y agrega: "A nosotros nos fascina la comunicación por la comunicación misma. El comunicado

consiste en eso, es decir, me comunico y le doy mi domicilio para que me envíe la tarjeta, ahí se termina. Después uno va haciendo diferentes amigos y entonces se ponen de acuerdo en el horario y la frecuencia para hablar, es como ir al bar", grafica.
Emisiones en la isla
Roberto Marinesco se considera un radioaficionado atípico. "Hace quince años atrás no tenía idea de todo esto ?cuenta?. Por mi trabajo como consignatario de hacienda tuve la necesidad de tener un equipo de transmisión". En esos años no proliferaban los celulares, entonces Marinesco conectaba un sistema al teléfono de su casa que se ligaba a una radio "y si me llamaban a mi domicilio, mediante otros sofisticados aparatos, yo podía contestar desde donde estuviese. Era un sistema donde podía escuchar varias frecuencias y eso solamente lo pueden hacer los radioaficionados". Una vez advertido de esto, decidió sacar la licencia solamente con el objetivo de trabajar con tranquilidad y se topó con una grata sorpresa. "Encontré un mundo maravilloso e impensado en el que dos personas podían hablar de una punta a la otra del mundo con algo que se construyeron prácticamente ellos. Porque la comunicación es la última parte de todo un proceso que lleva armar la antena, el equipo y además proveerse de fuentes de energía", dice Marinesco. A partir de ese momento la radioafición pasó a ser tan importante para él que instaló su propio equipo de comunicación en la desembocadura del río Carcarañá y desde allí compite en concursos de nivel internacional.
También tuvo la oportunidad de conocer la estación de radio que se encuentra en las islas Galápagos. "Fuimos invitados y participamos de un concurso de radioaficionados. Realmente fue una experiencia única debido a que ellos tienen una posición geográfica privilegiada a nivel de ondas, porque están cerca del Ecuador y en el medio del Pacífico", concluye.
El Radio Club Rosario cumplió sus flamantes 80 años y sigue respetando a rajatabla su lema principal: "no importa la clase de licencia que tenga un radioaficionado, sino qué clase de radioaficionado tenga una licencia".

608. Punto Radio en consorcio cadenas de la UE para emitir programas sobre Europa

Yahoo group: cidxclub
Date: 2007-12-14 13:42:29 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 608 Message: 608

Punto Radio en consorcio cadenas de la UE para emitir programas sobre Europahttp://actualidad.terra.es/sociedad/articulo/punto_radio_ue_europa_2121699.htm
Dieciséis cadenas de radio de trece países de la UE, entre ellas la española Punto Radio, firmarán mañana un acuerdo para iniciar el próximo mes de abril la producción y transmisión de programación con contenidos comunitarios, tanto informativos como culturales.
Según anunciaron hoy a Efe fuentes comunitarias, la iniciativa, denominada 'Proyecto Europeo de Radio' (ERP, en sus siglas en inglés) 'pondrá en marcha una red de emisoras que ofrecerán los mismos contenidos de información' de la Unión Europea en programas de una duración de entre media y una hora diaria.

La emisión, además de por sus frecuencias habituales, se realizará a través de la página web del ERP.

El consorcio estará compuesto, entre otras, por la española Punto Radio, la alemana Deutsche Welle -que coordinará al grupo de emisoras-, la francesa Radio France Internationale, la holandesa Radio Netherlands Worlwide y la polaca Polskie Radio, y además de las dieciséis emisoras principales, se asociarán otras siete de ámbito local.

En la iniciativa participan también emisoras de Bélgica, República Checa, Bulgaria, Grecia, Hungría, Portugal, Rumanía y Eslovenia, 'pero en el plazo de cinco años se espera que participen cadenas de los 27 Estados miembros', añadieron las fuentes, que 'animarán a otras cadenas' a sumarse a la iniciativa.

Los contenidos serán acordados y se producirán inicialmente en cinco idiomas -español, inglés, francés, alemán y polaco- y se traducirán a otros cinco -portugués, griego, búlgaro, rumano y húngaro-.

La Comisión Europea participará en el proyecto aportando 5,8 millones de euros anuales durante los próximos cinco años, lo que se traduce en un apoyo económico a esta programación de cerca de 16.000 euros diarios.

Según estimaciones del Ejecutivo comunitario, la programación contará con entre doce y diecinueve millones de oyentes en la UE, así como unos treinta millones más en el resto del mundo, cifra que confía en alcanzar posteriormente dentro de la Unión.

610. Radio Santa Helena, captada en Valencia (Espa ña). Audio.

Yahoo group: cidxclub
Date: 2007-12-15 21:07:02 UTC
From: JOSE MIGUEL ROMERO ROMERO
Topic: 610 Message: 610

Saludos cordiales.

11092.5 USB Radio Santa Helena, 20:15-20:45, escuchada el 15 de diciembre en idioma inglés, comienza la emisión con una especie de himno a modo de sintonía, a continuación locutor en inglés con ID y presentación, la retransmisión ha estado acompañada de segmentos musicales, música tirolesa, música folk y pop, y mucha alocución por el locutor con referencias a Santa Helena, me parece que ha dado un indicativo probablemente de radioaficionado, constantes identificaciones, a las 20:45 ha repetido las identificaciones en diferentes idiomas, incluso en español, inglés, francés, alemán, etc., anuncia un E-mail, la señal ha variado de un SINPO 23232 a un SINPO 34333.

Topic: 616 Message: 616

Saludos cordiales.

13755 NO ID, 13:03-13:15, escuchada el 17 de diciembre probablemente en idioma mandarín, se aprecia locutor y locutora con comentarios, música de sintonía, titulares y cuñas de la emisora, entrevista a invitada, según el HFCC hay un servicio de la BBC para ésta hora, no se aprecia jaming china, SINPO 45343.

ARABIA SAUDÍ 15225 BSKSA 1, 14:50-14:55, escuchada el 17 de diciembre en idioma árabe con el canto del Corán, éste servicio está anunciado desde las 15:00 a 18:00, quizás un adelanto de horario o bien una emisión accidental, SINPO 45554.

CHINA 4800 CNR 1, Geermu 916, 17:15-17:25, escuchada el 17 de diciembre en su servicio en chino con emisión de música melódica local, SINPO 44444.

4980 PBS Xinjiang, Urumqui, 17:39-17:42, escuchada el 17 de diciembre en idioma uighur con emisión de música folklórica local, se aprecia mala modulación, SINPO 33322.

5060 PBS Xinjiang, Urumqui, 17:46-17:48, escuchada el 17 de diciembre en idioma chino a locutor con invitado en conversación, SINPO 34343.

4500 PBS Xinjiang, Urumqui, 17:53-17:58, escuchada el 17 de diciembre en mongol a locutor con comentarios, locutora, SINPO 33432.

ESTADOS UNIDOS 11785 Memeher ze Tewahedo?, 19:00-19:35, escuchada el 17 de diciembre en idioma amharico esta extraña transmisión todavía sin identificar vía WHRA, comienza la emisión con cuña en inglés de WRHA, luego presentación en anharico por locutor, entiendo algo parecido a Memeher Ze Tewahedo, también algo parecido ☐..católico ortodoxo..☐, segmentos de música probablemente cánticos religiosos y una especie de sermón, referencias a los Cristianos, sin lugar a dudas se trata de un programa religioso de alguna de las muchas iglesias cristianas ortodoxas etíopes en el exilio, SINPO 45444.

12015 Voice of Meselna Delina, 18:07-18:20, escuchada el 17 de diciembre en idioma tigrilla a locutora con comentarios acompañada de música de fondo, referencias a ☐..Amerikí..propaganda..Canadá..☐, SINPO 55544.

INDIA 5015 ALL India Radio, ND Delhi, 17:42-17:45, escuchada el 17 de diciembre en idioma hindú con emisión de música folklórica local, música instrumental de Sitar, SINPO 33342.

12025 ALL India Radio, Panaji, 17:24-17:30, escuchada el 17 de enero en idioma Malayo con emisión de música folklórica local, música muy exótica, lamentablemente se aprecia en la transmisión un molesto sonido de reverberación en los tonos agudos, parecido al sonido del canto de un pájaro, SINPO 45433

REINO UNIDO 15265 Radio Solh, 13:45-13:55, escuchada el 17 de diciembre en idioma afgano, locutor con comentarios, se aprecia buena modulación cuando habla el locutor, sin embargo cuando emiten música se aprecia entrecortada, posiblemente algún problema al grabar el programa, se descarta problema del transmisor, referencias a Afganistán, música pop local, SINPO 45544.

TIBET 5240 PBS Xizang, Lhasa, 17:50-17:53, escuchada el 17 de diciembre en idioma Tibetano con emisión de música clásica oriental, SINPO 32332.

UGANDA 4975 Radio Uganda, 17:26-17:38, escuchada el 17 de diciembre en idioma sin identificar a locutora con comentarios, especie de pequeños titulares separados de un fragmento musical, el nivel de audio es muy bajo a pesar de la fuerte señal, creo entender alguna palabra en inglés, pero no puedo confirmarlo, locutor con comentarios, SINPO 42332.

ZIMBABWE 13590 CVC International,18:31-18:37, escuchada el 17 de diciembre en inglés a locutor con comentarios, cuñas de la emisora, música pop, ID □CVC..□, locutora con comentarios, música pop melódica, SINPO 44333.

13650 CVC International, 14:40-14:45, escuchada el 17 de diciembre en inglés con emisión de música disco, emisión paralelo por 13635, locutor con comentarios anunciando E-mail, SINPO 45433.

From: JOSE MIGUEL ROMERO ROMERO
Topic: 617 Message: 617

Saludos cordiales.

4975 NO ID, 18:10-18:50, escuchada el 18 de diciembre en francés a locutor con comentarios, a las 18:30 empieza un programa de música clásica presentado por una locutora, pieza de Vals y luego música instrumental, la señal no es buena, va acompañada de un molesto pitido, a veces hay que templar a 4974 para escucharla mejor, en principio pensé que se trataba de Radio Uganda, sin embargo Kai Wilner en correo personal me apunta que también escucha esa emisora y no parece Radio Uganda ya que él la escucha en 4976 y también había notado esta transmisión en 4975, SINPO 42342.

EGIPTO 9250 Egyptian Wadi el Nile, 22:05-22:45, escuchada el 18 de diciembre en árabe a locutor con comentarios y emisión de música árabe, el locutor comenta y presenta cada tema, algunas canciones me recuerdan a las del Marruecos y el Sahara, mujeres con ese sonido característico que hacen con la boca, no he encontrado otra emisión con la misma música, entiendo ☐..arabía Islamía..☐, a las 22:30 comienza un boletín de noticias, titulares separados de un segmento musical, referencias a Mubarak, SINPO 45444.

* He chequeado varias frecuencia y he comprobado que no se trata ni de Radio Cairo, ni RTM Rabat, tampoco Radio Kuwait ni La Voz de Turquía, ni VOIRI, ésta música no me recuerda para nada a La Voz de África, tampoco el locutor.

Me apunta Mauno Ritola que se trata de Egyptian Wadi el Nile emisión en paralelo por 1107 kHz.

??? 6280 BBC, 21:30-21:35, escuchada el 21 de diciembre en inglés, cuña de ID, locutor con cuña, comentarios con música de fondo, la emisión no corresponde con la emisión en 6195, SINPO 44444.

CHAD 4905 Radio N´Djamena, 19:50-20:05, escuchada el 21 de diciembre en francés a locutor con comentarios y emisión de música afro-pop, SINPO 45544.

*Me resulta sorprendente escuchar con esta señal una emisión procedente de África en la banda tropical.

EGIPTO 9250 Radio Wide el Nile, 20:58-21:05, escuchada el 21 de diciembre en árabe con emisión de música folklórica local, locutora con ID, comentarios, a las 21:00 UTC empieza emisión de E03 con su pieza musical, SINPO 44554.

ISRAEL 9390 Kol Israel, 14:10-14:20, escuchada el 21 de diciembre en hebreo a locutor con entrevista a invitado, referencias a Israel, saludo antes de iniciar la entrevista, ☐Salom☐, se aprecia ligera interferencia de emisora sin identificar, probablemente VOA Daewa Radio, SINPO 44554.

* Quizás nuevo servicio, no lo he encontrado listado ni en EiBi, ni en Aoki, ni en la web de Kol Israel.

630. Happy Holidays

Yahoo group: cidxclub
Date: 2007-12-23 17:49:01 UTC
From: sheldonharvey
Topic: 61 Message: 630

Season's greetings from Greenfield Park, Quebec, Canada

Darlene and I would like to wish you, and your family, a very happy, safe and healthy holiday season. Christmas Day is just around the corner. Enjoy the times with family and friends, reflecting on the year coming to an end and looking forward to a wonderful 2008.

We'd like to share a little holiday cheer with you. Please click on this link, download the small file, turn up your speakers, click PLAY, and sit back and enjoy!
http://www.thecompassgroup.biz/merryxmas.swf

Finally, we leave you with the words from one of our favourite Christmas traditions, Dr. Seuss' "How the Grinch Stole Christmas". After having stolen all the Christmas gifts and decorations from the Whos in Whoville, the nasty old Grinch suddenly realizes on Christmas morning that he really didn't steal Christmas at all and that Christmas is, perhaps, a little bit more.

Merry Christmas and Happy New Year!

Darlene & Sheldon Harvey

He stared down at Whoville! The Grinch popped his eyes!
Then he shook! What he saw was a shocking surprise!
Every Who down in Whoville, the tall and the small,
Was singing! Without any presents at all!
He HADN'T stopped Christmas from coming! IT CAME!
Somehow or other, it came just the same!
And the Grinch, with his grinch-feet ice-cold in the snow,
Stood puzzling and puzzling: "How could it be so?"
"It came with out ribbons! It came without tags!"
"It came without packages, boxes or bags!"
And he puzzled three hours, till his puzzler was sore.
Then the Grinch thought of something he hadn't before!
"Maybe Christmas," he thought, "doesn't come from a store."
"Maybe Christmas...perhaps...means a little bit more!"
And what happened then? Well...in Whoville they say,
That the Grinch's small heart Grew three sizes that day!

from Dr. Seuss' "How the Grinch Stole Christmas"

633. Prime Time Shortwave English schedules update

Yahoo group: cidxclub
Date: 2007-12-26 00:30:04 UTC
From: Daniel Sampson
Topic: 633 Message: 633

I would like to wish everyone a very merry Christmas on behalf of Ernest Riley, Daniel Lyddy and myself.

The English shortwave schedules have been updated at the Prime Time Shortwave website, www.primetimeshortwave.com after the delay due to my retinal detachment surgery. The Palm OS file should be updated by Daniel Lyddy before to long.

Daniel Sampson

634. column on FM (& AM antennas) for casual listeners / fyi

Topic: 634 Message: 634

this might be of interest, from Seattle P-I

http://seattlepi.nwsource.com/tv/344938_radiobeat27.html

On Radioon Radio: Keep experimenting to get better reception

By BILL VIRGIN <billvirgin@...>
P-I REPORTER

Seattle is tough on FM radio signals. With hills, valleys, buildings and tunnels, getting good reception can be a challenge for listeners.

Local radio stations try to deal with the challenges by moving to high ground, which is why so many transmitters cluster atop Cougar Mountain or the even taller West Tiger Mountain. Others use translators to fill holes in their coverage area; KMTT-FM/103.7, for example, has an alternate signal for downtown listeners, broadcast from the Metropolitan Park office towers, at 103.3.

And some listeners give up trying to get a signal over the air and rely on cable-television services that also provide FM station signals.

Which is fine as long as the cable company offers the service. A change in one company's offerings prompted this lament from a reader:

"Any clues on how to improve our FM reception? I bought an antenna at Radio Shack but no signal improvement, and I've tried a 'co-ax' cable run up a wall with equally negative results. We live in a downtown condo. What else can we do?"

For some advice on how listeners can improve reception, as well as a primer on how and why radio signals behave as they do in these parts, we turn to Clay Freinwald, a 40-year-plus veteran of the broadcasting business who handles engineering tasks for Entercom's radio stations in this region as well as for KING-FM and Bustos Media; he's also a director of the Seattle chapter of the Society of Broadcast Engineers.

Freinwald confirms that the region's topography creates headaches for broadcasters and listeners alike. "This area is cursed with having a lot of topographic variation," he said.

That doesn't automatically mean that listeners on the other side of a hill from a transmitter can't hear anything. The idea that FM signals are purely line-of-sight phenomena is "an urban legend mixed with a contraction of physics," Freinwald said. "You can be in your home, you can't see Cougar or Tiger Mountain, but you can receive FM just fine. ... Radio signals will reflect (off buildings) and refract."

But that bouncing and bending has limitations. If you're trying to pick up an FM signal while on the far side of Alki, with 500 feet of earth to your back, "your FM reception is going to be putrid," Freinwald said.

Radio broadcasters try to mitigate some of topography's effects by getting as high as they can. "The higher you go, the less shadow there is," he said. KUOW-FM/94.9 is one of the last major holdouts on Capitol Hill, which gives it great downtown coverage but limited reach around the region, he added.

Radio listeners in the country have been known to rig up all sorts of external antennas in odd locations to get a better signal, Freinwald said. For those who live in downtown buildings, aiming at an east-facing window may help (since that's the direction most FM transmitters are located). Apartment buildings often used to have a common rooftop antenna that individual units could connect to, and some similar arrangement might work. (KUOW's Web site suggests such steps as moving the radio to a different room or connecting to an outdoor antenna or amplifier to boost the signal.)

Reception can also vary by radio, since "not all radios are made alike," Freinwald said. "Some are made for difficult situations."

Another possibility: HD radio, a digital technology that delivers both more channels and a better signal. "It is wonderful, especially in downtown areas where FM signals turn to mush" because of a phenomenon known as multipath (defined as the same station's signal reaching an antenna via several routes, sometimes at slightly different times). The only drawback is that HD doesn't operate at as much power as conventional analog signals.

What about AM radio? Early sets had a place to connect an external aerial; since AM waves are longer than FM "you need a lot of surface area" to properly capture the desired station.

Eventually radio manufacturers came up with internal aerials, which meant "an awful lot of compromise," Freinwald said. "The art of the (outside) aerial has been lost."

There is a work-around for listeners. Freinwald suggests placing the radio next to the telephone, or even coiling the phone cord and setting the radio on it, or under it, depending on what works best. What you're doing is borrowing the telephone line, through the properties of induction, as an antenna. Properly positioned, "That radio will leap to life," he said.

Perhaps the best advice available is to keep experimenting. As both broadcasters and listeners know, Freinwald said, "Radio signals do quirky things."

635. article: CBC Radio Vancouver needs your help to move to FM

Yahoo group: cidxclub
Date: 2007-12-28 20:03:46 UTC
From: Eric Floden
Topic: 635 Message: 635

Item starts out

CBC Radio Vancouver needs your help to move to
FM<http://www.insidethecbc.com/yvr_am>

*I grew up on AM Radio. *I had a Fisher Price turntable/AM radio combo. I
would slip it under my pillow every night and listen to *Jack
Webster*<http://en.wikipedia.org/wiki/Jack_Webster>and
Pat Burns <http://en.wikipedia.org/wiki/Pat_Burns_%28broadcaster%29> on *
CJOR* <http://en.wikipedia.org/wiki/Cjor>.

Burns used to place his horse bets with *Hastings
Racecourse*<http://www.hastingspark.com/>live on air.

Somehow, it was endearing.

I lit a candle for Burns *when he died*<http://www.angelfire.com/ok2/PatBurns/>
.

Listening to AM radio as a kid convinced me. I had to go into radio. I
wanted desperately to be one of those people.

*
Technically speaking, the AM
signal<http://en.wikipedia.org/wiki/AM_broadcasting>is the true
ambassador of radio.
* It can snake around buildings and hills
(*FM*<http://en.wikipedia.org/wiki/FM_radio>is primarily
line-of-sight) and bounce off the ionosphere. I can still
occasionally pick up San Fransisco superstation
KGO<http://www.kgoam810.com/>just with a regular AM Radio. You could
even rock the dial slightly
off-frequency to improve the treble response of the signal.

Sadly, though, over the years AM radio has become the bastard child of,
well, all broadcast media. It's resigned to primarily talk formats ? hard to
argue considering music sounds awful on AM, and it's mono only (unless you
count the *crazy-ass attempt at AM
Stereo*<http://en.wikipedia.org/wiki/AM_stereo>some years ago).

But even some AM stations, notably the ones past about AM 1000, sound okay.
Everything below that sounds like it's been scrubbed in mud before being
aired.*

ARLX002: Lunar Echo Experiment looking for Amateur Radio Participants

SB SPCL @ ARL $ARLX002
ARLX002 Lunar Echo Experiment looking for Amateur Radio Participants

ZCZC AX02
QST de W1AW
Special Bulletin 2 ARLX002
From ARRL Headquarters
Newington CT January 17, 2008
To all radio amateurs

SB SPCL ARL ARLX002
ARLX002 Lunar Echo Experiment looking for Amateur Radio Participants

The HF Active Auroral Research Program (HAARP) in Alaska and the Long Wavelength Array (LWA) in New Mexico are planning an additional lunar echo experiment for January 18-19.

Interested radio amateurs are invited to participate in this experiment by listening for the lunar echoes and submitting reports.

On January 19, listen on 6.7925 MHz from 0500-0600z, and on 7.4075 MHz from 0600-0700z. On January 20, listen on 6.7925 MHz from 0630-0730z and on 7.4075 MHz from 0730-0830z (depending on frequency occupancy at the time of operation, it may be necessary to adjust the frequency slightly).

Based on previous experiments, investigators believe it should be possible to hear the lunar echoes with a standard communications receiver and a simple 40 meter dipole antenna. The format for the transmissions will follow a five second cycle beginning on the hour and repeating continuously.

The HAARP transmitter will transmit for the first two seconds. The next three seconds will be quiet to listen for the lunar echo. Then HAARP will transmit again for two seconds, repeating the cycle for one hour. In the second hour, this five second repetitive cycle will be repeated at a different frequency. All transmissions from HAARP will be CW (no modulation).

Depending on ionospheric conditions, it may or may not be possible to hear the HAARP transmission directly via skywave propagation. Since HAARP will not be using any modulation, set your receiver on to CW mode to hear HAARP and the lunar echo. Investigators are interested in receiving signal reports from radio amateurs who may

be able to detect -- or not detect-- the lunar echo or the
transmitted skywave pulse from HAARP.

Submit reports via e-mail to mbreport@... and list your
call sign and the type and location of your receiving equipment and
antennas.

660. CBC The Current Tuesday -- radio in Indonesia

Yahoo group: cidxclub
Date: 2008-03-10 23:05:07 UTC
From: Eric Floden
Topic: 660 Message: 660

. . . I just caught a snippet on a promo before the hourly news -- one of tomorrow's items is the proliferation of radio stations in Indonesia, post-Suharto. Appealing to diverse interests and audiences such as . . . women

Sorry, I did not get the whole story but recall enough to think it could be of interest to some of us. It is not listed in hotsheets, nor on their website, at least as far as I can see . . .

664. Forward: ARRL Web Bulletin - W1AW to Celebrate World Amateur Radio Day as NU1AW

Yahoo group: cidxclub
Date: 2008-03-27 19:32:07 UTC
From: Vernon Ikeda
Topic: 664 Message: 664

W1AW to Celebrate World Amateur Radio Day as NU1AW

Each year on the anniversary of its founding, April 18, the International Amateur Radio Union (IARU) marks World Amateur Radio Day. On this, the 78th anniversary of its inaugural meeting in Paris, the IARU dedicates World Amateur Radio Day to the radio amateurs, educators and administrators who use Amateur Radio to support technology education in the classroom.

While the actual date of World Amateur Radio Day is not until next month, ARRL staffers will be activating W1AW in the CQ WPX SSB Contest this weekend (March 29-30) using the IARU club call sign NU1AW. By celebrating the event, staffers hope to provide an opportunity for hams worldwide to put NU1AW in their logs, chase the WPX award and learn about HF propagation as the world turns through day and night not once, but twice! Springtime propagation near the equinox is enhanced on the HF bands, even during the Solar Cycle minimum, so it's worth taking a listen even if the HF bands have been quiet lately.

This year's theme for World Amateur Radio Day is "Amateur Radio: A Foundation of Technical Knowledge." What better way to express the theme than by engaging in one of the largest international radiosporting events. ARRL Contest Branch Manager Sean Kutzko, KX9X, said, "If you haven't tried HF contesting or the WPX contest, the general format is to exchange a signal report (a simple '59' will do nicely) and a serial number (the number of the contact in the contest for you). The contest Web site spells out the way to compute your score, but the fun of this contest is to contact as many different prefixes as possible. For example, NU1AW counts as the NU1 prefix and KX9X counts as KX9. If you're new to HF, your prefix might be one sought after by those calling CQ! The WPX contest also features a 'Rookie' category for new radiosport folk, so be sure to send in your log as described by the rules - it's easy!"

World Amateur Radio Day is also an opportunity for publicizing Amateur Radio to the interested public that may not be familiar with ham radio activities. Radiosport is an excellent way to introduce our service to teachers and students, as well. Competitive activities are an important focus for students to take the opportunity to ask questions about how signals get "from here to there" while watching hams make rapid-fire contacts around the world or even making a contact or two themselves, Kutzko said.

"NU1AW is not expected to be seriously competitive in the event," Kutzko explained, "but will make every attempt to be on the air as propagation warrants, so we hope to hear you marking the day and making World

Amateur Radio Day a part of your springtime ham radio operation."

The first edition of the A-08 English shortwave schedules is now available at Prime Time Shortwave, http://www.primetimeshortwave.com

These schedules are available in ASCII text, tab delimited, dBase and Excel formats. They are also sorted by time, country and frequency in the ASCII text and Excel formats.

Thank you to Ernest Riley for continuing to make this compilation available. Daniel Lyddy should have the Palm OS file available shortly.

673. Forward: Spring 2008 W1AW Frequency Measuring Test Scheduled for May

Yahoo group: cidxclub
Date: 2008-05-07 04:18:46 UTC
From: Vernon Ikeda
Topic: 673 Message: 673

Spring 2008 W1AW Frequency Measuring Test Scheduled for May

Capitalizing on the popular and effective automated online results reporting system developed by Bruce Horn, WA7BNM, for the Frequency Measuring Test (FMT) in November 2007, W1AW will conduct a spring FMT. This FMT will begin on Wednesday, May 21 at 9:45 PM (EDT) (that's the same as 0145 UTC on May 22), replacing W1AW's normally scheduled phone bulletin. W1AW Station Manager Joe Carcia, NJ1Q, recommends that those planning to participate should listen to W1AW transmissions prior to the event to determine which band -- or bands -- will be best for measurement purposes.

In this edition of the FMT, listeners will be asked to measure the frequency of an audio tone, given an exact frequency for the carrier signal. The tone will be between 1000-2500 Hz. The carrier frequencies will be 3990 kHz (LSB), 7290 kHz (LSB), 14290 kHz (USB) and 18160 kHz (USB).

Measuring audio frequencies of a modulated signal is a useful skill for those interested in digital modes. Proper tuning of these signals is important to obtain the highest quality performance. For non-digital users, it is also important to understand the relationship between the frequencies of the modulated signal's sidebands and its carrier. The techniques for measuring a modulating tone are described in the November 2004 QST in an article on the Frequency Measuring Test by H. Ward Silver, N0AX. The FMT Web page also has several interesting articles about measuring on-the-air signal frequencies.

The FMT will start with a general QST call from W1AW at exactly 0145 UTC, transmitted simultaneously on the frequencies listed above. The test will consist of three 60-second key down transmissions for each band, followed by a station identification. The test will last for approximately 15 minutes and will end with station identification. W1AW will identify before, during and after the transmissions. There are no plans at this time for a West Coast station.

Submitting Reports

As in the November 2007 FMT, your report should be submitted via the FMT Report form on the W1AW FMT Web site <http://www.arrl.org/w1aw/fmt/>. Along with your call sign and e-mail address, enter your most accurate measurement on each band. There will be a window to list your equipment, describe the method you used to make the measurements and enter any Soapbox comments. Participants have 14 days to input their data. Participants may input their data more than once, although the final entry will be the one used for the results. W1AW will post the

transmitted frequencies on the FMT Web site following the test. This will allow participants to quickly determine the accuracy of their equipment and methods. A complete package of results will be available via the FMT Web site after the 14-day reporting period is concluded. The results from the November 2007 FMT are available on the 2007 FMT Results Web site.

674. Forward ARRL Website: Hams Called to Action in Aftermath of China Quake

Yahoo group: cidxclub
Date: 2008-05-15 02:04:46 UTC
From: Vernon Ikeda
Topic: 674 Message: 674

from the ARRL website.

Hams Called to Action in Aftermath of China Quake

On Monday, May 12 at 0628 UTC, a magnitude 7.8 earthquake hit Sichuan, China. The Chinese Radio Sports Association, the Chinese IARU Member-Society, has designated the following frequencies for emergency services involved in the rescue: 14.270, 7.050 and 7.060 MHz. The ARRL encourages US amateurs to be aware of the emergency operations on those three frequencies.

The CRSA Web site reports the following:

"On the afternoon of May 12, 2008, Wenchuan Area of China's Sichuan province was struck by an earthquake. Communications in some of the surrounding areas are currently cut off, and communications in some other areas are experiencing network congestion because of drastically increased traffic.

"Chinese Radio Sports Association therefore calls on its members to take actions to ensure their amateur radio stations to operate properly, and to the extent possible stand by on often used short-wave frequencies. If any radio signal is heard from the disaster area, please do your best to understand what is most needed by people in that area and report it to the local government authority. If people in the surrounding areas need to pass messages to their loved ones over the radio, please help them to get in touch and get the messages across as soon as possible.

"Amateur radio stations in the disaster area and surrounding areas if in working conditions should be used unconditionally to assist the local earthquake disaster relief authorities, and subject to permission by the said authorities, to provide communications services to them. For emergency communications purposes, amateur radio stations may also be used to pass messages for local residents on a temporary basis until local telecommunications services resume. Amateur radio stations of all regions should give way to and stand by for emergency communications."

Hams on the Ground

At 1757 UTC on Monday, May 12, Liu Hu, BG8AAS, of Chengdu, a town in the province of Sichuan, reported that a local UHF repeater survived the disaster. "It keeps functioning from the first minute and more than 200 local radio hams are now on that repeater. A group of hams from Chengdu has headed for Wenchuan, the center of the quake, trying to set up emergency communication services there," he said.

Michael Chen, BD5RV/4, said that Yue Shu, BA8AB, also from Chengdu, Sichuan, was reported to be active on the 40 meter emergency frequency on Monday. "Up to now, there has been no further information available from the center zone of the quake. There are a few radio amateurs there, but all of the communications have been cut out, including Amateur Radio," Chen said.

At 1858 UTC, Liu reported that the local UHF repeater in Chengdu "keeps busy running after the quake. It helps to direct social vehicles to transport the wounded from Dujiangyan, Beichuan and other regions. Another UHF repeater also started working in Mianyan, supported by generators, but they are going to face a shortage of gas." Chen said that damage in Chengdu remains in the lowest level, but the situation is "very very bad in the counties around. A few towns are said to be destroyed completely. More than 7000 died in the town of Beichuan. Casualties in several other towns are still unknown and not counted in the published numbers. It is a long and sad day."

At 0831 UTC on Tuesday, May 13, Chen said that a group of radio amateurs is now transmitting from Wenchuan, the center of quake: "Its signal is reported to be very weak. They tried to keep communication with BY8AA, the Sichuan Radio Orienteering Association in Chengdu, seeking for all resources needed. During a contact finished a few minutes ago, they were asking for raincoats, water, tents and outdoor living facilities." -- Information provided by Michael Ye, BD4AAQ, and Michael Chen, BD5RV/4

From: Vernon Ikeda
Topic: 675 Message: 675

Ronald A Parise, WA4SIR (SK) (May 10, 2008)

-- Ronald A. Parise, PhD, WA4SIR, passed away Friday May 9, 2008 after a very long and courageous battle with cancer. He was 57. Parise flew as a payload specialist on two space shuttle missions: STS-35 on Columbia in December 1990 and STS-67 on the Endeavour in March 1995. These two missions, ASTRO-1 and ASTRO-2 respectively, carried out ultraviolet and x-ray astronomical observations, logging more than 614 hours and 10.6 million miles in space. Parise was one of the first astronomers to operate a telescope from space, making hundreds of observations during the mission. Amateur Radio on the International Space Station (ARISS) Chairman Frank H. Bauer, KA3HDO, said Parise's personal contributions to these two missions provided scientists with "an unprecedented view of our universe, expanding our understanding of the birth, life and death of stars and galaxies."

SB DX @ WW < KB8NW $OPDX.861.1
Ohio/Penn DX Special Bulletin No. 861.1

The Ohio/Penn DX PacketCluster
DX Special Bulletin No. 861.1
BID: $OPDX.861.1
June 9, 2008
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, EA9IE and DK7LX for the following DX information.

4W, TIMOR-LESTE (Update). Juan, EA9IE, informs OPDX that the Spanish group going to Timor-Leste left Madrid, Spain, yesterday Sunday, June 8th, at 19:00 local time (1700z) to Paris, Singapore, Darwin (Australia) and Dili (Timor).

Juan states, "It will be a 32 hour trip and the schedule for landing in Timor will be around 08:00 local time on Tuesday, 10th." The whole Tuesday will be devoted to collecting all the goods they sent by sea freight a few months ago, installing equipment in the house they rented, picking up their licence and buying some goods and foods that they will need. Juan mentions that hopefully late in the evening they will try to begin and activate one of the stations.

As this operation is not a DX operation but a radio solidarity operation, they would like to be efficient every second, so they kindly request that
everyone in the next two days put spots on the cluster by stations that are heared in the following zone: VK8, YB, 9M, DU, P2 and V8 (please included the real report that is heard).
It will help them and the pilots stations by collecting that info and being as efficient as possible. After Wednesday, when they send out their first CQ, please, everyone should do the same, include in your spot the real report of 4W6R.

BTW (By the way), Juan, EA9IE, is one of the Pilot stations for 4W6R. Just a reminder that members of the Union de Radioaficionados Espanoles, URE, (The Spanish Amateur Radio League) will be active as 4W6R between June 10-24th. Operators mentioned are: Angel/EA1QF (CW/Digital), Txema/ EA5BWR (CW/SSB/Digital), Eugene/EA4KA (CW), Pere/EA3CUU (CW), Jose/CT1ERC (SSB/Digital) and Jose/EA4DB (CW/SSB/Digital). Activity will

be on 160-6 meters, using CW, SSB and RTTY. They plan to have two stations on the air.

Suggested frequencies are:

CW - 1824/1832, 3508, 7008, 10118, 14018, 18078, 21018, 24898 and 28018
SSB - 1824/1845, 3785, 7065, 14185, 18135, 21295, 24945 and 28485
RTTY - 3615, 7038, 10145, 18105, 21085, 24925 and 28085
6m - CW/50098, RTTY/50300 and SSB/50155 kHz

QSLs will be via EA4URE, by the Bureau or direct to: P.O. Box 220, 28080 Madrid, SPAIN. For more info and updates, visit: http://4w6r.ure.es/home.php?lang=en

FH, MAYOTTE (Update). Georg, DK7LX (FH/DK7LX), will be active using the special callsign TX7LX between June 11-23rd. Activity will be holiday style and mainly on CW, but with a focus on 80/40/30 meters. All other bands will depend on band conditions. He will use an Icom IC-706 MKIIG into a HF9V multi-band vertical that might be placed next to the sea. Reference numbers are: IOTA AF-027 and WLOTA 0376. A special full colored photo QSL will be available. QSL via his home callsign by the DARC Bureau or direct (w/sufficient return postage and SAE) to:
Georg Knoess
Am Weiderweg, 12
D-35510 Kirch-Goens/Butzbach
GERMANY
For more details and pictures, please visit Georg's Web page at: http://www.dk7lx.mayotte.2008.ms/

ADDED NOTE: Georg will try to upload his log while in FH-land if there is a reliable internet access to: http://logsearch.de
If he cannot upload his log, he will do it after his return.
He also mentions, "PLEASE NO DUPES!!! And please no E-mails of any kind since I'm not going to spend time reading them at all whilst my stay on Mayotte."

/EXIT

678. Field Day 2008 - June 28-29, 2008

Yahoo group: cidxclub
Date: 2008-06-11 00:28:06 UTC
From: Vernon Ikeda
Topic: 678 Message: 678

Field Day is an annual event that has been held since the very earliest days of Amateur Radio. Started by the American Radio Relay League in the 1920's, this annual event is a test that is used by Amateur radio clubs and the Amateur Radio Emergency Service (ARES (tm)) to test one's emergency communications skills. This year it is on the weekend of June 28th and 29th from 14:00 Local time on Saturday to 14:00 on Sunday afternoon. Please come out and support your local Field Day operation. Most Club's will start setting up after 10 A.M. on Saturday morning so feel free to come and help out.

This page has the links to information related to Field Day.

ARRL Bulletin Firedrake Jammer on the Loose Again in Asia

Amateur Radio operators throughout the United States have reported hearing an intruder signal -- dubbed Firedrake <http://www.arrl.org/news/files/firedrake.mp3> -- on 20 meters. ARRL Field and Regulatory Correspondent Chuck Skolaut, K0BOG, said he has received reports from Intruder Watch monitors in Texas, Montana, West Virginia, Massachusetts, Colorado, Washington, Nevada and Pennsylvania hearing the jammer on 14.010 and 14.070 MHz. Hams in IARU Region 1 have heard the jammer on 14.000, 14.005, 14.010, 14.030, 14.050, 14.050 and 14.090; Uli Bihlmayer, DJ9KR, Assistant Monitoring Coordinator for Region 1 (IARUMS) said he has had reports of hearing the jammer on three frequencies at the same time.

Skolaut said he heard it on 14.070 at 1500 EDT on June 6 from ARRL HQ, but has not confirmed Firedrake on any other frequencies. "We have reported the jammer to the FCC's High Frequency Direction Finding (HFDF) facility in Columbia, Maryland. They have also heard the jammer and have sent a harmful interference report to the Chinese government," Skolaut said. The FCC has no authority to make intruder stations outside the US stop transmitting on Amateur Radio frequencies; such situations typically are dealt with through diplomatic channels.

"All three IARU regions are coordinating efforts to collect observations and forward them to the proper authorities to follow up on this," Skolaut said. "As you probably remember, this jamming occurred almost two years ago and was primarily heard on 14.260 and 18.160 MHz."

W1AW Station Manager Joe Carcia, NJ1Q, said the jammer is interfering with PSK transmission on 14.070 MHz at W1AW, the Hiram Percy Maxim Memorial Station. "It is sounding clear now, but when the jamming was present, signals peaked around S9 + 5-10 dB, depending on antenna orientation. Weak PSK31 signals -- normally copyable -- were obliterated, with only strong PSK31 signals making it through. So while operating PSK31 was still doable, the interference/jamming greatly curtailed casual operating," Carcia said.

According to Bihlmayer, the jammer (whom Region 1 monitors have dubbed Firedrake) plays oriental-type music and originates from the Chinese government in an attempt to block out the Sound of Hope short wave broadcasts. The Sound of Hope refers to itself as "a Chinese language media network providing an alternative to China's state controlled media with news and cultural programming. Radio Free China (RFC) is Sound of Hope's project to reach listeners in Mainland China with programming beyond the control of China's omnipresent blockade of free information."

Information on the Intruder Watch program can be found in the June
2007 issue of QST

To: undisclosed-recipients
Subject: VOICE OF AMERICA IS DOUBLING ITS GEORGIAN LANGUAGE BROADCASTS

PRESS RELEASE - Washington, D.C., August 8, 2008 ☐ The Voice of America (VOA) is doubling its Georgian language broadcasts in the wake of fighting between Georgia and Russia in the breakaway province of South Ossetia.

VOA's Geogian Service will produce a 60-minute program daily, up from 30 minutes, with news, information, interviews, analysis and reaction to the crisis in the former Soviet Republic. News is also available on the Internet at http://www.VOANews.com/georgian/

"We want to make sure Georgians are fully informed about what's happening in their country," said Steve Redisch, VOA's Executive Editor.

The Georgian broadcasts are carried nationwide on a FM network as well as on shortwave frequencies 11945 and 15460 from 1530 to 1600 UTC, and on 11965 and 15460 from 1600 to 1630 UTC.

Reporters and stringers on the ground are providing VOA with reports from inside the country, which is slightly smaller than the state of South Carolina and has about 4.6 million people.

The crisis began when Georgian troops launched a military strike on the province of South Ossetia early Friday, seeking to end the region's bid for autonomy. In response, Russian troops entered the border province (VOA press release Aug 8 via DXLD)

At 1530-1600, 11945 has been via Sri Lanka, but after 1600 that frequency is already in use for R. Farda via Lampertheim, so the expanded VOA Georgian at 1600-1630 has to use another frequency. But: 11965 is already CRI via Kashi before and after 1600.

Online skeds show the 19m frequency for VOA Georgian at 1530-1600 as 15475 via Lampertheim, but apparently this is just now being changed, to 15460 before and after 1600, since after 1600, 15475 would collide with Africa No. One, Gabon (Glenn Hauser, DX LISTENING DIGEST)

From: Vernon Ikeda
Topic: 685 Message: 685

Radio Amateurs Assist with Hurricane Kyle Operations September 29, 2008

As Hurricane Kyle brushed its way across Eastern New England region on its way to the Canadian Maritimes, hams in the area were prepared for impact. Heavy rain associated with a stalled out boundary, as well as some influence from Kyle, caused heavy rainfall and flooding in the region.

"We were lucky to have a 12-18 hour lull in rainfall between the rain on Friday and what came on Saturday," said Director of Operations for the VoIP Hurricane Net and SKYWARN Coordinator Rob Macedo, KD1CY. "We were also lucky that most of the direct influence from Kyle remained offshore, or this situation would've been much worse." Over the 3 day period, 3 to 6 inches of rain fell over much of Eastern New England, Connecticut and parts of Central Massachusetts and Eastern New Hampshire. Some areas, Macedo said, received more than 8 inches, resulting in pockets of flooding with a few brooks going out of their banks.

The Amateur Radio station at the National Weather Service in Taunton, Massachusetts, WX1BOX, coordinated SKYWARN operations Friday afternoon through Sunday. According to Macedo, this station covers much of Southern New England. Farther north, the National Weather Service's office in Gray, Maine's station, WX1GYX, coordinated SKYWARN efforts in that area. Macedo said that amateurs at theses stations mostly received reports of rainfall amounts and flooding.

The Hurricane Watch Net (HWN) also provided reports to the National Hurricane Center (NHC). HWN Net Manager Dave Lefavour, W7GOX, said, "Propagation was tough. We think most hams in Kyle's path were making preparations for this rare Canadian hurricane, but we were able to pick up and relay some actual ground observations to the National Hurricane Center. The NHC is always looking for first-hand ground observations of weather conditions to help them understand what the storm is doing below radar and satellite visibility." The HWN relays information obtained on 14.325 MHz to hams at the National Hurricane Center operating WX4NHC.

District Emergency Coordinator for Maine District 3 Phil Roberts, K1PAR, activated ARES® Nets in his region -- Knox, Waldo, Hancock and Washington Counties -- on Saturday night. All ARES members in the affected counties were on standby. In Southwestern Maine, all ARES members were also on standby for possible activation by their respective served agencies.

Maine Section Emergency Coordinator, Bryce Rumery, K1GAX, provided reports all day Sunday to ARRL Headquarters. On Sunday evening, Rumery advised all District Emergency Coordinator and local Emergency Coordinators to "stand down their ARES members no later than 0500 Monday

morning or earlier if possible at the discretion of the DEC or EC."

According to e-mail reports, New Hampshire hams were also on alert throughout the day, Macedo said.

Hurricane Kyle's winds stayed offshore, sparing most of Eastern New England from strong winds or wind damage, but due to the stalled out cold frontal boundary, there was heavy rainfall and flooding. Unsettled weather is expected throughout the next few days before dry and cooler weather settles in for the weekend.

DX Special Bulletin No. 878.1
BID: $OPDX.878.1
October 4, 2008
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network and K4UEE for the following DX information.

Press Release # 1----Desecheo KP5----2009

The Caribbean National Wildlife Refuge Complex has selected and announced a team of operators to activate Desecheo Island (KP5) sometime between January 15, 2009 and March 30, 2009. The Team will be co-led by Dr. Glenn Johnson, W?GJ and Bob Allphin, K4UEE.

Background: On June 30, 2008, the Caribbean National Wildlife Refuge office in Puerto Rico sent a letter to persons that had previously made inquiries about an Amateur Radio operation from Desecheo. They announced their decision to allow one group to activate the island and invited proposals that must adhere to strict guidelines and criteria. Applicant?s had 45 days to prepare and submit their proposals.

CNWR received seven written proposals. A panel of three Fish and Wildlife Service employees, from areas within the Service outside of the Caribbean refuge, spent September 24 & 25 reviewing and evaluating the proposals. The selection criteria used were those outlined in the proposal invitation letter. Points were awarded for how well criteria were addressed for thoroughness and documentation.

The proposal with the highest ranking was submitted by team leaders Dr. Glenn Johnson, W?GJ, and Bob Allphin, K4UEE.

Their plan involves a team of fifteen operators for a 14-day operation. USFWS has not announced the actual dates of the operation yet, but the DXpedition is expected to take place between January 15, 2009 and March 30, 2009. A Special Use Permit (SUP) will be issued as per USFWS regulations. We expect that the DXpedition team and DXers worldwide will have a minimum of 30 days notice.

A website is being planned and will be announced in the near future.

--End of Forwarded Message--

Note: You can find out more about Desecheo Island on Wikipedia at:

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network and VK2HV for the following DX information.

The following VK9DWX press release was received from Paul, VK2HV:

News #12 - 25.10.2008

The Willis Islands Group, Mid Isl. Thursday, October, 25th

Due to heavier winds to be expected on Monday we have to take down the complete camp tomorrow on Sunday October 26th and transport all equipment to the Floreat. That means that we will stop radio operation latest on October 25th at about 22:00z. We want to have a controlled shutdown and a secure trip back to Australia mainland for all members and all of the equipment. Therefore we have to leave earlier as planned.

We will take part in the CQWW SSB Contest for the first 24 hours with three stations. The remaining stations will be still available for WARC operation.

We did the last onlinelog update for now. This includes all QSOs till 25.10.2008 00:00z (before the contest). We will put all QSOs to the online log when we are back home.

More information will be available after our return to Australia.

Vy 73s VK9DWX team

We would be delighted if DX editors would publish this information as widely as possible and DXers bring it to the attention of their clubs and fellow DXers.

Could hear, unintelligibly, St Helena to Japan from 2000-2030z.
(11092.5 USB, 15 November 2008).

Then at 2030z, the signal became excellent. At 2033z, some dignitary of St Helena gave listeners info on how to look into investing in St Helena.

Signal gradually weakened, though still listenable. Music led to top of the hour, at 2100z, Liliburlero and time pips followed by ID. No dramatic change in signal strength as of 2103z, when the Beam supposedly swings to Europe.

From Western Canada, RSH heard well at their 1931 BBC test relay, and at official sign on, but signal dropping since then (now 2028ut). Those great Saint Helena Island music selections came thru nicely, but the voice programming is a little tougher. Only decent on the log periodic, virtually inaudible on the beverages or K9AY.

Just about to hit send, and the signal came up dramatically at 2030. Very good now. Seems too abrupt to be a propagation change. 2037 and still loud with Carpenters song. Signal has slowly dropped a bit but 2111 still pleasant copy.

700. Reception Radio St Helena

Yahoo group: cidxclub
Date: 2008-11-15 21:35:26 UTC
From: gletourneau
Topic: 700 Message: 700

Hi all,

Well signal of Radio St Helena is fair to bad here in Montreal.

Some spikes where it comes in quite well then ..drops

Just Heard Abba Dancing queen song a few minutes ago with fair level.

Hope it gets better for the North America broadcast

Gilles Letourneau
Montreal

From: sheldonharvey
Topic: 16 Message: 705

We sincerely hope that 2008 was a good year for you, wherever you are on the planet.

Our Christmas message to you this year is a simple one as it seems we are all heading into difficult economic times. We wish you a very Merry Christmas (or whatever holiday occasion you may be marking at this time of the year). As well, we wish you happiness, health, peace and prosperity throughout the coming year 2009. We sincerely hope that you will have the opportunity to spend the holidays with those people most special to you; family and good friends.

We would like to share a small gift with you this year. Please click on the link below, turn up your speakers and sit back and enjoy this wonderful little Christmastime animation, featuring The Drifters, from 1954, singing White Christmas. The more we watch this, the more we enjoy it. It's guaranteed to put a smile on everyone's face. Please feel free to share it with others close to you.

706. Forward: CHU to move 41 metre frequency

Yahoo group: cidxclub
Date: 2008-12-30 15:31:02 UTC
From: Vernon Ikeda
Topic: 706 Message: 706

December 12, 2008

CHU to move 41 metre frequency

On January 1, 2008 at 00:00 UTC, CHU will be moving it's 41 metre
time broadcast from 7335 Khz to 7850 Khz as a result of the 2007 WRC
which relocated the band 7300-7350 Khz from Fixed services to
Broadcasting. As a result of the increased interference, the National
Research Council (NRC) decided to change frequency at the same time
a refurbished transmitter will be installed.

For more information see :
<http://inms-ienm.nrc-cnrc.gc.ca/common_files/stories/chu/communique_e.pdf>

707. forward: VP9 land anniversary/Anniversaire VP9 - 400 ans

Yahoo group: cidxclub
Date: 2009-01-14 03:58:02 UTC
From: Vernon Ikeda
Topic: 707 Message: 707

Good Day,

2009 is the 400th anniversary of the settlement of Bermuda by Sir George Somers. Most local organisations are having an event of some kind during the year. The Radio Society of Bermuda has been issued with a special call sign that can be used all year, it is VP9400/xx.

The xx suffix is the operator's call sign, i.e. VP9400/LP. There are a few novice licence holders who have a 3 digit suffix, i.e. VP9400/NMT. +Special pictorial postcards will be used to QSL.

We would be grateful if you would kindly pass this information on to your members through your usual channels.

Thank you for your assistance in this matter,

73's

Rose Spershott, VP9LP
Secretary
Radio Society of Bermuda.

Anniversaire VP9 - 400 ans

2009 est le 400e anniversaire de la commencement de l'habitation en Bermude par Sir George Somers. La plupart des organismes local s'organise une ?v?nement pendant l'ann?e. Le Radio Society of Bermudy a procur? in indicatif special qui peut etre utilis? tout l'ann? qui est VP9400/xx.

Le suffix xx est l'indicatif de l'op?rateur, comme VP9400/LP. Il y a quelques d?tenteurs du licence d?butant qui ont un suffix de trois lettres comme VP9400/NMT. Des carte de poste pictoriel seront utilis? comme les cartes QSL.

Nous l'appr?cions si vous mettre ces renseignements disponible a vos membres par vos moyens habituels.

Merci pour votre aide.

QSLers Take Note
2009-09-30

This is a heads up to all DXers. If you do a lot of QSLing and regularly use IRCs (International Reply Coupons) you should be aware that the old-style IRC - the Michelangelo two fingers about to touch - has recently been replaced (as of July 1st 2009) by a new coupon - the Nairobi model IRC.

The old Michelangelo style IRC will be accepted for redemption at post offices around the world until December 31st 2009. However, anyone with a stockpile of this older IRC version should make plans to use those up ASAP - i.e. cash them in for international stamps for out-going QSLs. If you plan on including one of these older IRCs in a request for a return QSL, you should get those off in the mail before the end of September so that the recipient has time to cash them in at their end for return postage.

From Howard Dickson, VE1DHD

Avis aux ?changistes de cartes QSL
2009-09-30

Ceci est un avertissement ? tous ceux qui font du DX. Si vous ?changez beaucoup de cartes QSL et que vous utilisez r?guli?rement des CRI (coupons-r?ponses internationaux), vous devriez savoir que le vieux CRI affichant Michel-Ange a ?t? remplac? le 1er juillet 2009 par un nouveau coupon, soit le CRI mod?le Nairobi.

Le vieux CRI, style Michel-Ange, sera accept? pour remboursement ? tous les bureaux de poste partout dans le monde jusqu'au 31 d?cembre 2009. Quiconque a une grande quantit? de ces vieux CRI devrait prendre les mesures n?cessaires pour les ?couler le plus t?t possible - i.e. les remplacer par des timbres internationaux pour des cartes QSL partantes. Si vous pensez joindre des vieux CRI aux demandes de retour de QSL, vous devriez les mettre ? la poste avant la fin du mois de septembre afin que les r?cipiendaires aient le temps de les ?changer pour timbrer les retours par la poste.

Yahoo group: cidxclub
Date: 2009-11-14 20:20:48 UTC
From: sheldonharvey
Topic: 716 Message: 716

Hi, everyone. Surprisingly I'm getting a weak to fair signal on the first hour's transmission targeted at India and Southeast Asia here in the Montreal region! Things should improve as the afternoon and evening go on. Good luck! Here are the details of today's broadcasts.

Sheldon

Radio St. Helena Day 2009 will be on Saturday, 14. November 2009.
The "Party On-The-Air" will have the following schedule.

Time in UTC Target Area(s)

20:00 ☐ 21:00 India / Southeast Asia

21:00 ☐ 22:00 Japan / Asia

22:00 ☐ 23:30 Europe

23:30 ☐ 01:00 North America / Central America / Caribbean

The transmission will be on 11092.5 KHz in Upper Side Band, as usual.
Special email-address during the broadscast is: radio.announcements4669@...

718. Mis sitios sobre radio y diexismo en Internet.

Yahoo group: cidxclub
Date: 2009-12-04 04:07:16 UTC
From: xe2itx
Topic: 718 Message: 718

Saludos.

Solo para comunicar sobre mis sitios nuevos y páginas Web nuevas en Internet. Bueno, no son nuevas la mayoría, más bien las cambié de sitio debido al cierre de las empresas que antes me dieron alojamiento gratuito en Internet.

Este es mi sitio sobre la radio, el diexismo y la radioafición (mi "hobby" predominante todavía)
http://galeon. com/diexismo/ principal. htm

De lo anterior, para mirar algunos obsequios recibidos por mí, de radiodifusoras internacionales.
http://recibidodela radio.blogspot. com/

Ni te rías, aunque está divertido... antenas elaboradas en casa por puros diexistas, muchos de ellos no saben que son diexistas, ni nada del diexismo!
http://antenasautoc onstruidas. blogspot. com/

De los Encuentros Diexistas en México, yo he ido a 14 de quince de ellos...
http://encuentrosdx .blogspot. com/

No tiene que ver nada con el dexismo, solo que es el lugar en donde vivo y es un muy buen lugar para hacer diexismo en ondas cortas.
http://galeon. com/ciudadascens ion/principal. htm

Tampoco es sobre diexismo, pero algunos lugares de los siguientes son muy buenos para practicar el diexismo, eso ya lo comprobé más de una vez! Para conocer sitios turísticos sobre Chihuahua, este blog es recomendable -así ya me lo calificó un empresario promotor turístico de Chihuahua- para ver algo nuevo. Cuidado: no mirar mucho tiempo las imágenes, puede ser motivo de salir corriendo para allá a conocer.
http://chihtour. blogspot. com/

Finalmente, mi sitio sobre Enya, -a quien escuché por primera vez practicando el diexismo- cantante y compositora irlandesa: más de 20 años siendo mi artista favorita.

http://galeon. com/enyaceleste/ principal. htm

Feliz fin de semana.
Cordiales 73 y muy buenos DX.
Miguel Angel XE2ITX

PD. Algunas páginas requieren pequeñas actualizaciones y correcciones, que se las daré poco a poco. Todos los sitios son de caracter educativo. La publicidad que ahí aparezca es puesta por los dueños de los sitios.

Un plan a mediano plazo: escribir -yo- un libro sobre diexismo. ¿Qué opinas?

719. Les solicito me disculpen...

Copenhagen Climate Change Conference special amateur radio event station

Posted by: "Mike Terry" miketerry73@... miketerry73
Thu Dec 10, 2009 1:46 pm (PST) via Glenn Hauser, DXLD

Look for special event station 5P15COP from Sjaelland Island (EU-029, DIA SJ-001) to be active until 18 December.

Activity is taking place during the big United Nations "Copenhagen Climate Change Conference".

Operators would like to invite all radio amateurs worldwide to show their concern and care about the environment and climate, by contacting this special event station.

Operations will be on 160-6 metres using CW, SSB and the Digital modes.

QSL via OZ5BAL, direct or by the bureau.

For more details about the project, QSL card and awards available, please visit:
http://www.5p15cop.dk/news.php

(Southgate
http://www.southgatearc.org/news/december2009/5p15cop.htm

723. Haitian Earthquake

Yahoo group: cidxclub
Date: 2010-01-13 22:08:36 UTC
From: sheldonharvey
Topic: 723 Message: 723

I have been monitoring information regarding the Haitian earthquake here today, predominantly from an emergency communications network that is being operated by amateur radio operators based in the U.S. and the Caribbean region on 14265 kHz. USB. It is called the Salvation Army Team Emergency Radio Network (SATERN), operating using amateur radio on shortwave.

The SATERN network will eventually be taking requests from people, through their website, who would like to try to get health and welfare information on family members and friends in Haiti. Once communications have been established, the amateur operators will be able to relay these requests through to amateur stations based in Haiti.

The SATERN webpage is www.satern.org

Their operating frequencies are listed at 14265 kHz. USB during daytime and 7265 and 3977.7 kHz. LSB during the evenings.

Given its proximity to Haiti, it may be interesting to tune in to broadcasts from Cuba to see how they are covering the story.

Sheldon

726. Kiwa Loop for sale on Ebay

Yahoo group: cidxclub
Date: 2010-01-15 00:27:14 UTC
From: michaudgilles
Topic: 726 Message: 726

Hi everyone

I have listed a Kiwa Loop antenna on Ebay. The noise level at my place is so high that I can DX anymore.

Thanks
Gilles

727. Universal M-7000 Version 2

Yahoo group: cidxclub
Date: 2010-01-18 15:24:43 UTC
From: sheldonharvey
Topic: 727 Message: 727

Hello everyone. I have a Universal M-7000 Version 2 communications terminal multimode decoder together with the original owner's manual and a copy of the "Getting Started with the Universal M-7000 Version 2" book from Universal Radio.

The unit is in 100% working condition. It has been sitting here disconnected for several years now. I really think it is time to find it a new home.

I'm not quite sure what the going price is for these units second hand, nor am I even sure if there is a demand for them. However, if you are interested, please get in touch with me directly, off the group board, and we can discuss it.

Thanks.

728. Kahnawake Peacekeepers and Fire Brigade audio on the Internet

Yahoo group: cidxclub
Date: 2010-01-29 22:00:23 UTC
From: sheldonharvey
Topic: 728 Message: 728

This isn't radio in the conventional broadcast sense but you may find it interesting nonetheless.

Someone has begun streaming the audio of the Kahnawake Peacekeepers and the Kahnawake Fire Brigade communications over the internet on a web page. Go to

http://www.ktownscanner.com/

Kahnawake is the Mohawk Native territory located southwest of Montreal, Quebec.

You don't need to click on any "play" box. Just turn up your computer speakers and wait for traffic to appear. There is also a text box at the bottom of the page where people listening can text back and forth while listening.

729. Emergency amateur frequencies for Haiti

733. Broadcasts of radio drama or OTR on shortwave

Yahoo group: cidxclub
Date: 2010-04-07 21:05:26 UTC
From: lee_romanow
Topic: 733 Message: 733

Hello to everyone, I am brand new to shortwave with a general question for the group. Are there any regular broadcasts of radio drama or OTR programs currently on shortwave that you are aware of? My preference is Science Fiction but I'll gratefully accept any suggestions. CBC used to do a lot of this years ago but now aside from Afghanada I don't hear all that much of it.

Thanks,
Lee

736. Skip Arey, N2EI, joins CIDX as new editor for the Ham Radio Report column

Yahoo group: cidxclub
Date: 2010-09-20 20:49:28 UTC
From: sheldonharvey
Topic: 736 Message: 736

Many of you will know the name "Skip Arey"; be it from his various publications, his work with NASWA, from his amateur radio activities and, until just recently, the editor of the ham radio column in Monitoring Times.

Well, MT has has advised Skip that they want to take their ham column in "a different direction", so we are very pleased to announce thank Skip will be coming on-board with CIDX as our new Ham Radio Report column editor!

Vernon Ikeda, who has been the editor of the column for a very long time, is stepping aside to deal with many other issues in his business and personal life. I'm sure I join with everyone in thanking Vern for his work in the past.

Skip will be introducing himself to everyone in CIDX in the upcoming October issue. Please join with me in welcoming him to our little family. We're very, very pleased to have him on-board with us.

From: Dan Ferguson
Topic: 737 Message: 737

For those interested in SWBC schedule information ...

The Aoki list was updated September 24.

The FCC schedule at their website was updated September 24.

The Radio Nederland Wereldomroep schedule at their website was updated September 24.

I regularly compile for NASWA (North American Shortwave Association) an Excel spreadsheet combining the Aoki, EiBi, PTSW, HFCC lists, as well as other schedule data, and have posted an updated file at http://www.hfskeds.com/skeds/ .

Topic: 733 Message: 740

An update to this post. A local AM station CJOB in Winnipeg has a weekly show that replays some OTR on Saturday nights around 11:00 PM. Check the "Hosts and Shows" page on the website:

http://www.cjob.com/

http://www.cjob.com/Landing/HostsandShows.aspx

For those out of range you can listen via internet using the CJOB audio vault for programs in the last 20 days. See "related links" in the left menu bar towards the bottom. It doesn't seem to be on every Saturday, and the time slot moves around but it is nice to be able to tune into a drama broadcast on an actual radio! There was a show November 20 at 11:00 PM and it is currently in the vault.

regards,
Lee

741. Northeast Storm Coverage

Yahoo group: cidxclub
Date: 2010-12-27 01:45:53 UTC
From: sheldonharvey
Topic: 741 Message: 741

Given the huge snow storm in the northeast, you might like to tune in to some live audio from various police, fire and EMS services from various cities. Check this link for audio from NYC special operations, Boston & Phily Fire Depts., police from Phily, Boston, NYC, Newark, and state police from eastern Mass, NJ, and many other interesting feeds.

http://www.radioreference.com/apps/audio/?action=top

Also you can check out various clear channel AM radio stations such as WCBS 880 AM New York; KYW 1060 AM Phily; WTIC 1080 AM Hartfort, CT; WBZ 1030 AM Boston, to name just a few. Some of these station will be streaming audio on-line through their webpages as well.

Good listening everyone

Another update to the search for OTR. WWCR (Worldwide Christian Radio) broadcasts in shortwave a show several times weekly called "Golden Age of Radio". See the schedule at http://www.wwcr.com and info at http://www.irnusaradio.com/our-programs/golden-age-of-radio

In Winnipeg I was able to get the Sunday 1:05 pm (1905 UTC) broadcast at 15825 khz on my Grundig G6 in somewhat noisy condition. I've had no luck on other time slots yet.

regards,
Lee

1. Commando Solo now in use on 6877 kHz to Libya
Posted by: "Mike Terry" - to Glenn Hauser's DX Listening Digest
Mon Mar 21, 2011 1:22 am (PDT)

Media Network - By Andy Sennitt
March 20, 2011

USAF EC-130J STEEL 74 has been transmitting on 6877.0 kHz to Libya this evening. A recorded message in English, French and Arabic on SSB says "Libyan ships or vessels remain anchored. Do not leave port. The Gaddafi regime forces are violating a United Nations resolution ordering the end of hostilities in your country. If you attempt to leave port you will be attacked and destroyed immediately. For your own safety, do not leave port."
The Commando Solo is operated exclusively by the 193rd Special Operations Wing, which is based at the Harrisburg International Airport in Middletown, Pennsylvania.

According to the Milcom Monitoring Post
http://mt-milcom.blogspot.com/2011/03/monitoring-operation-odyssey-dawn.html

the transmission is "slightly jammed".

Here is a recording of the transmission, with no jamming audible:

http://blogs.rnw.nl/medianetwork/commando-solo-now-in-use-on-6877-khz-to-libya

759. Cutbacks to services at Voice of America

Yahoo group: cidxclub
Date: 2013-03-27 18:43:26 UTC
From: sheldonharvey
Topic: 759 Message: 759

This was posted by Glenn Hauser in his DX Listening Digest

This was posted 3 minutes ago at insidevoa:

March 26, 2013 Washington DC 10:13 PM
Media Relations / Press Releases
VOA Reducing Radio Frequencies

26.03.2013
WASHINGTON, D.C. - Voice of America is reducing some of its radio transmissions this weekend and ending shortwave broadcasts to regions where audiences have alternative ways of receiving VOA news and information programs.

The transmission reductions allow VOA to comply with budget cuts required by sequestration and to avoid furloughs of staff members.

When the new broadcast schedule goes into effect on March 31st, cross-border shortwave and medium wave broadcasts to Albania, Georgia, Iran and Latin America will be curtailed, along with English language broadcasts to the Middle East and Afghanistan.

VOA will continue to provide audiences in these regions with up-to-date news and information through a host of other platforms, including radio and TV affiliate stations, direct-to-home satellite, web streaming, mobile sites and social media.

The new broadcast schedule calls for reductions in some shortwave and medium wave radio broadcasts in Cantonese, Dari/Pashto, English to Africa, Khmer, Kurdish, Mandarin, Portuguese, Urdu and Vietnamese. Direct radio broadcasts to all of these regions will continue.

The transmission reductions are expected to have minimal impact on audience numbers since primary modes of delivery will remain. Shortwave and medium wave broadcasts will continue to regions where they draw substantial audiences, and to countries where other signal delivery is difficult or impossible.

For more information contact Kyle King at the VOA Public Relations office in Washington at (202) 203-4959, or write kking@voanews. com. For more information about VOA visit our Public Relations website at www.insidevoa. com, or the main VOA news site at www.voanews. com.

760. Moscow student radio station (possibly) heard in Montreal area

Yahoo group: cidxclub
Date: 2013-04-05 15:08:13 UTC
From: sheldonharvey
Topic: 760 Message: 760

The student radio station of Moscow Technical University of Communications and Informatics (MTUCI) which was reported in Glenn Hauser's DX Listening Digest as conducting weekly AM broadcasts on Fridays at 1200-1500 UTC on 25900 kHz. may have possibly been heard in the Montreal region this morning by Alan Roberts, of St-Lambert, Quebec.

Alan just contacted me to say that on 25900 kHz. in AM mode, at 1345 UTC, he detected an open carrier. At 1357 UTC he heard traces of a female voice. The
female voice was heard again at 1417 followed by a pop song by a female singer up to 1423 UTC fade-out. As of 1450 UTC he was still detecting carrier but no further audio. The signal was weak and not clear enough to detect the language of the broadcast.

Alan is using a Lowe Europa receiver with a 25 MHz. dipole antenna.

Sheldon Harvey, Greenfield Park, Quebec
for Alan Roberts, St. Lambert, Quebec

763. Special BBC Broadcast today

Yahoo group: cidxclub
Date: 2013-06-21 18:15:51 UTC
From: sheldonharvey
Topic: 763 Message: 763

Depending on where you are in the world later today, you might like to try tuning in an annual special event from the BBC. It is their special broadcast to the British Antarctic Survey Team in Antarctica.

BBC website now has a page for this evening's broadcast at 2130 UTC which confirms the three frequencies: 5965, 7350 and 9890 kHz:
Here are the details. Thanks to Alan Pennington, England, of BDXC-UK Yahoo Group for submitting this to Glenn Hauser's DX Listing Digest)

771. Russian Technical Institute Student station on 25900 kHz

Yahoo group: cidxclub
Date: 2014-04-04 13:02:57 UTC
From: sheldonharvey
Topic: 771 Message: 771

Alan Roberts in St-Lambert, Quebec reports the strongest signal ever this morning (1245 UTC) April 4, 2014 on 25900 kHz. from the Moscow based student run technical institute station. The station broadcasts each Friday. He is hearing what seems to be, for the first time since hearing this station here in Eastern Canada, English talk on the station. It seems to be some sort of English language lesson with a female announcer with short talks in English then, apparently translated into Russian. As he says, not sure if this is teaching English to Russians, or teaching Russian to English speakers.
I am also picking up the signal here in neighbouring Greenfield Park, Quebec. Usually I have too much local interference at my location to hear this weak signal but, this morning, it is easily rising above the noise on my Kenwood R-5000 receiver with random wire antenna.

772. Vernon Ikeda, VE2MBS...SK

Yahoo group: cidxclub
Date: 2014-07-15 13:18:53 UTC
From: sheldonharvey
Topic: 772 Message: 772

We received the sad news this morning of the passing of Vernon Ikeda, VE2MBS. Longtime CIDX members will remember Vern as the editor of our Ham Band Column for so many years. Vern was a regular participant at the CIDX Montreal summer Barbecue and Montreal CIDX/Radio in Montreal Christmas dinner.

Vern had been in hospital in Montreal for many weeks after having suffered a stroke and a heart attack and related issues. He put up a strong battle to recover but succumbed last night.

His good friend Jim Hay has been by his side keeping everyone up to date on Vern's status.

We will pass along the details of the funeral as soon as they are made available.

We extend our condolences to everyone in Vern's family and circle of friends.

Sheldon

778. (Aboriginal) Voices Radio

Yahoo group: cidxclub
Date: 2015-08-03 12:27:38 UTC
From: sheldonharvey
Topic: 778 Message: 778

Are (Aboriginal) Voices Radio stations still broadcasting?

July 25 was supposed to have been the last day of broadcasting for the "Voices Radio" (formerly Aboriginal Voices Radio) stations in Toronto, Vancouver, Ottawa, Calgary and Edmonton, having had their licences revoked by the CRTC for non-compliance issues.

As of this morning, August 3rd, on their webpage, http://voicesradio.ca/ http://voicesradio.ca/ they are showing, at least for the Toronto and Vancouver stations, the last three songs played on today’s date.

So, could any members in this group located in any of these five cities, within reach of their FM signals over the air, not live streaming, please drop me a note and let me know whether or not each station is still broadcasting. The cities and frequencies are listed below. Thanks

Toronto – 106.5 FM
Vancouver – 106.3 FM
Ottawa – 95.7 FM
Calgary – 88.1 FM
Edmonton – 89.3 FM

779. William (Bill) Westenhaver, R.I.P.

Yahoo group: cidxclub
Date: 2015-11-22 22:23:46 UTC
From: sheldonharvey
Topic: 779 Message: 779

I'm sad to report the passing this week of a person well known within the radio hobby community, William (Bill) Westehnaver.

A native of Angola, Indiana, Bill moved to Montreal in the late 1960s, where he spent the rest of his life. An avid shortwave listener, DXer and QSL collector, Bill was an active member of several radio clubs including CIDX and Speedx. He was a participant in numerous ANARC conventions and Winter SWL Festivals.

Bill took a job with Radio Canada International, working in the Audience Relations department. One of his principal duties was issuing RCI QSL cards for reception reports received from around the world. Bill went on to other duties within the CBC/Radio-Canada headquarters in Montreal.

Bill was an active member of the Coalition to Restore RCI Funding and the RCI Action Group, the ad hoc groups that worked tirelessly to restore and/or retain the services of Radio Canada International on shortwave.

Bill was also the original co-host of The International Radio Report, with Sheldon Harvey, on CKUT-FM in Montreal. He also worked on a number of other programs on CKUT over the years.

Bill passed away earlier this week here in Montreal. We extend our condolences to all of his family and friends. He will be fondly remember throughout the radio community.

Sheldon Harvey

Tune in @ 2100 with no signal whatsoever. By 2200 there was a wave sign on the Perseua screen and some very tentative music briefly rising above the band noise. Music continued to improve , slightly , but no other audio was able to break thru the noise. Finally at 2153 I caught a positive ID in English. I could just briefly make out the announcer saying “Voice of Hope” . The band noise was just to high to get any real good audio. If this would stay on the air for another hour or two I believe that the signal would improve to a decent listenable level.

793. Evening Logs

Yahoo group: cidxclub
Date: 2016-04-21 01:33:08 UTC
From: Stephen C Wood
Topic: 793 Message: 793

Conditions tonight, April 21 0000 UTC , seem to be fairly quiet with openings more into central Asia. Several relays via Tashkent are in at fair/good levels. There is even a tentative Dushanbe log which is fairly rare here. All logs are made using a Perseus SDR and superloop antenna with variable termination. I have set the termination at 225 S/W. This seems to give the best reception on shortwave while the antenna is much more directional on the mediumwave band.

9390 - IBRA Radio, Tashkent,Uzbekistan 0018
- Apparent radio play w/ several om ,women & children with dialog in listed lang.,Bengla. Ended w/ brief sub-cont.instrumental piece then YL announcer came on giving extensive contact info, several phone #'s, 2 separate PO boxes, & e-mail. ID was also given. There was a brief regional style chant before going into a more western orchestral piece prior to the signal being cut @ 0029

9855 - R.Tirane,Shijak,Albania 0125
- Interval signal appeared here @ 0125 W/ fair-good signal levels. There is some strong band noise along w/ local QRM here in the shack, I'm working on it. Audio at s/on is very depressed.YL w/nx in EE @ 0031. Could be on reduced power ?

9885 - RFA, Dushanbe,Tajikistan 0120
- Brief audio over CNR1 jammer heard here. Signal of CNR is fair w/some fades. RFA only rises above them for very brief periods

9965 - R.Cairo, Abis,Egypt 0041
- OM in Arabic w/ tent. cultural prgm (?). This was in Arabic but heard several mentions of Arabiya,Morocco etc... Could have been a news type feature so this is really a guess as to the specifics of the program. The interesting thing was the relatively clear audio tonight . There was a slight buzz on the signal but the modulation was some of the clearest I have heard from Cairo in quite awhile

Bill,
HCJB is still active on shortwave direct from Ecuador. They are on 6.050. I'm not quite sure of their exact schedule, i think they are on most evening until 0500 UTC, but they are on right now, although reception is poor here tonight. They broadcast in Spanish & local languages only.

Interesting. Thought that they had to tear everything down to make way for an expansion at an airport near their transmitter sight.
Apparently the earthquake did not harm the transmitter and antenna that is currently in use.
Thanks for the update.
Bill

9965 - R.Cairo, Abis,Egypt 2312 May 3,2016
- Tune in to Arab YL vocals.Time pips @ 2315 followed by YL w/ ID for Radio Cairo North American service, fanfare then into English news. Ended news with Egyptian weather then into news analysis program featuring Syrian conflict and attempts at ceasefire . This is one of the best signals I have heard from Cairo in quite awhile. Audio was clear, signal was strong, S9+20 , and steady. Interference was minimal. There was a very noticeable constant hum on the signal which although slightly annoying did not cause any serious degradation to the audio.

> ** ITALY. Greetings from Italy! As from Wednesday, 4 May 2016, Marconi Radio International will start a regular service according to the following schedule: On Wednesdays, from 1800 to 1900, from 2000 to 2100, and from 2200 to 2300 UT on 7690 kHz USB mode (alternative frequencies: 7700 and 7790 kHz).
>
> The power is in the region of 100 watts. We have standardized our transmissions: there are now only broadcasts 60 minutes long. The first half hour is always a DX programme in English (Italian Shortwave Panorama) followed by mailbag (or DX) show in Italian or non-stop music interspersed with announcements in English, Italian, German, Spanish and Catalan.
>
> MRI encourages reception reports from listeners. Audio clips (mp3-file) of our broadcasts are welcome! We QSL 100%. Our electronic mail address is: marconiradiointernational@... <mailto:marconiradiointernational@...> - Please don’t forget to include your postal address as some lucky listeners will also receive a printed QSL card.
>
> Last but not least, we need your help! If you use social networks, please post an announcement on Facebook or send out a tweet the day before the broadcast. You can also forward this message to a friend. This should help increase our potential audience. We hope to hear from a lot of shortwave listeners about our transmissions. 800. 60 meters Cubans

Yahoo group: cidxclub
Date: 2016-05-24 02:09:49 UTC
From: Stephen C Wood
Topic: 800 Message: 800

All three Cuban stations on 60 meters are awol tonight. No sign of R.Rebelde 5025, R.Havana 5040 or R.Progresso 4765. There is a station on 5025 w/a very weak and distorted signal . The static levels are very high so it is difficult to even ID the language of the station. I believe that it is in Spanish so it possibly could be Peru, R.Quillabamba, as the style of program doesn't fit with what I have heard from Rebelde in the past. Signal disappeared at 0206 after brief announcement by om and a minute of silence, I am still hearing Havana on several 49 meter band frequencies tonight.
